he fillheim Journal

Ex-GOVERNOR Gilbert C. Walker, of Virginia, died at New York on Monday morning, May 11th, in his fifty- about. Watchmen are employed day second year.

THE condition of General Grant's health is not near as good as it was. His doctors say that the cancer with which his throat is afflicted, shows bad symptoms and will finally prove kings, holding in the Indian Territory fatal.

REV. SOLOMON NEITZ, one of the most prominent clergymen of the Evangelical Association, died at his residence at Reading, on Monday morning, at the age of 74 years. Rev. Mr. Neitz, preached 45 years, trayeled about 30 years, was presiding elder 18 years and occupied the greater part of his time the pulpits of the larger churches of the denomination in Philadelphia, Pottsville, Pine Grove, Allentown. Lebanon and other places. For many years he represented the East Pennsylvania conference in the general conference. of the United States.

GOVERNOR PATTISON'S veto of the Veteran Burial bill, requiring the commissioners of every county to appoint in the several wards and townships of their respective counties a certain number of persons to look after and cause to be buried in a decent and respectable manner the bodies of honorably discharged soldiers, sailors or marines who served during the late rebellion or any preceeding war and draw warrants upon the treasurer of the county for the expenses of said burial and a proper tombstone, deserves the credit of all taxpayers. The legislators offering said bill allowed their patriotic teelings to run away with them and would impose a most extravagant expense upon their constituents. It would create an indefinite but likely a very large number of the crops from last night's cold weathsalaried officials. The governor also very plainly shows that neighboring states would naturally try to get rid of their improductive soldier population by sending them to Pennsylva-

ready for occupancy, the lower floor, this month, the others early in the summer. General Meigs, a stalwart Democrat, is the architect. Gen. Black, the present Commissioner of Pensions, accompanied by his wife, visited the new building a few days since and were greatly pleased with it. The watchman, a North Carolina man, who has been here from the first, showed them and night to see that the building is not entered and lumber, iron and other material are not stolen away. for there are persons even here in Washington who seek to acquire wealth without la-

bor or paying for the same. Wonder where they come from ? The Department of the Interior will soon determine whether the cattle under their illegal leases, are to remain in their open defiance of the administration or not. They hold their leases under Republican rule, and declare that

they have already squared themselves under the present administration. The dog will wag its tail, or the tail will soon have its dog tied fast. President Cleveland and a select party went to the Gettysburg 'anniversary on the 4th instant. The President said he wanted to see the place, and would have no time to talk. From the time he left Washington until his return, he did not speak more than a thousand or so words, and thus set an example that nearly drove the others mad. There are several persons in Washington who talk more than Cleveland does, but he PHONO. don't seem to catch on.

The Cold Wave in the West. Snowing in Minnesota.

ST.PAUL, May 7 .- Considerable snow fell in this section yesterday and last night. The thermometer fell below the

freezing point. The weather throughout the northwest is very cold, fruits badly damaged but no field crops injured.

A Cold Wave in Iowa.

DESMOINES Iowa, May 7 - A cold wave struck Iowa last night, and at some places west of here, ice formed half an inch thick and the thermometer was four degrees below the freezing point after sunrise. Some damage has been done to small fruits, but field crops do not appear to have been hurt much.

Blinding Snow in Michigan.

DETROIT, May 8.-Reports received from the western part of the lower peninsula state that a blinding snow was preventing the spread of the flames into ralling there to-day. No reports have the residence district of the city. yet been received as to the damage to er. It will probably be a day or so before any damage can be noted.

Miscellaneous News.

Mangled by Dynamite.

Wonderful. From the Pittsburgh Dispatch, Sept. 25th, 1880. "Very seldom do we read of an actual case of recovery, where hope had altogether been lost, to parallel that which

was Monday investigated by a Dispatch reporter, who had heard in various quarters persons talking to their friends of a cure, seemingly little short of marvelous, that had been performed. The plain facts in the case referred to, without exaggeration, are these, as they were learned from the mother of the young man, his pastor and other persons well known in the community : "William Lincoln Curtis is the name

of the young man in question. He is now employed at H. K. Porter & Co.'s locomotive works in Pittsburgh, Pa. A year ago he resided with his mother on Grant street. About that time he went to bed one evening with a violent pain in his shoulder, the result, he thought, of a cold. The next morning the shoulder was greatly swollen, the pain was intense, and aches were felt all through his system. His case was speedily developed into a violent form of chronic rheumatism, among the first notable features of which was the paralysis of his left arm. "He gradually grew worse, and in a few

months the elbow and knee joints and both ankles became enormously enlarged. In March last the cheek bones began to enlarge, and upon his left side particularly, spreading his face out of all resemblance to his former self. The pain in all his joints became intense; fever, with its his joints became intense; lever, with its deteriorating effects, was now added, and he became rapidly reduced to the semblance of a skeleton, while vitality reached its lowest possible condition, and his sufferings were of such an indiscribable character that those who most loved him sometimes thought it would be better if he was called away. At this time physicians well known in Pittsburgh informed his parents that they could give no hopes of recovery.

his parents that they could give no hopes of recovery. "The young man finally commenced taking that wonderful medicine, PERUNA. In two weeks quite a change for the better, was per-ceptible. In six weeks all the enlargement had been reduced completely, while in spirits and strength the patient was quite as well as he had ever been in his life. Nearly three weeks ago he resumed work as a machinist at his old place, able to perform as much labor as ever in his life. "The mother of Willie Curtis, in stating all these facts, said : 'Indeed, I can not look upon the cure much less than as a miracle. I do not the cure much less than as a miracle. I do not hesitate in sounding the praise of PERUNA, and in recommending it to all my friends,"" The pastor of the church where the young man attended Sabbath school was visited, and

man attended Sabbath school was visited, and he readily confirmed the facts of the deformed bones, the emaciated condition from disease, and of the doctors having given him up. He was greatly surprised at his improved condition. Said he, "If he had not spoken, I would not have known him."

On Friday, May 8th; a spark from a locomotive set fire to the great lumber yards situate on both sides of the Chicago river and near the southwestern city limits. The flames ate all the lumber, covering an area of about 400 by 2,000 feet, and containing 45,000,000 feet, valued at \$700,000. Several small frame houses occupied by employes in the lumber district were destroyed. The fire department, however, succeeded in

Twenty .three Thousand Men to Strike.

CANTON, Ohio, May 10 .- John H McBride, president of the Miners' state association, said to a reporter yesterday that the Tuscarawas district miners will soon strike. They think the pro-

essors are required to attend the ap-

Bonnets,

Hats,

To our Patrons of 1885.

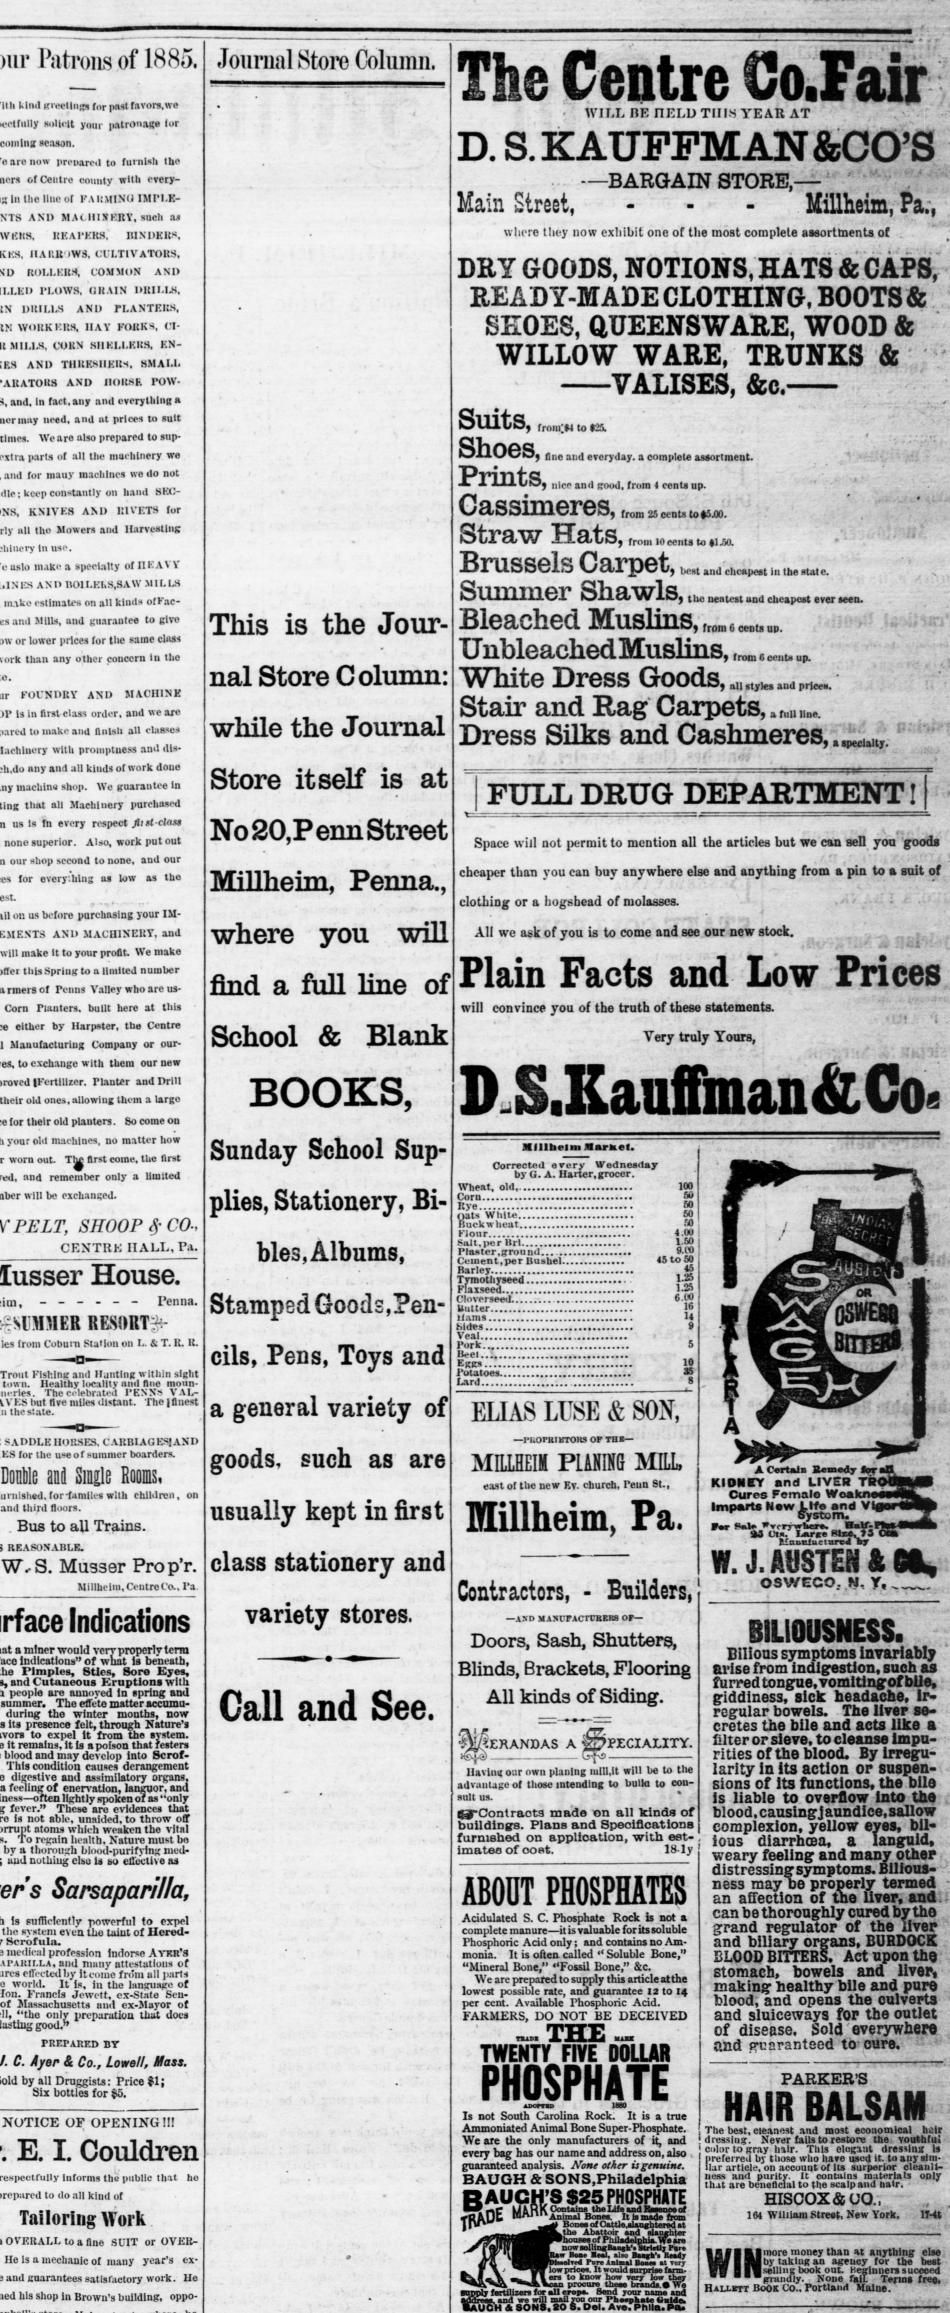

With kind greetings for past favors, we respectfully solicit your patronage for the coming season

We are now prepared to furnish the farmers of Centre county with everything in the line of FARMING IMPLE-MENTS AND MACHINERY, such as MOWERS, REAPERS, BINDERS, RAKES, HARROWS, CULTIVATORS, LAND ROLLERS, COMMON AND CHILLED PLOWS, GRAIN DRILLS, CORN DRILLS AND PLANTERS, CORN WORKERS, HAY FORKS, CI-DER MILLS, CORN SHELLERS, EN-GINES AND THRESHERS, SMALL SEPARATORS AND HORSE POW-ERS, and, in fact, any and everything a farmer may need, and at prices to suit the times. We are also prepared to supply extra parts of all the machinery we sell, and for many machines we do not handle; keep constantly on hand SEC-TIONS, KNIVES AND RIVETS for nearly all the Mowers and Harvesting Machinery in use.

We aslo make a specialty of IIEAVY ENGINES AND BOILERS, SAW MILLS &c., make estimates on all kinds of Factories and Mills, and guarantee to give as low or lower prices for the same class of work than any other concern in the State.

OUR FOUNDRY AND MACHINE SHOP is in first class order, and we are prepared to make and finish all classes of Machinery with promptness and dispatch, do any and all kinds of work done in any machine shop. We guarantee in writing that all Machinery purchased from us is in every respect first-class and none superior. Also, work put out from our shop second to none, and our prices for everything as low as the lowest.

Call on us before purchasing your IM-PLEMENTS AND MACHINERY, and we will make it to your profit. We make an offer this Spring to a limited number of farmers of Penns Valley who are using Corn Planters, built here at this place either by Harpster, the Centre Hall Manufacturing Company or ourselves, to exchange with them our new Improved [Fertilizer, Planter and Drill for their old ones, allowing them a large price for their old planters. So come on with your old machines, no matter how near worn out. The first come, the first posed reduction will make wages too low to afford a living. Twenty-three served, and remember only a limited thousand miners and 700 other employes number will be exchanged.

From our Regular Correspondent.

WASHINGTON, D. C., May 12, 1885 A move is on foot in Washington to reorganize the Democratic party in the United States, by perfecting a Democratic club in each township of the United States. The president of each town club to form the Democratic coun ty committee, which is to elect one of its members as a member of a State executive committee. The cardinal principles, aside from Jeffersonian Democracy, to be the election and appointment of none but Democrats to office of official position. The abolition of the civil service foolishness, if carried out, as it probably will be, the present administration will be forced to become Democratic or be laminated to imperceptible thinness between the full ranks of Republicans held in office and deserving Democrats who are not recognized as they deserve to be. In nearly all the departments Democrats who were exultant two months ago, are almost insulted each day by their high headed Republicans co-laborers who are in an immense majority. A portentous sign of the times is the fact that "Brick" Pomeroy's paper, the United States Democrat, which has an actual circula. tion in every State and Territory as a Democratic stalwart, has called for advices from Democrats at several thousands of post offices, asking if Democrats are satisfied with the retention of Re-

publicans in office and what will be the effect of their retention on the next political campaign. The publication of replies to those questions will be an important header and is looked for with much interest by politicians.

The new Pension Office building is nearly completed. Four rooms on the ground floor, southeast corner, are already occupied by wagon loads of documents and stationery, as the work of moving has begun. This building is 400 feet long by 200 feet wide, and four stories high. It has an immense area or court yard, large enough for several circusses to' exhibit on. Four great brick pillars, about 12 feet in diameter, run from near each end of the court yard to a height of nearly 100 feet, as supports to the iron bridges which form supports to the iron and glass roof. Balconies extend around the inside of the edifice so that clerks can pass from room to room outside, and so that thousands of visitors can look down into the court yard. It is the largest brick building in the world. Thirty six millions of bricks have been used in its construction. Eighteen hundred clerks will be employed here in the pension department alone, and each will have plenty of light and air. Not another public building in the United States compares with it for comfort and solidity. It is built of brick, and iron girders and bands, so that it is virtually knitted together. The foundations are planted more than thirty feet below the | to-day issued a warrant for the execu-

A Number of Workmen Frightfully Injured by a Blast on the Cornin the district will be made idle. wall Hills. LEGAL ADVERTISEMENTS LEBANON, May 7 .- Full particulars NOTICE OF APPEALS.—Appeals will be in the Commissioners' Office at Bellefonte as have just been received here to-day of a frightful explosion of dynamite on the Cornwall ore hills, operated by the wellknown Coleman heirs, near MinersValley. A large number of natives and foreign laborers are employed in loading and mining ore. A number of holes Wednesday June 3rd.-For the townships o Wednesday June 3rd.—For the townships of Miles, Haines, Penn, Gregg, Potter and the Borough of Millheim. Thursday June 4th.—For the townships of Harris, College, Ferguson, Halfmoon, Patton, Benner, Spring and the borough of Bellefonte. Between the hours of 10 o'clock a. m. and 4 o'clock a. m. had been drilled preparatory to blasting. These were loaded with strong dynamite torpedoes, after which the superintendent, Patrick Cunningham, clock p. m. told the men to run. They took to their peal with the transcript. ing rocks. Cunningham had been cautioned before to give the men plenty of time to get out of the way of all danger. Great indignation prevailed over the entire ore hills and it was feared at one time that the men would do bodily harm to Cunningham, as he was blamed for the accident in not giving the men sufficient

time to get away. The Militia Still on Guard at Lemont.

LEMONT, Ill., May 7 .- Although the strikers are still in a sullen mood no fresh outbreaks are anticipated. The militia will not leave, however, until all danger is over. A citizens' meeting last night demanded the immediate withdrawal of the troops. Their demands were not complied with. Sheriff

Hatchette is here to-day, inquiring into the condition of affairs. The strikers in small squads are returning to work and it is expected that in a few days there will be a full force employed in the quarries. No further evidence in regard to the killing of the strikers by the militia will be heard until tomorrow.

The American Bible Society's Work.

NEW YORK, May 8.-The managers of the American Bible Society met vesterday and made appropriations of \$41,703 tor work in Persia, China, Russia, France and South America. This makes the aggregate sum appropriated for the foreign work of the society for the current year \$172,850; grants and consignments of books for distribution in the United States and other lands of the value of \$12,400. Surface Indications

What a miner would very properly term "surface indications" of what is beneath, are the Pimples, Sties, Sore Eyes, Boils, and Cutaneous Eruptions with Boils, and Cutaneous Eruptions with which people are annoyed in spring and early summer. The effete matter accumu-lated during the winter months, now makes its presence felt, through Nature's endeavors to expel it from the system. While it remains, it is a poison that festers in the blood and may develop into Scrof-ula. This condition causes derangement of the digestive and assimilatory organs, with a feeling of enervation, languor, and weariness—often lightly spoken of as "only spring fever." These are evidences that spring fever." These are evidences that Nature is not able, unaided, to throw off the corrupt atoms which weaken the vital forces. To regain health, Nature must be aided by a thorough blood-purifying med-icine; and nothing else is so effective as

Ayer's Sarsaparilla,

which is sufficiently powerful to expel from the system even the taint of Hereditary Scrofula.

The medical profession indorse AYER'S SARSAPARILLA, and many attestations of the cures effected by it come from all parts of the world. It is, in the language of the Hon. Francis Jewett, ex-State Sen-ator of Massachusetts and ex-Mayor of Lowell, "the only preparation that does real, lasting good."

PREPARED BY Dr. J. C. Ayer & Co., Lowell, Mass.

Sold by all Druggists: Price \$1; Six bottles for \$5.
