Millheim Lodge, No. 555, I. O. O. F. meeting hall, Penn Street, every Saturday evening...

Democratic County Com. for 1885.

Director, COMMITTEE, Belmont, N. W., Wm. R. Ludwig, S. W., Wm. R. Ludwig, Howard Boro., J. H. B. Proutfoot, Millburg, J. H. B. Proutfoot, Millheim, J. H. B. Proutfoot, Philadelphia, J. H. B. Proutfoot...

CLEVELAND is said to be busily engaged on his inaugural address.

Geo. Ricker, of Rochester N. Y., presented President Cleveland with an antique armchair, which was made in 1775.

SENATOR WALLACE is being strongly recommended by prominent democrats and the press of the state for a position in Cleveland's cabinet.

Wednesday, February 11th, Congress finished the last act of the presidential election of 1884. It counted the electoral votes, 219 for Cleveland and Hendricks and 192 for Blaine and Logan.

LAST Thursday evening the Philadelphia almshouse was the scene of a terrible and destructive conflagration. The building is situated on the western side of the Schuylkill and is divided into two departments—for males and females.

MANY speculative opinions and suggestions have been given about the most suitable men for the new president's cabinet. But one point is granted by the most conservative and thinking men and that is that Cleveland's character is a guarantee for the selection of men who are entirely independent of all corporations and who aim to bring this grand republic back to its former purity.

standing the influence of the bright sunshine, the mercury only struggled up a few degrees. It reached its highest point—4 below—at 4 o'clock this afternoon. At 6 o'clock it had fallen to 6 below, and at 9 o'clock it was 10 below, while reports from the west and northwest indicate a still lower temperature before morning.

The New Orleans Exposition is in debt \$360,000. They want Congress to appropriate another half million dollars. The sentiment in Congress and elsewhere is greatly opposed to any further appropriation.

IRON PROSPECTS IMPROVED.

YOUNGSTOWN, O., Feb. 16.—The prospects for business among the rolling mills here is very much improved. Several mills are running on double time, and several idle mills will start up this week.

One of the Boys.

Ex-Governor Curtin With His Army Friends at the Theatre.

Washington Dispatch to Pittsburg Post. Governor Curtin, who is quite a conspicuous figure here, either in Congress or the social circle, created a sensation at the theatre last night, being the object of much unsolicited attention. He has been anxious to see Henry Irving and he told Mrs. Curtin and their daughter Mrs. Wilson, to go and he would meet them there. "They need not engage a seat for him. No, no; he would get a seat and be all right," he said, as they parted.

Miscellaneous News.

THE STORM AT SCRANTON.

SCRANTON, Pa., Feb. 16.—A blinding snow storm accompanied by a heavy gale set in here about 5 o'clock this morning. The trains were stopped and in some instances wrecked. Telephone wires are prostrated and telegraph wires will not work.

The Hooking Valley Strike Starved Out.

COLUMBUS, O., Feb. 15.—Announcements were made in all parts of the Hocking Valley to-day, that commissary had given out and that aid was no longer coming in, and advised men to get work. This ends the strike that started last April. Many of the men went in last week in anticipation of the climax.

Live Stock Killed on the Railroad.

HUNTINGTON, Pa., Feb. 16.—Shortly after midnight last night an east bound freight train on the Pennsylvania railroad was thrown from the track by a broken flange, midway between Spruce Creek and Bermlington. Sixteen cars were demolished, twelve of them being filled with live stock. Two hundred sheep, eighty hogs and several horses were killed.

A BABY BURNED TO DEATH.

New Bloomfield, Pa., Feb. 14.—The wife of James Sque, of Fishing Creek valley, Rye township, left her two children, aged respectively six months and two years, alone in the house while she went to a neighbor's. When she returned the clothing of both was on fire and the youngest was so severely burned as to cause its death in a few hours. How the clothing caught fire is a mystery.

A NEW SWINDLE.—Another infamous swindle upon the farmers has been unearthed and we publish it for the protection of our rural readers. It is conducted ostensibly in the interests of a Chicago firm, but in reality is the work of a pair of sharpers, who are said to be collecting statistics for some sort of report on agricultural products. They send blank statements to farmers and ask them to fill them out and sign their names, merely for the purpose of verifying the report.

The use of Iodoform or Mercurials in the treatment of catarrh—whether in the form of suppositories or ointments—should be avoided, as they are both injurious and dangerous. Iodoform is easily detected by its offensive odor. The only reliable catarrh remedy in the market today is Ely's Cream Balm, being free from all poisonous drugs.

PETERSON'S MAGAZINE for March opens with a beautiful steel-plate of two girls caught in a snow-storm, and entitled, "The Sisters," illustrating a powerful story by Frank Lee Benedict. In addition, there is the usual double-size fashion-plate, printed from steel, and colored by hand. "Peterson" being the only magazine to give these expensive and refined fashion-plates. Besides this, there is a colored pattern for a "Tidy on Java Canvas"; a capital humorous illustration, "The Beleguered Garrison"; and one fifty wood-cuts of fashions, embroideries, work-table designs, and other things useful to ladies.

One of the handsomest and most unique and original ideas in chromolithography is the Columbia Valentine, just issued by the Pope Manufacturing Co., of Boston, Mass. The design, which is in twelve colors and mounted upon a panel, is a genuine work of art. The picture, from a painting by Copland, of Boston, is artistically divided into three scenic sections: The first, a view of early sunrise, with a fine atmospheric effect, represents the wheelman's morning ride; the centre scene, appropriately framed by the tire of an expert bicyclist, is a striking beautiful view of picturesque country, a lady riding upon a tricycle accompanied by a mounted bicyclist, crossing a rustic bridge in the foreground; the last scene is a wheel by moonlight, the bright rays of the hublights cutting the semi-darkness.

FEBRUARY 14, 1885. A picture of the early dawn, When as I hasten o'er the lea, With boon companion of the morn, I counsel hope, but think of thee. A picture of the laughing noon, When o'er the rustic bridge I ride, And dare interpret friendship's rune, For thou alone art by my side.

THE horrible nauseous worm-seed verminages and worm syrups have had their day. It's downright cruelty 'o' compel a child to take them when McDonald's Celebrated Worm Powders are so easy and pleasant to take that children take them and never know a medicine is being administered. Can be procured at any drug store for the small sum of 25 cents.

Fast Time in an Ice Boat.

Fine Sport on the Delaware, With a Spice of Danger Thrown In.

The ice boat Hope, of Burlington, N. J., carrying its owner, J. W. Fennimore, and Rufus G. Wilkins, of this city, made the excellent time of half a mile in twenty-nine seconds on Thursday and is said to have done even better on a former occasion.

"It was bewildering, whirling the wind out of us and into us at the same time," said Mr. Wilkins yesterday. "It takes a steady hand and quick eye to handle one of the machines when it blows hard, especially on a wind and over rough ice. One moment she is up on the leeward runner and the next she leans to windward, and then makes a fearful leap in the air and does not reach the ice again in a hundred feet. Sailing on the ice may be called the 'poetry of motion,' but there is a scared-to-death sort of ecstasy thrown in."

"Eighty miles an hour is claimed for a recent improved model—in fact, there is no limit to speed when approaching the wind, if the ice is suitable. The movements are peculiar, with conflicting sensations that hardly admit of explanation. The desire that some people have to leap from a giddy height is doubtless the same. The Hope sailed from Burlington to Camden in sixty minutes, the first and only time an ice boat has been over the course, the ice being rough with many obstructions. We expect to have another sail in a few days."

Wonderful.

From the Pittsburgh Dispatch, Sept. 25th, 1880. "Very seldom do we read of an actual case of recovery, where hope had altogether been lost, to parallel that which was Monday investigated by a Dispatch reporter, who had heard in various quarters persons talking to their friends of a cure, seemingly little short of marvelous, that had been performed. The plain facts in the case referred to, without exaggeration, are these, as they were learned from the mother of the young man, his pastor and other persons well known in the community."

William Lincoln Curtis is the name of the young man in question. He is now employed at H. K. Porter & Co.'s locomotive works in Pittsburgh, Pa. A year ago he resided with his mother on Grant street. About that time he went to bed one evening with a violent pain in his shoulder, the result, he thought, of a cold. The next morning the shoulder was greatly swollen, the pain was intense, and aches were felt all through his system. His case was speedily developed into a violent form of chronic rheumatism, among the first notable features of which was the paralysis of his left arm.

He gradually grew worse, and in a few months the elbow and knee joints and both ankles became enormously enlarged. In March last the check bones began to enlarge, and upon his left side particularly, spreading his face out of all resemblance to his former self. The pain in all his joints became intense; fever, with its deteriorating effects, was now added, and he became rapidly reduced to the semblance of a skeleton, while vitality reached its lowest possible condition, and his sufferings were of such an indelible character that those who most loved him sometimes thought it would be better if he was called away. At this time a physician friend known in Pittsburgh informed his parents that they could give no hopes of recovery.

The young man finally commenced taking that wonderful medicine, PARINA. In two weeks the pain in the joints was perceptible. In six weeks all the enlargement had been reduced completely, while in spirits and strength he became as vigorous as he had ever been in his life. Nearly three weeks ago he resumed work as a machinist at his old place, to perform as much labor as ever in his life. "The mother of Willie Curtis, in stating all these facts, said: 'Indeed, I can not look upon the cure much less than as a miracle. I do not hesitate in sounding the praise of PARINA, and in recommending it to all my friends.'"

THE MOST REMARKABLE CASE OF ALL.—A gentleman writes to us from Philadelphia, Centre Co., Pa., that his little girl was horribly afflicted with scrofula. Her body was full of sores, ears discharging continually thick yellow purulent matter, and her eyes so swollen and inflamed as to be almost blind.
