Cooking For Company.

I always keep a supply of well cooked food ready at all times, in case of unexpected company, having learned a lesson in my earlier housekeeping days, when a small horde of relatives came, without notice, to pay me a short visit. They came about tea time and found me with a pantry scanty in the extreme and the store two miles away. I was young and proud, and the humiliation of borrowing enough from one of the neighbors to make out a repast taught me to be always prepared with some thing at least to make out a decent meal.

Too many housekeepers, who are naturally good cooks, fall into the way of slighting the cooking of their every day meals, and wait till company comes to show off their best efforts in the culinary line.

I think this is a mistake. The men folks are oftener kept in good spirits by having their meals nicely prepared and promptly served, and the saying that "the way to a man's heart is through his stomach," is true according to my

Cook as well for your husband as you do for your company and there will be peace in the family. To possess the knowledge of making good white or brown bread, common sense pudding and pastry, delectable soups and stews, or of cooking steaks, chops or haw in an appetizing manner, is of more value than knowing how to make Charlotte Russe, cream meringue, angel's food or black fruit cake, though these last may be all well enough in their way. - Daisy Eyesight in Farm and Household.

Deposits From Comets.

The bed of the ocean, says a recent writer, is to an enormous extent covered with lave and pumice stone. Still more remarkable is it to find the floor of the ocean covered in many parts with the dust of meteorites. Between Honolulu and Tahiti, at a depth 2,350 fathoms-over two miles and a halfa vast layer of this material exists Falling upon land this impalpuble dust is indistinguishable, but accumulating for centuries in the sea depths it forms a wondrous story of the continuous bombardment of this planet by comentary bodies.

"WHAT was the text yesterday?" asked a father who was busy working his ward to attend church. "Nothing but leayes," promptly re-

Subsequent investigation showed that the boy had spent the day in rustling through the woods for chestnuts and returned empty-handed. A protracted meeting in the woodshed followed to see if the youth would shed any more such imformation.

Surface Indications

What a miner would very properly term "surface indications" of what is beneath, are the Pimples, Sties, Sore Eyes, Boils, and Cutaneous Eruptions with which people are annoyed in spring and early summer. The effete matter accumulated during the winter months, now makes its presence felt, through Nature's endeavors to expel it from the system. While it remains, it is a poison that festers in the blood and may develop into Scrofula. This condition causes derangement of the digestive and assimilatory organs, with a feeling of enervation, languor, and weariness—often lightly spoken of as "only spring fever." These are evidences that Nature is not able, unaided, to throw off the corrupt atoms which weaken the vital forces. To regain health, Nature must be aided by a thorough blood-purifying med-icine; and nothing else is so effective as

Ayer's Sarsaparilla,

which is sufficiently powerful to expel from the system even the taint of Hered-

itary Serofula.

The medical profession indorse AYER'S SARSAPARILLA, and many attestations of the cures effected by it come from all parts of the world. It is, in the language of the Hon. Francis Jewett, ex-State Senter of Massachusetts and ay-Mayor of ator of Massachusetts and ex-Mayor of Lowell, "the only preparation that does real, lasting good."

Dr. J. C. Ayer & Co., Lowell, Mass. Sold by all Druggists: Price \$1; Six bottles for \$5.
