

Exit 1885.

With this issue another year of the JOURNAL'S existence passes into the vast lapse of time and in looking back over our year's work we feel justified in saying that we have tried to do our duty and have in a measure succeeded in giving our readers prompt, interesting, and entertaining weekly paper.

Politically the JOURNAL has advocated and upheld Democratic principles, supported the wise measures of the new administration and strove to promote unity in Democratic ranks at home.

The local news department we have worked hard to make a faithfully compiled budget of events of importance at home and throughout the county and in this work we were ably assisted by our special correspondents in neighboring towns. Religious and educational matters, new enterprises and improvements received their full share of encouragement through the columns of the JOURNAL and important foreign news could always be found in the miscellaneous department.

The literary contents of the paper received our undivided attention and in this line we have been particularly careful in selecting the most entertaining and interesting matter of a chaste character.

Summing up we are sure the JOURNAL has proven a valuable and welcome weekly visitor to our readers, a paper for the "Home Circle" in the broadest sense of the word, and that our labors are appreciated is evident in the slow, but steady influx of new subscribers. With these few parting remarks we return our thanks to those who have favored us during the year and wish all our readers a "Merry Holiday Season," assuring them that, no preventing Providence, the JOURNAL will come to them in the new year fully as wide-awake and newsy as it has been in the past year.

CONGRESS adjourned last Monday until January 5th, at the suggestion of our worthy representative, Gov. Curtin. Up to the time of adjournment 1,004 bills, mostly of a private character had been introduced and referred. Only 14 of the 38 states were reached, and it was ordered that the call shall be continued where it was left off, when the House meets again after the Holidays. Gov. Curtin's clever idea enables congressmen to spend the whole of the holiday season at their respective homes.

CONTROLLER MAYNARD in Washington decided that pensioners residing in the United States, can not authorize other persons to receive their pensions for them. Pension agents must issue orders directly to the pensioner and mail them to that person. Pensioners residing in foreign countries must have their papers attested to by a notary public before the amount can be lifted by an authorized party.

PENNSYLVANIA taxes for this year amount to \$2,000,000 more than in 1884. In the next three years the income of taxes will still be largely increased by the new tax law. Could not the state spare the license taxes then, and give the benefit of the same to the respective counties and cities, where they are collected?

A New official seal has been manufactured for the President of the United States. It is said to be of very tasteful design, representing all the states and territories in an ingenious and plain manner. The design is the handiwork of a German, Mr. William F. Lutz.

Congressman Morrison is a marked figure. He stands about five feet ten inches, and has a bushy, full beard, nearly all gray. He seldom wears an overcoat. His right hand is almost always in the trouser's pocket as he walks, and he has a measured tread, and his dress generally, while neat, shows its wearer's indifference to style.

The United States Senate last week granted an annual pension of \$5000 to Gen. Grant's widow. The action was endorsed by the house of representatives.

President Cleveland is described as having very large hands. He needs them, and strong ones at that.

SOMETHING more or less than five thousand different liver pills are on the market. Some good, some indifferent, many bad and worthless. Life is too short to try them all, so if you want to be absolutely sure you are right, get McDonald's Improved Liver Pills, and if you are not satisfied with the amount of benefit received you get your money back.

Miscellaneous News.

Crushed to Death on Peters Mountain.

HALIFAX, Pa., Dec. 17.—Yesterday Mr. D. W. Deiblebis, a highly respected farmer, aged about 80 years, who resided near Matamoras, Dauphin County, was bringing a load of ties down Peters Mountain. The ties slipped forward upon Deiblebis, and he was instantly killed. Mr. Deiblebis was a married man.

SOME remarkable cures in this vicinity, of long continued and obstinate diseases, are attributed to McDonald's Blood Purifier. Sold by J. Eisenhuth, Millheim, Pa.

Killed at Middleburg.

SELENSGROVE, Pa., Dec. 17.—At Middleburg, the county-seat of Snyder County, ten miles west of this place, George Musser and his wife were about to cross the track of the Subury and Lewisston Road at the depot crossing, at 6 o'clock this evening. An extra freight train was approaching, and Mrs. Musser stepped back, requesting her husband to do the same. Not heeding her caution for some reason, Mr. Musser was struck by the engine and instantly killed. He was about 70 years of age, and resided in Franklin Township. His wife and one child survive him.

The Jury Find Cox Guilty of Voluntary Manslaughter.

SUNBURY, Dec. 17.—The last day of the Cox trial has come to an end. Shortly after the opening of the Court this morning His Honor Judge Rockafellow commenced his charge to the jury. The charge was long and elaborate, and conspicuous for the way the case was reviewed and the law defined in a fair and impartial manner. When the hands on the clock marked ten minutes of eleven the jury retired to deliberate upon the great question, awaiting the decision of which a human life hung in the balance. As they filed out of the Court room every eye was turned upon them and their faces were scanned as if to read that verdict which, when rendered, would cause either misery or happiness. The brisener at the bar carefully watched them, and who can imagine his feelings as he saw them leave the room, to return no more until his fate was decided. In an hour he was again away from the crowded Court-room where for eight days he had been the one object of attention, immured within the narrow confines of his cell with thoughts for his companions such as no man but one in a similar position can describe. Anxiously all the afternoon had the door of the jury-room been watched by eager eyes, expecting every moment to see it open, but in vain. All sorts of conjectures were made as to the cause of their delay.

The jury, after a deliberation of twelve hours, rendered a verdict to-night at 11 o'clock of voluntary manslaughter, the punishment for which, in the maximum, is twelve years' imprisonment and \$500 fine.

—DO NOT crucify the children by compelling them to take the horrible, nauseous compounds usually sold as worm medicines, many of them as worthless as they are obnoxious, but get a box of McDonald's Celebrated Worm Powders. Purely vegetable. So easy and pleasant to take that the children will never know a medicine is being administered. You will in addition secure the very best vermifuge possible to produce. So sure are we of this that in all cases of failure to cause expulsion where women exist we cheerfully agree to refund the purchase price. One Box of McDonald's Worm Powders guaranteed equal to four bottles of any worm syring.

ENTOMBED ALIVE.

Twenty Minors Imprisoned in A Flooded Slope.

NANTICOKE, Pa., Dec. 18.—Nanticoke was thrown into a terrible consternation at 11 o'clock this morning by a report that the mines of the Susquehanna Coal Company were being flooded by water from the river. The break was in No. 1 slope, and the volume of water pouring in was so great, that before the miners and laborers could get away from the breast in which they were working the water was more than a foot deep on the gangway and rising rapidly. Tools were abandoned, driver boys left their mules in the gangway, and all fled for points of safety. Before the workmen were all out the water was breast high. As soon as messengers could be dispatched an alarm was spread to the other workings, Nos. 1 and 2 shafts and No. 2 slope, all of which are connected with the slope and are lower and of greater depth. The alarm was promptly acted upon and the workmen summoned to the foot of the shafts and hoisted ten at a time to the surface. As each one was safely landed terrific shouts of rejoicing arose from the hundreds of people present.

Everything in the track of the flood was swept before it, the men being knocked about promiscuously, and in all cases they report miraculous escapes. The experience of old miners who were caught by the flood say it was the most terrible they ever passed through. When the water was discovered rushing into the slope there were nearly 1,000 men and boys at work in various openings, but at the partic-

ular spot where the water first appeared there were not over thirty persons at work at the time. It is reported that there are now about twenty men in the face of one of the gangways who are shut in by the water and rubbish that accumulated in the west gangway of the second lift of the cross seam. It is impossible to say what their fate will be. Old miners are of the opinion that the men who are shut up will be rescued alive. The company is making every possible effort to reach the imprisoned men. The pumps are now at work and new ones are being rapidly put up. Another force of men have been sent down the air-shaft, who will endeavor to cut through to the spot where the imprisoned men are believed to be. This work will be kept up night and day until the fate of the men is known.

LEGAL ADVERTISEMENTS

NOTICE TO TAXPAYERS.—Whereas there is a general opinion prevailing among the taxpayers throughout the county that because a collector's warrant is good for two years, they have the same length of time in which to pay their taxes. Tax Collectors frequently complain to us that many persons make this a pretext for refusing to pay their taxes until they are actually forced to do so, and these being generally such as are best able to pay. We therefore submit for your consideration the following Act of Assembly of April 15, 1884, in relation thereto: "Every collector shall, within three months after receiving the corrected duplicate, pay in to the hands of the treasurer of the property, county or township, the entire amount due, and the whole amount of the taxes charged and assessed in such duplicate, excepting such sum as the Commissioners, or Supervisors and Overseers, in their discretion, may exonerate him from on pain of being answerable for and charged with the whole balance remaining unpaid."

You will readily see by the above Act that tax collectors are required to pay in the full amount of their duplicates within three months after the duplicates are placed in their hands.
