A REPORT in Albany says that Grov . er Cleveland will resign his position as Governor of New York on the first of January, 1885, so that Lieutenant Governor Hill can enter his office simultaneously with the organization of the legislature. This would give Clevelaod two months time to prepare himself for the great work which awaits him at Washington. It would certainly be an advantageous arrange-

THE different cabinet makers, who ever since the election are busy to save Cleveland the trouble of making his own cabinet should pay attention to the remarks of Cleveland in an interview with a newspaper reporter: "If I would let these fellows do as they pleased, there would be no work left for me at Washington. However they may continue to amuse themselves, and when my time comes I will do what seems best to me."

CONKLING, for all he did not make a single speech against Blaine, proved himself a terrible enemy to that gentleman. The stalwart bolt originated in Conkling's own county [Oneida] and was sufficient to turn said county against the Plumed Knight. In 1880 Oneida county gave Garfield a plurality of 1964, while in 1884 it gave a plurality of 28 for Cleveland.

Conkling returned the compliment of having been turned the cold shoulder under the Garfield administration.

For Solid Prosperity.

Policy of the Coming National Administration on Business Interests.

Boston, Nov. 23 .- In the course of an interview with a representative of the Boston Globe yesterday President Cleveland, in speaking of the business and manufacturing interests of the country and effect of a change in the administration on those interests, said : "It goes without saying that the democratic party is made up of merchants, business and workingmen, and everybody in it certainly desires good times and realizes that all the people must be prospercus to insure the result. We have 55,000,000 of people, almost boundless resources, hundreds of the strongest financial institutions in the world. thousands of enterprising merchants, the most skillful manufacturers and the most intelligent farmers and workingmen on the face of the earth. Now, surely a country with these character. istics has every qualification for a solid, permanent prosperity. It will be my aim, and the aim of all associated with me in the conduct of affairs at Washington, to give the people of the United States a safe, economical and conservative government. The fact that so many business man and manufacture's and workingmen voted with the democratic party in this election shows that they were not afraid of a change in the administration. The democratic party in its Chicago platform meant what it said and said what it meant, and will carry the provisions of that platform which relate to the business interests of the country into effect. The most important thing is the restoration of confidence and the determination to forget partisan heat and excitement and to devote our lives to the things which tend to the substantial welfare of the country and all of its people. In this work every mm should feel that he has a part to perform."

COLORED PEOPLE.

President - Elect Cleveland's Reasons and Sensible Words.

He Deplores the Efforts to Frighten the Negroes and Wants Mischievous Croakings and Dark Imaginings to End.

ALBANY, Nov. 20.-Governor Cleve. land was asked by an Associate Press reporter to-day if he was aware of the delusion existing among the colored people of the South that a change in the administration would unfavorably affect their condition, to which he re-

"Yes, I have been astonished at the statement that there was an apprehension existing among the colored people that in some way their rights, now secured to them under the laws and constitution of the United States, were in danger from the election of a demogratic president. I am even told that some of them are led to suppose the resuch foolish fears, that I can hardly the hands of corporations, which have pectorant properties, no combination of deem any notice of them necessary.

ed, and all the advantages to which all other countries of the world. they are entitled, by reason of their citizenship, will be secured to them.

"There need be no fear that either the democratic party or the newly elected administration proposes to oppress or enslave any part of our population, nor to destroy the business interests of the country. We hope, on the other hand, to do something to benefit the people. It seems to me that our efforts in that direction would be aided if mischievous croakings and dark imaginings should give place to an earnest endeayor to inspire confidence and to make universal a cheerful hope for the

Charters for New Railroads.

Further Developments of the Elk County Coal Fields.

Charters for the following new railroads were granted at the state department on Thursday Nov. 20th.

The Crawford Junction and McKean county railroad company, the line of which runs from Crawford Junction, McKean county, to Johnsonburg, Elk county, a distance of thirty miles. The capital stock is \$300,000 in \$50 shares. The president is J. K. P. Hall, of St. Mary's, Elk county, and the directors are Lewis Victor Bright, James Buckley, John J. Wilkinson, of Philadelphia; Samuel Hines, of Scranton, and C. L. Atterbury, Joan King and Edward S Bowen, of New York City.

The Brockwayville and Daguscahonda railroad company, the line of which runs from Brockwayville, Jefferson county, a distance of about thirteen miles. The capital is \$130,000. The president and directors are the same as in the above company.

The Daguscahonda and Elk county railroad company, the line of which will run from Daguscahonda Junction, Elk county, a distance of seven miles. The capital stock is \$7000, and the officers are the same as in the two former

A Postal Telegraph.

In view of the power shown by Jay his part to use it in behalf of his favor- mounted to a little more than \$20,000, to be Secretary of the Treasury, is ex- bank for \$5,000! The patriotic old ceedingly apropos:

channels of commerce thus owned and controlled by one man, or by a few men, what is to restrain corporate power? What is then to hinder these men from depressing or inflating the value of all kinds of property to suit their caprice or avarice, and thereby gathering into country so long. their own coffers the wearth of the nation? Where is the limit to such a power as this? What shall be said of the spirit of a free people who will submit without a protest to be thus bound hand and foot ?"

With a postal telegraph on the plan proposed to the last Congress by Congressman Sumner, of California, and Senator Edmunds, of Vermont, coupled with a Civil Service system which would place the tenure of office beyond partisan control, such a danger as that above noted would be obviated. Referring to the existing situation, the N. Y. Times says:

"For the past forty-eight hours Mr.

Jay Gould has been using the Western Union Telegraph to spread abroad through the United States false information as to the result of the election in the State of New York. The proof of this is well known to every intellagent journalist in New York. Mr. Gould did the same thing in October with reference to the election in Onio, when not one specific statement capable of verification or exposure was allowed to pass over the Western Union wires for more than thirty hours, and when the statements that were sent were shown within two days to be conspicuously and intentionally false. As to the yote of New York the plot has been nea ly identical and has been carried out with more persistence. The returns have been sent out in lumps of 'election districts,' which are not named and cannot be indentified, and the publication of these has been made in amounts and at times to suit the schemers. Occasional pronunciamentos from the Blaine Committee have shown that returns from comparatively remote points have been used promptly, while those from points within an hour's ride of the Western Union Building have been held back. * * * "Mr. Jay Gould's performanc for the past forty-eight hours have made a Government Postal Telegraph a necess-

ity in this country " Electricity is the quickest, and therefore the most valuable, means of conveying intelligence. The people of the United States paid for constructing the first line of telegraph for Prof Morse sult of the recent election means that between Baltimore and Washington they may again be made slaves. All of thereby demonstrating the feasibility this has appeared to me to be so absurd, of using electricity to convey intelliand I have been so sore that the slight- gence. AVERAGE CITIZEN. WASHINGTON LETTER.

From our Regular Correspondent

WASHINGTON, D. C., Nov. 26, 1884. It is scarcely to be supposed after the lean sweep that the Democrats have made in the election, that they should leave the Augean stable at Washingon unattented to. Yet it might be well enough to let the poor fellows down easily by holding out the promise that they may possibly get in again some time under the Civil Service rules the enforcement of which the new President seems to have a special desire. A good many of the clerks here who have been on the Government payrolls for a number of years, have acquised and paid for their homes, while there are other thousands who have purchased homes without paying for them, except in part. With these last the general bounce from official position will not be much of a hardship, because their payments have not more than covered the amount they would ordinarily have paid for rent.

About one-fourth of the population of Washington is made up of Government clerks and employes in various capacities, and the elimination of such a horde eyen in the slow process of filling their places, will have a most marked effect upon the city and its business. The politican guillotine must be as it ought to be, set up at once and kept in operation until the change of administration shall be thorough and complete.

I suppose that nobody in office here knows, and few care, about what the country owned before the outbreak of the rebillion, but there are yet a few of the old Government creditors left who for all the long years since 1828, wher Jackson became President, have held on to their Government securities through evil and through good report. Here the other day agentleman walked into the Treasury Department and told an official that he was from a New England town, and as the administrator of his father's estate had unearthed some old bonds which he supposed were worthless. Upon producing them musty and yellowed by age, it was found that they were indeed some of Gould over the Western Union Tele- the old Government wonds which ceasgraph Company and the Associate ed to bear interest in 1836. The face Press, and the manifest disposition on value was \$50,000 and the interest aite Presidential candidate, the follow- and the gentleman left the Treasury ing utterance of Senator Windom, of with a matter of \$70,000, which a few Minnesota, just before his appointment days before he had offered to a local fellow who had hoarded the bonds, 'The channels of thought and the knowing that interest had ceased fifty years ago, and who had not called upon the Gouernment to pay when it was in trouble, is deserving of more than a passing recognition, for I believe he is the only one who has eyer trusted his

Corrected.

Miss Anna Johnson, of 24 Front street, Columbus, Ohio, says: "I suffered from an aggravated form of constipation and indigestion for several months. My family physician tried all kinds of medicines and pills, but to no effect. I began to think my case was a hopeless one. A friend of mine (Mrs. Elvira Redmond, of East Long street, this city), called, and seeing the condition I was in, recommended me to try your MANALIN. I must say I had but little faith in the medicine, but after I had taken a few doses I was convinced that MANA-LIN was the medicine for me. After I had taken one bottle I was entirely well of my complaint. I consider it one of the best remedies for constipation I have ever used. I have several friends who are using it. They think it an excellent remedy. I recommend it to all who are afflicted with constipation or indigestion. Any one doubting this statement is invited to call on me at 24 Front street."

Mr. Milton Knotts, Urbana, O., writes: "Last November one year ago I was taken sick, and called in our family physician. He examined me and said I had symptoms of typhoid fever. He gave me medicine for two weeks or more withoutany relief. I began to think that my days on earth were fast closing in. I saw at once that his medicine would not reach my disease. Just as I was about to conclude that I would have to die, my daughter brought me one of your pamphlets. I noticed a case whose symptoms were like mine, and PERUNA and MANA-LIN had cured him. I concluded at once to try it. I procured one bottle of PERU-NA and one of MANALIN, and took them as directed, and before I had used the two bottles I began to receive strength and gain in flesh. I finished the rest of the two bottles and continued its use until the third bottle was used. When they were used I could eat anything I wanted to and go about my work. I consider that if it hadn't been for your PERUNA I would have been in my grave. Parties wishing information can write me at the above place. I recommend your medicine wherever I go,"
Mr. John R. Davis, Moundsville, W.

Va., writes: "I have been handling your PERUNA ever since its introduction. All who have used it speak highly of its curative properties. I consider it a reli-
