THE ELECTIONS for 1885 are over and we may quietly return to our daily work and give our full attention to matters of business. To briefly sum up the results of the different state elections, we would say that the Democratic party walks off victoriously with New York and Virginia, two of the most important states, while Pennsylvania stays where it was before, in the hands of the Republicans, but with a considerable falling off of the majority of '84. Of course, we thought there was a possibility that Pennsylvania's voters would prefer an honest and in all respects honorable Democrat to a renowned republican ringster and machine politician, but it seems the people are not ready for a reform of this kind.

Maryland goes democratic by 30,-000 majority and places the majority in the house at 99 on joint ballot.

Massachusetts elected its republican candidate for governor, Robinson, by about 15,000.

Iowa republicans elected their candidate Sarrabee by about 9000 major-

The republican state ticket of Nebraska was elected with 20,000 majority, but the democrats report gains of between 2000 and 3000.

InConnecticut the democrats gained considerably on former majorities but not enough to get centrol of the next legislature.

A PERUSAL of the official returns of Centre County shows that the county has again proven its faithful adherence to democratic principles. The majority may not be up to its accustomed standard, but that is no reason why our republican friends should re joice. The vote was light all over the state, owing no doubt to the fact that this was an election of minor import-

The Governor's Thanksgiving Proclamation.

HARISBURG, November 6.-The following proclamation, setting aside Thursday, the 26th inst., as a day of thanksgiving, has been issued by Governor Pattison:"During the past year we have been unusually blessed and exempted from those calamities and distresses that so often befall and afflict nations and communities. Not only have we experienced exceptional immunity from general and widespread disasters, but the steady advance of our own country in civilization, material prosperity and national grandeur has been most marked. The adaptation of our form of government to the varying wants and conditions of our people and the renewed evidence of their attachment to it. Our institutions are the most priceless blessings that a nation can enjoy. It is fitting, therefore, and a duty, that the people should pause from their accustomed toil and pleasure to make acknowledgment of their dependence upon the Supreme Ruler of the universe and by thanksgiving and praise to show that they are not unmindful of whose hand it is that blesses and whose arm it is that protects. By so doing we shall not only eyince our gratitude to the merciful God who has blessed us, but will also contribute to the cultivation and spread of that religious and reverent sentiment which is the safeguard of public as it is the basis of private virtue."

HUNTINGDON, Nov.9.-A few weeks since bondholders purchased the carworks in this place for\$7,000, subject to a mortgage of \$35,000. The works are worth\$100,000, and would be considered cheap at that price. A meeting of the bond holders was held on Saturday night, at which it was decided to sell the plant to A. and P. Roberts, of Philadelphia, for 28,000, if they will guarantee to operate the works here, and not remove them to some other place. It is thought these terms will be accepted, and workingmen are happy.

John McCullongh, the actor, Dead.

PHILADELPHIA, Nov. 8 .- John Mc-Cullough, the actor, died at his residence in the city at 10:05 p. m His death, although not entirely unexpected, occurred quite suddenly and was attributed, as Dr. Hugo Engle, his physician, says, to "an affection of the brain, caused by blood poisoning." Dr. Engle asserts that McCullough was not insane and that it was a mistake to have placed him in the Bloomingdale insane asylum, where he was sonfined for a number of weeks.

A Fire Extinguishing Gun That Throws Hand Grenades a Block.

WASHINGTON, Nov. 6 .- An exhibition of the operation of a compressed air gun, for throwing fire grenades and fire escape lines, was given by Captain Bartlett, the inventor, last evening. The compressed air is stored in one of the same weight-about four pounds. The projectiles were thrown with extreme accuracy, through a target in imitation of a small window, at a height of fifty feet, on a pole at a distance of eighty feet from the gun. Either sash of the window was hit as desired.

A half-inch line attached to a projec-

tile was thrown twenty or thirty feet above the top of the pole, and the inventor asserted the posibility of throwing such a line over the dome of the Capitol. Projectiles without line attachments were repeatedly thrown to a height of more than 300 feet, demonstrating the posibility of reaching a fire in the tallest building. The trial was a brillirnt success.

The chief of the New York Fire Department has requested that a gun be sent to that city. The Bartlett Fire Extinguishing Company will build larger guns—to throw a gallon of the fluid or an inch line—before placing the de-Total......2987 2565 3042 2581 3014 2601 vice on the market.

Every Farm an Experi-

mental Station. The best analysis of any fertilizer is in the farmer's own hands. Soil tests are reliable tests to determine the value of any manure. An analysis is only an intelligent

suggestion, but actual trial by the farmer proves conclusively whether a fertilizer will give good crops or not. For six years our \$25 Phosphate has stood severe field tests. The best results have been obtained by intelligent farmers who use it season after season

in preference to any other brand.

If you have not used it yet, we hope you will do so this season. BAUGH & SONS,
