The bills of General Grant's doctors are said to amount to \$40,000.

ENGLAND is in a stew. Since Gladstone has stepped down and out, the new cabinet finds itself in a perplexing position on many important points and now they want the kind advice and assistance of the retired minister.

Will Introduce Another.

WASHINGTON, June 22.—In an interview to-day Representative Morrison, of Illinois, said he proposed introducing another tariff bill in the next Congress, and that it would provide for about the same reduction in amount as was provided in his last bill.

GENERAL Grant, whose condition of health has in the last few weeks taken a worse turn, and who was brought to the cool and invigorating heights of Mount Gregor, near Saratoga, is said to be slightly improving.

His First and Last Ascension.

An Aeronaut's Balloon Ignites and Collapses and He is Dashed to a Shapeless Mass.

CHARLESTON, W. Va., June 19.—Among other attractions at a circus here to-day was a balloon ascension, and just as the ropes holding the balloon were cast off a hot-air stove, used in inflating the balloon, was overturned, causing it to catch fire.

Crop Destroyers.

Hessian Flies, Grasshoppers, and Potato Bugs, in Lehigh and Northampton.

EASTON, June 18.—The Hessian fly has made its appearance in Lehigh county and in part of Northampton, after an absence of several years.

The New Marriage Law.

We give in to-day's paper the full text of the act regulating marriages in this State, now in the hands of Governor Pattison. It is reasonable to assume that he will give it his approval, and thus throw its much needed restraints around the homes of Pennsylvania.

It has been assumed by several of our contemporaries that this journal was in error in stating that the new statute would end informal marriages, but a careful study of the text seems to fully warrant the interpretation given in these columns.

What Leads to the Many Reports of Mr. Hay's Early Resignation.

WASHINGTON, June 23.—Mr. Malcolm Hay, the First Assistant Postmaster General, has such a feeble appearance that his numerous visitors generally remark on leaving him that he is a very sick man. This gives rise to frequent rumors that he will soon resign. It may be stated that the situation is just this: Mr. Hay is in feeble health, but he hopes to gain

strength, and as long as he can attend to the duties of his office, as he is doing at present, he proposes to remain. How much longer he will continue the present experiment he refuses to say, and the Postmaster General states that he is ignorant of the intentions of his first assistant. Mr. Hay is showing a great deal of pluck and determination in fighting against disease and physical weakness.

Miscellaneous News.

The Terrible Colliery Disaster.

LONDON, June 19.—It is now known that 140 persons were killed by the explosion in the Pendlebury Colliery, near Manchester, yesterday. The chamber in which the explosion occurred is so filled with debris that thus far only 45 bodies have been recovered.

Pine Camp-Meeting.

The 14th annual session of Pine Camp-Meeting will commence August 18, 1885 and continue ten days. The rent of tents is \$5.00 for lower floor, \$4.00 for upper floor, or \$7.00 if one party takes both lower and upper tents. Necessary groceries and boarding on the grounds. Boarding for term, \$6.00; per day, \$1.00; per meal, 40c; children between the age of 3 and 9 years, half price. The usual excursion tickets will be issued. For further information apply to John A. Robb, Lock Haven, Pa.

Crop and Business Prospects.

PITTSBURGH, June 19.—Reports of the crop and business condition, made to Dun's Commercial Agency in this city, from Western Pennsylvania, Eastern Ohio and West Virginia indicate that the limit of the commercial depression has been reached. There seems to be nothing insuperable in the way of good crops of almost everything except winter wheat. The farmers have been economizing and now need all manner of implements with which to cultivate the soil. As soon as they see a sure market for the growing crops they will begin to buy. The interchange of commodities and cash thus produced will go more to revive business than a big wheat crop. The resumption to the iron industries will assist in the return of confidence to the hearts of all who till and toil.

To Physicians.

We do not find fault, reproach or condemn the practice of any regular physician—this is not our mission—but we do claim that if he were to add PERUNA to his prescriptions, as directed in our book on the "Iris of Life," (and furnished gratuitously by all druggists), he would cure all his patients.

Mr. Henry C. Reynolds, Ironton, Lawrence County, Ohio, writes: "My wife has been sorely distressed for many years. Her disease or diseases and the symptoms of them have been so varied that an attempt to describe them would be more than I feel able to undertake. I have paid over a thousand (1,000) dollars for doctors and medicines for her, without any satisfactory results. We read so much about your PERUNA that I was forced to try it. She has now taken five bottles; they have done her more good than all the doctors and medicines that she has ever used. PERUNA is certainly a God-send to humanity."

Mrs. Cora Engel, First House on Lazelle street, near Elm, Columbus, Ohio, writes: "It affords me much pleasure to state to you the benefit I have received from your PERUNA. I had been troubled with kidney complaint and dizziness in my head for eighteen years. I tried different kinds of patent medicines, and consulted a number of physicians, and received no benefit whatever. About three weeks ago I commenced taking PERUNA. I began to get better before I had taken half a bottle. The dizziness has disappeared, and the other affection has so much improved that I am positive, after I will have taken another bottle, I will be entirely well. I feel like a different person already. A number of my friends have used it, and they think it is a wonderful remedy. My husband says it is one of the best medicines for a cough that he ever took."

A. W. Blackburn, Wooster, O., writes: "Several years ago a man came to me, all broken down, terribly nervous, stomach without any power to digest food. Had tried four doctors; none did him any good. Asked me to do something for him. I recommended MANALIN. He told me to-day that he has been taking it regularly, and is now almost well. Said he would send me the praises of MANALIN far and near."

—More people, adults and children, are troubled with costiveness than with any other ailment. Dr. Henry Baxter's Mandrake Bitters will cure costiveness and prevent the diseases which result from it.

—A BUTTER CHURN with "bock," good as new, can be bought cheap for cash. Inquire at this office.

LOOK HERE.—I cure Piles. I have a positive remedy for piles. By its use many cases of the worst kind and of long standing have been cured. It cures as if by magic. Money refunded to dissatisfied patients. Address, II K. SUMMERS, Aaronsburg, Pa.
