The old prophecy of the Republicans that if Cleveland should be elected, work would cease and wages be reduced, &c., is again proclaimed through out the land. They are trying to throw sand into the eyes of the laboring man so that he shall be blind enough to vote for their tatooed candidate. But that game is played out. The working class have experienced that those threats of the republican leaders are false and that by voting with the party in power they only help to make the rich richer and the poor poorer. The present condition of industrial affairs is sufficient to show the poor working man that they were fooled by the sweet promises of of the United States. the republican party in 1880 and they will take good care not to believe the same promises of those sly politicians.

A REPUBLICAN LIE NAILED.

The Republican managers hereabouts who are so anxious to elect their candidates to the Legislature to vote for a Republican United States Senator, have been quietly circulating the report that it Mr. WOODWARD and Mr. Rhone were elected they would vote for a bill requiring stock of all kind to be kept in enclosures. The following correspondence on that subect fully and effectually nails that lie:

Grenoble, Henry Krumrine and to all whom it may concern:

Dear Sirs—Yours of the 26th inst. received, stating that it is being circulated that if I was elected Representative to our State Legislature, I would urge a law requiring owners to keep all kinds of stock in enclosures.

In my opinion such legislation would be objectionable to the majority of the people of Centre county, and would work a great hardship, as we have large commons in the county, rich with natural pastures, which would be an entire waste could they not be utilized by pasturing. Even many of our farmers, besides poor people, pasture their cattle on them without detriment to any one.

The laws of our State already provide that when cattle or other stock become dangerous

when cattle or other stock become dangerous or annoying to the public the owners must re-strain them or be liable for all damages done

by them.

If elected to the Legislature, I shall vote against and oppose to the best of my ability any law that directly or indirectly prevents our k-boring men, farmers or others, from pasturing their-stock on the mountains or unfenced lands of the county.

Very respectfully yours,

LEONARD RHONE.

HOWARD, Pa., Sept. 30, 1884.

Messrs J B Heckman, M L Rishel, I J Grenoble, Henry Krumrine,
GENTLEMEN—The report referred to in your kind favor of the 25th iust. is untrue. Possibly its origin may be found in the fact that I advocate and practice, as a matter of farm economy, the abandonment of inside fences, and the herding of stock when at pasture on the farm.

I regard public office as a public trust, to be administered in the interest and in compliance with the wishes of those by whom the trust is administered in the Interest and in compliance with the wishes of those by whom the trust is committed: and if elected to the Legislature, I shall faithfully try to perform the duties attaching to the position in accord with this view.

In my judgement such legislatiod as that to which you allude would be in opposition to the interest and wishes of a large majority of the citizens of the county. I shall therefore if it be presented vote against it.

Thanking you for calling my attention to the metter.

I am very truly, JNO, A. WOODWARD.

The two adresses published below make very interesting campaign reading, and we advise our republican as well as democratic readers to give to thoughtful voters the opportunity of this literature a careful perusal. After their reading they will hardly have any trouble to decide upon the political course.

THE New York Times, republican, recently remarked in one of its editorials, that if every citizen of the United States would read and understand the "Mulligan Letters," Blaine could not receive the electoral vote of a single state in the union.

We do not find fault, reproach or condemn the practice of any regular physician—this is not our mission—but we do claim that if he were to add PERUNA to his prescriptions, as directed in our book on the "Ills of Life," (and furnished gratuitously by all druggists), he would cure all his patients.

Mr. Henry C. Reynolds, Ironton, Lawrence County, Ohio, writes: "My wife has been sorely distressed for many years. Her disease or diseases and the symptoms of them have been so varied that an attempt to describe them would be more than I feel able to undertake. I have paid over a thousand (1,000) dollars for doctors and medicines for her, without any satisfactory results. We read so much about your PERUNA that I was forced to try it. She has now taken five bottles; they have done her more good than all the doctors and medicine that she has ever made use of. PERUNA is certainly a
