Miscellaneous News. The West Branch Ice Gorge.

LOCK HAVEN, April 5 .- The flood is subsiding, but the immense ice gorge at Ferney remains solid. Large bodies of ice and logs from the jam passed here this afternoon, indicating that it is likely to give way soon under the pressure of the backwater. Work was commenced to-day clearing the railroad, which is covered in many places with ice from five to ten feet high. Persons who walked to this city to-day from Renovo say the scene is beyond description. Houses standing between the railroad and the river are flooded to the second stories. The extent of the damage cannot be ascertained until communication is re-established, but the farmers on the low lands must have suffered terri-

The High Water at Williamsport.

WILLIAMSPORT, April 5. - Reports that the big ice gorge above Lock Haven had moved and would pass here during the day drew a large crowd of people to the river to-day. Large frag. ments of ice passed down at intervals. but the main body of the gorged ice is still in its place. The action of the water in passing under the ice has so weakened it that no danger to the railroad bridge is apprehended. The water has fallen to twelve feet, and no longer covers the railroad track. A large force of men are at work clearing the tracks, and the running of trains west of Lock Haven will be resumed by Tuesday morning. A heavy rain is

falling here this evening. A Drowned Hunter's Faithful Dogs

LEBANON, April 2 - Joseph Moyer, aged 30 years, of Fredricksburg, this county, was drowned while hunting musk rats yesterday evening. He was attacked with an epileptic fit and fell into the stream. One of his faithful dogs ran home warned the family, and led a searching party back to the stream, where another dog was standing guard over the drowded man, whose feet were stretching out of the water.

ENTOMBED ALIVE.

SHENANDOAH, Pa., April 6 .-- Alout 1 o'clock this afternoon one of the gang ways of the Cuyler colliery at Raven Run, operated by S. M. Heaton & Co., caved in without warning, entombing ten miners who were inside. The cavein occurred about four hundred feet from the bottom of the slope and was caused by a sudden crushing of the timbers. There are no means of ascertaining whether the imprisoned men are the break makes it difficult to do any. thing to that end, and also prevents the hundreds of men that have gathered at the scene from going to work to rescue the imprisoned miners. The miners who are acquainted with theplace have The carpenters and painters finished little or no hope of those imprisoned being rescued alive.
