The Rescue, by Geo. P. Bible was rendered in a highly creditable manner. -- Philadelphia Times.

Prof. Geo. P. Bible, a graduate of the Philadelphia School of Elocution and Oratory, attended our Teachers' Institute, last week, and was the very soul and life-blood of the Institute. Abstract mathematics, dull grammar and peculiar forms of government, &c., &c., were interspersed with drama, tragedy and comedy well rendered.

Mr. Bible is a modest unpretentious young man who has been the architect of his own fortune for which he deserves credit and encouragement. We wish him success .- Middleburg Post.

The entertainment given by Mr. G. P. Bible at the Opera House last even. ing was exceedingly well attended by an audience that was entirely en rapport with the gentleman giving the entertainment. He was listened to with the greatest attention from first to last. and the audience was highly pleased. Mr. Bible certainly possesses all the elements of a first class elocutionist and is especially at home in serious and sentimental pieces as well as those of a comic nature. - Northern Indianian.

IN MEMORIAM. -It is our sad duty to announce the death of Mrs. Harriett Keen, the wife of Mr. Henry Keen, of Penn township, which occurred on Friday forenoon at her residence, two miles west of Millheim. The subject of this notice had been ill the greater part of the winter and suffered many physical pains before she was called to that silent home from which no one ever returns. She was a daughter of Mr. John Harter, of Gregg township and was married to Mr. Keen in the year 1851. She was a true and devoted helpmate to her husband, a loving mother to her children and a kind and obliging lady to her neighbors. When death cast its shadows over her, she humbly submitted to the inevitable. The surviying family experiences great sorrow in this their affliction, in which they have the sincere sympathy of the community. The deceased will be remembered with high esteem by all who

THE CONVENTION. - Last week's convention in the Ev. church was in a general sense a successful affair. In the last few days there was a considerable increase of singers and when the time for the concerts had come the class numbered about sixty. The best talent in town was represented assisted by good musicians from other places and under the able direction of Prof.P. H. Meyer the choruses, quartettes,&c., were executedlin an admirable manner. The concerts on Friday and Saturday evenings were voted fine treats by all who attended them.

Prof. Lowell Meyer deserves marked credit for his excellent performances and much of the success of the concerts was due to his valuable help. Among other pleasing songs Prof. Lowell Meyer rendered several Irish dittys as original as if he had come fresh from the Emerald Isle.

One of the most comic features was the "bazoo" band led by Prof. Lowell. Prof. Kurzenknabe as organist acquitted himself in his usual masterly style and his skillful playing greatly aided

the conductor in his week's work. The concert on Saturday evening was especially good and the building was well filled with spectators, all of whom seemed well entertained. Rev. B. Hengst on this occasion made a few appropriate remarks which were much appreciated by his attentive audience. All concerned feel that they have spent a pleasant week together and we cheerfully sustain Rev. Hengst in his wish to have it repeated at least once a year. The net proceeds amounted to \$29.1 which will be applied to the Town

Clock fund.

-Last Monday evening a singing class was organized in the Evangelical church, to be instructed by Prof. H. J. Kurzenknabe, for a term of twelve lessons. The class will meet twice a week, Monday and Saturday evenings. Prof. Kurzenknabe also proposes to start a juvenile class, to be taught on the same days in the afternoon. Persons wishing to receive thorough rudimental instruction in vocal music would do well to join the adult class and parents are invited to send their children to the juvenile class.

#### Letter from Kansas.

Likely some of you people intend coming west next summer, to see the country. To all such it will be a great help to acquaint themselves as much as possible, with different and desirable localities before starting. By writing to the agents of R. R. Co., in the northern and central portious of Kansas, a pretty highly colored description of their lands may be obtained. southern Kansas has no R. R. land grants, information must be had from other sources. To supply such is the object of this letter. Sumner county is in the southern tier of counties, the much talked of Cherokee strip and Oklahoma borders it on the south. It is one of the largest counties in the State, as well as the best. In proof of the last assertion the reader is referred to the last report of the State Board of Agriculturel of Kansas. The following facts are taken fron the same:

'Sumner county has more hogs, more mules, more fruit trees, more school houses and more miles of Railroad than any other county in the State, only one county sold more pork and beef, only two raised more wheat and corn combined, only three have a larger assessed valuation of property and population and only four have more cattle All this has been accomplished in fourteen years, Clover, Timothy, Blue grass and Orchard grass do well and in a few years thousands of acres will be put into these grasses, then it will take front

rank in cattle. Do not take anything for granted but come and see for yourselves. There are a number of men in your parts, 'in fact all over the East, possessed of a few acres of land, worth from two to five thousand dollars, tenant farmers also whose stock and savings would amount to the same. All such would do well to come and look at the first county in

Prices of farm products rule somewhat as follows: Wheat is generally about 20cts less than eastern quotations, Corn starts at about 20cts when the new crop comes in, and gradually goes up to 30 cts. per bu shel, however, by judicious feeding, either hogs or cattle, 40cts may be realized, some even claim 50cts. The yield of wheat may be anywhere between 15 or 40 bushels per acre, that of corn from 25 to 70 bushels shelled. Hogs sell from \$3 50 to \$6.00 per hundred, live weight.Cat-tle about the same. The lowest paid for Butter, the past year, was 12} cts. per fb., the highest 30 cts., the lowest paid for eggs was 15 cts, the highest 30 cts. per dozen. Live poultry \$2.50 to \$3,00 per dozen, dressed 6 to 8 cts. per tb. Groceries and dry-goods are about the same as in the East. The

same may be said of farm implements. The working season for the farmer begins with March and ends with the middle of December with the exception of corn husking that lasts most all the year. The winters are not very long but sometimes quit severe and it is no waste to provide fodder to last four or five months. This section is not Paradise nor any ways near it, yet, few come here to settle and then turn their faces eastward. Lumber ranges from \$20 to \$35 per M., and buildings that are called very good here cost but a trifle more than one of the same size would in Pennsylvania. Better shelter for man and beast are sadly wanting as well as the thrifty saving habits of the Eastern farmer.

A new Court house at Wellington has just been completed and paid for at a cost of sixty-five thousand dollars. This with the building of two or three iron bridges, made the taxes exceptionally high this year, about forty dollars on an average improved quarter section. This is double what it was in former years. Land sells from ten to fifty dollars per acre, owing to improvements and nearness to R. R., or county seat. Study these figures closely and compare with any other section

## ---FOR CASH---

Believing that the people of Centre county are fully awake to their best interests and that they have the intelligence to comprehend and the courage to recognize the means best calculated to bring about the most desirable results, we would most confidently and earnestly submit the following for your careful consideration:

That king credit has slain its victims by the thousands upon its extended battle fields is a fact beyond successful contradiction, and we would only ask you to call to your recollections your own observations, in proof of this fact, and, the pitiful appeals of those still under the crushing heel of the tyrant fall upon our ears with unmistable certainty and we would say, come, let us rush to their rescue by wielding the sword of justice and striking the monster down with a decisive blow and keeping him there by eternal vigilance. This can be done only by a system which pays as well as demands CASH on delivery.

This system we will adopt and put into operation on the twenty-sixth day of December 1884, after which we will buy and sell positively for cash and produce only and will name such figures on goods as will fully convince every intelligent person that it is to their interest to buy their goods where KING CREDIT finds no quarter, but where the
