Letter from Kansas. Pleasant Valley, Jan. 26th 1885. Editor of the JOURNAL: As I have not written anything for your worthy paper for the past year, I would ask you for a little space in your columns. Your paper is a weekly welcome visitor at our home, but I hardly ever see anything in it from this part of Kansas, so I thought that a few words might be of some interest to our many friends in Penna valley, who are readers of your JOURNAL. We had an extraordinary cold winter so far. Ever since the 20th of December it was very cold and we had a great deal of snow, more than we had the four past winters together, since we are in the country. Mr. Editor I often wish for one of my bob sleds, that I used to have in old Penna valley, I would make good use of it. But I don't want your readers to think that we have no sleds in Kansas. I venture to say that if you would see all the different styles and patterns of sleds you would laugh. We have at present writing about 6 inches of snow and the wind blowing cold from the North, with good indications of more snow. It keeps us busy to haul and cut wood to keep warm and to attend to our stock. This is a severe winter on Kansas stock. Hundreds of cattle have died from the cold and want of shelter and feed. So many stock men here have no shedding for their stock at all. The poor animals are exposed to all the storms and very often do not get half the feed they ought to have, which is all carelessness on the stockmen's side. Feed is always plenty with us for cattle. Our crops were very good of all kinds last year. I wish, Mr. editor, that our Penna valley farmers could have seen the wheat stacks and rye and oats and barley and the tremendous crop of corn. Thousands of acres of wheat made 45 to 55 bushels to the acre and some claimed they thrashed 60 bushels to the acre. I had some on my farm that went 45 bushels to the acre. And then the amount that went to waste you have no idea of at all. But to test the truth of my statements you can ask my worthy friend H. E. Duck, of Millheim, who honored us so highly with a very pleasant and much enjoyable visit. As we were riding over our beautiful Kansas land together and over the grainfields he may be able to give you a faint idea of the grain that went to waste in Kansas. I will give you an account of the crops we raised on our farms. We had 130 acres of wheat and thrashed 3300 bushels and I am sure there were 500 bushels wasted on account of extreme wet weather. We had 70 acres of rye and thrashed 1400 bushels and there was fully 75 wasted on the field. 70 Bushels oats, 200 bushels barley and 200 bushels corn shelled. But, after having such a pile of grain, until expenses are all paid, there isn't much profit in it. Wheat was sold here as low as 20 cts. per bushel. Best wheat now brings 60 and 65 cts. per bushel, rye 20 cts corn 20 cts oats 22 cts and barley 30 cts. Times are dull and money scarce, I have 85 head of cattle, 9 head of horses and 30 head of hogs. Stock is on the downward road in price, and bound to come down more. Kansas land is in great demand. Land buyers are very numerous and land is wild in price. All grades of land have raised over 1/2 in value in the last 9 months. Emigrants are coming in from all parts of the world and are seeking homes. But there is still plenty of room for more. Should any of our Penna valley friends wish a nice home we say to them, come, here is the place to get them, and cheap yet. A man with industry and snap and some self denial can secure for himself a nice home, where he can never get one in the eastern states where land is high. Elmer my son was thrashing since the middle of July right along till the middle of Dec. 84 and has to thrash for 6 weeks yet. He thrashed over 30,000 bushels besides our own. He has more than paid for his machinery yet. Well now, I must close my lengthy letter or else I weary you. This leaves us all well and all old friends in Penna valley and all old friends in Penna valley. Yours fraternally, P. B. STOVER.

Penn Hall Shavings. Mr. Bidwell is with us again, doing work for J. C. Condo. Mr. Calvin Weaver, one of Aaronsburg's boys, was in our midst last week. Always glad to see you, Cal. Our little town can boast of a dentist now. And Frank is not so slow at it, either. Reuben Klme is as busy as a beaver, serving subpoenas, warrants, &c. Boys go at once and buy a new blank et! The one you lost will never turn up. Take my word for that. The festival at Spring Mills netted \$75, which will pay the debt on the church. Glad to hear it. One of John Condo's Guinea Pigs went where "The Woodbine twineeth, and the Whang Doodle mourneth." James Condo has all his sleighs sold and is now as happy as a bug in a rug. James, advertise in the JOURNAL for the spring trade and you will be sure to succeed. Birthdays, surprise, and other parties are still going on, and our young folks don't seem to tire of it. We think the "Mountain Boy" might as well show his colors in regard to the school affairs. It is very singular, that the directors do not make a better choice of teachers. It is really no wonder that some of the citizens growl about the teachers in some of the districts. Turn the rascals out! JACK PLANE. MARRIED. On the 26th ult., by Rev. Z. A. A NEW DEPARTURE. A Strictly Cash Store Where good are bought and sold ---FOR CASH--- Believing that the people of Centre county are fully awake to their best interests and that they have the intelligence to comprehend and the courage to recognize the means best calculated to bring about the most desirable results, we would most confidently and earnestly submit the following for your careful consideration: That king credit has slain its victims by the thousands upon its extended battle fields is a fact beyond successful contradiction, and we would only ask you to call to your recollections your own observations in proof of this fact, and the pitiful appeals of those still under the crushing heel of the tyrant fall upon our ears with unmistakable certainty and we would say, come, let us rush to their rescue by wielding the sword of justice and striking the monster down with a decisive blow and keeping him there by eternal vigilance. This can be done only by a system which pays as well as demands CASH on delivery. This system we will adopt and put into operation on the twenty-sixth day of December 1884, after which we will buy and sell positively for cash and produce only and will name such figures on goods as will fully convince every intelligent person that it is to their interest to buy their goods where KING CREDIT finds no quarter, but where the CASH SYSTEM is radically and permanently established and strictly adhered to. Kindly inviting and soliciting the co-operation of every one in giving this system a thorough trial, we are Very Respectfully Yours, Dinges, Trumpfeller & Co., COBURN, PA. P. S: Country produce taken in exchange for goods and cash paid when desired.
