LEADING democrats are of the opinion that Mr. Manning's name will be found on the list of Cleveland's Cabinet on March 4th, for secretary of treasury.

JOHN KELLY, of New York, the Tammany chief, is in poor health. The election last fall must have been too much of a shock to his physical constitution. His sickness dates from that time.

Suicide of Howard Brickly.

From Philipsburg JOUR NAL.

The report that a man had been found dead in bed at the Loyd House shortly after dinner, on Sunday, created an intense fever of excitement in our midst, and in a short time that hotel was the centre of attraction. Everybody that heard the report went there to see the remains, and to learn the particulars of the sorrowful affair. The unfortunate young man, who had thus suddenly been deprived of life, was Mr. Howard W. Brickley, traveling salesman for French, Richardson & Co., of Binghamton, N. Y., who had arrived in this place from Kylerton, about four o'clock on Saturday afternoon. After retiring for the night, that was the last known of the man until about 8 o'clock the following morning. At that hour the porter came down stairs and in formed Mr. Row that he couldn't get

any answer to his rap from the occupant of No. 13, but that the gentleman must be sleeping very sound, as he was

snoring very loud. Nothing was thought of this, and the room was not visited again until noon; but when that hour came around, and the man was still in received . the reward will be divided. bed, fears began to be felt that some-The money will be forwarded to the thing was wrong. WASHINGTON LETTER.

From our Regular Correspondent.

WASHINGTON, D. C., Feb. 24,1885. Whatever difference of opinion there may be about the justice or the injustice of retiring General Grant, there is no small amount of sentiment in the country that points to the solemn conclusion that the Government has done all that it ought to do in the way of conferring favors upon the ex-President. I am inclined to think that some of Grant's predecessors in the Executive Chair, whose military services to the country were as valuable as his, should Dauphin to the Swatara gap, Lebanon have some national recognition in the way of exaltation, and the fact that a grand-daughter of the author of the Declaration of independence is now living in comparative indigence right here in Washington City, should mantle the cheek of every Grant admirer in the country. The yery graves of Jefferson, of Jackson, of Harrison and Taylor while raiding on hen roosts recently. have received no mark of public appreciation of the services of these men through any action of Congress which favorably considers a proposition to invest a living ex-President with an exorbitant salary, after he has fully demonstrated his incapacity to take care of the wealth which has already been layished upon him.
