# ---FOR CASH-

Believing that the people of Centre county are fully awake to their best interests and that they have the intelligence to comprehend and the courage to recognize the means best calculated to bring about the most desirable results, we would most confidently and earnestly submit the following for your careful consideration:

That king credit has slain its victims by the thousands upon its extended battle fields is a fact beyond successful contradiction, and we would only ask you to call to your recollections your own observations, in proof of this fact, and, the pitiful appeals of those still under the crushing heel of the tyrant fall upon our ears with unmistable certainty and we would say, come, let us rush to their rescue by wielding the sword of justice and striking the monster down with a decisive blow and keeping him there by eternal vigilance. This can be done only by a system which pays

as well as demands CASH on delivery. This system we will adopt and put into operation on the twenty-sixth day of December 1884, after which we will buy and sell positively for cash and produce only and will name such figures on goods as will fully convince every intelligent person that it is to their interest to buy their goods where

KING CREDIT finds no quarter, but where the

CASHSYSTEM is radically and permanently established and strictly adhered to. Kindly in

viting and soliciting the co-operation of every one in giving this system a thorough trial, we are
