ABLESAUCE

- Thousands of articles are now manufactured that in former years had to be imported, paying high import duty as it is now being done on Lea & Pertins table sauce; the QUAKER TABLE SAUCE takes its place; it has been pronounced by competent judges just as good and even better. The QUAKER SAUCE has Slowly but surely gained great importance and is replacing the very best imported sauce on the shelf of the grocer, the tables of the restaurant and the tables of the rich and poor men, greatly prized and relished by all on account of its piquancy, aroma, taste, strength and pureness. The inventor has by years of study of the secret virtues contained in the aromatic spices of the Indies and China, such as mace, nutmeg, cinnamon, genuine Jamaica ginger, and peppers and buds of trees unknown to most men, and by long practice succeeded to combine their extracts in such a liquid form as we now find it, of agreeable taste, and so invigorating as to be taken in place of stomach bitters. By manufacturing this sauce here, heavy import duties nfacturing this sauce here, heavy import duties and freights are saved, and it is sold at a lower figure to the dealer, who making a better profit on Quaker Sauce can sell it to the consumer cheaper than the very best imported article hardly equaling ours. If your grocer does not keep it, write us for prices, etc. Sold in bottles or by the gallon.
