Democratic County Com. for 1885.

Table listing names and districts for the Democratic County Commission for 1885.

GENERAL GRANT'S health is reported very poor. Mental trouble is said to have much to do with his serious condition.

It looks as if England and Russia might have a set-to. They are using pretty strong language about the Afghans...

YESTERDAY, the fourth of March, the festive inauguration of the first democratic president in twenty-four years took place at Washington.

In next week's issue we will endeavor to give our readers as full an account as possible.

PRESIDENT-ELECT Cleveland in a letter addressed to the Silver men in Congress recently clearly gives his views on the silver coinage question.

VOX POPULI has its say in this week's JOURNAL, in the form of two communications. The one is a probable and resolution of Progress Grange, Centre Hall, in which the passage of a law appropriating \$8000 to the State College is vehemently opposed.

WASHINGTON LETTER.

WASHINGTON, D. C., March 2, 1885. How Washington juries are organized to acquit is so well known throughout the country that comment upon the Washington court-martial may be superfluous.

in the shape of a court-martial, imposes a punishment of half pay retirement actually beyond the period when the law itself would have retired him on half-pay had he preserved a good record.

The constitution of Mr. Cleveland's cabinet is yet a matter of most intense speculation, especially among the politicians, and it probably will continue so until the list of portfolios is officially announced after the inauguration of this week.

—MCDONALD'S Improved Liver Pills are endorsed and prescribed by many eminent physicians. They do not make hair grow on bald heads or set broken bones, but they are the best corrector of a disordered liver yet discovered.

THE NEW COURT HOUSE QUESTION.

Mr. Editor:— If you could give an old patron a little space in your paper on a subject of great importance to every tax-payer in the county, you would confer not only a personal favor but do the public in general a service as well.

At the January session of our court our brand new Judge urged upon the grand jury with much ability and force, the building of a new, and presumably very costly court house. The grand jury passed on the question affirmatively, and it is only necessary for the next grand jury at the coming April term, to follow suit, and the new court house, with an addition to the county debt of about a hundred thousand dollars, will be a fixed fact.

The building of a new court house now, would be entirely unnecessary, untimely and a lavish, useless extravagance. The present court house is very substantial, well arranged, and has answered its purpose admirably for some thirty years, although not so imposing externally as some of our wealthy lawyers, bankers and other wealthy citizens of Bellefonte would wish—and there's the rub!

The building of a new court house would be most untimely. There never was a time within the memory of the present generation, when the people of the county were less prepared and less able for such an additional heavy burden as the building of a magnificent new court house would involve.

The people of this part of the county are universally opposed to the new court house project and it is but fair to presume that the same is true of other sections of the county, excepting probably Bellefonte and its immediate neighborhood.

At a meeting of Progress Grange, held at Centre Hall, Pa., February 28, the following preamble and resolutions were adopted:

WHEREAS, There is a bill now pending before the State Legislature to appropriate \$8000 a year to the State College under the pretense of an experimental station, and

WHEREAS, the State College has already been magnificently endowed and received large appropriations from the state, ample to make it a first-class technical school in agriculture and mechanic arts as contemplated by its original founders and incorporators, and, had the revision of its management submitted by the Governor of the Commonwealth and Superintendent of Public Institutions been adopted at the meeting of the trustees in Bellefonte last April, the experimental farms and college would now be in full equipment and doing the work of an experimental station without further appropriation from the state at a time when the treasury is depleted.

Resolved, That we enter our protest as members of Progress Grange and citizens of Centre county against the contemplated appropriation of \$8000 a year to said institution as provided by bill now pending before the State Legislature.

Woman's Province.

What a great task is assigned to woman. Its dignity cannot be elevated. It is not her province to make laws, to lead armies, nor to be at the head of great enterprises, but to her is given the power to touch the leaders of mighty armies and the governors of vast empires.

Mr. Bernhard Seubs, St. Clair, St. Clair county, Mich., says: "I have long and faithfully tried your medicine in the various cases of my children and a large family of children are ever liable, and I find it in every case to be just the thing needed. No family can honestly be without it."
