Unions of manufacturers are forming now, to counteract the powerful influence of the labor unions.

Ex-JUDGE GARRICH M. HARDING, one of the leading members of the Luzerne County bar, is announced by the Sunday Leader (Wilkesbarre) as a Democratic candidate for Governor.

HENRY P. HAY, of Pennsylvania, a son of the late Hon. Malcoln Hay, has been appointed to a \$1200 clerk ship in the office of the First Auditor; of the Treasury, under civil-service rules. He was once Secretary of the Legation at Florence.

REPORTS state that Attorney General Cassidy is preparing eighteen bills of indictment against the syndicate managers of the Orphan's schools and that they will be presented to the court this wook.

PRESIDENT CLEVELAND'S proposition to have a national board of arbitration to settle disputes between employers and employes is certainly a good one and those who do not favor the idea should hold their peace until they can present a better plan for settling the existing labor difficulties.

HIGBEE and Sayers, the reputed Orphans' Schools officials, of past glory, now put on defiant airs, the former bluntly refusing to comply with the Governor's request for his resignation, the latter attacking him in an open letter, in which he states that he will have his case investigated by other authority before submitting to the will of the governor. That is generally the way with such rascals, when caught in tight corners they show fight.

The case is daily growing of more interest and it remains to be seen if go through the Senate unless amended there is no way of getting rid of the defective services of Higbee. Gov. Pattison will certainly make sure that he is right and then go ahead.

sists of seven members, with Hon. A. the statement of Grandmaster Pow- was very highly commended. derly and other officers of the Knights of Labor organization. Mr. Powderly laid the grievances of the laboring classes on the Gould railroad lines before the committee in a clear convincing manner. The question now remains, will Gould's million s weigh heavier in the eves of the committee than the honest and manly statements of Powderly. We are sure of one thing however, and that is, that Ex-Gov. Curtin, who, as many of our readers will recollect, has no particular love for railroad corporations and their despotic kings, will firmly stand on the side of labor, irrespective of what the rest of the committee may think or do.

On Monday a bill was introduced in the house by Mr. McComas (Md.) authorizing the above committee to investigate disputes between mine owners and miners in the bituminous coal regions of Pennsylvania, Maryland and West Virginia.

# THE INFLUENCE OF A HOME.

It is an old adage that in "the multiplicity of homes there is safety to the State." This is proved in these troublous industrial times by the fact that in the localities where the proportion of workingmen having homes is the largest there is the smallest number of labor disturbances. The strikes in Philadelphia are few compared with those occurring in comted for being the city of homes, a way and that there will be no strike. very considerable proportion of them being owned by the sons of toil.

It is found that while a working man has a home—is a property holder -he has a stake in preserving the good order of the community. He feels himself as belonging to the class that is looked to for the maintenance cause of less fortunately situated aswiles of the demagogue.

## Cleveland's Views on the Labor Question.

WASHINGTON, April 23. The President's message on the labor question has attracted a great deal of attention here to-day, in and out of Congress. Generally the comments are very favorable, the suggestions of the President regarding government interposition being regarded as eminently wise and proper. While the plan of establishing a commission, to be a part of the Labor Bureau, for the arbitration on the voluntary references of the parties concerned of disputes between employers and employees, may not cover all the requirements of the case, it is almost universally believed that the government could not go further than this plan proposes in the settlement of

The occurrences in the principle of voluntarily arbitration, which Mr. Gould advocated in his testimony before the Curtin committee yesterday, is the subject of general remark. But the President's plan goes further. It provides a permanent Board of Arbitration, which has the force and influence of government authority.

EFFECT ON THE HOUSE BILL. There is also some comment as to the effect of the President's message upon the House arbitration bill which is now before the Senate with several amendments. The House bill provides for a special abitration, making the submission of disputes to the arbitrators provided for by law and results mandatory upon the parties concerned. This is in direct conflict with the principle laid is generally believed to-day that the message very materially changes the status of this bill and that it will not in accordance with the Preident's yiews and from comments among Senators the inference is that this will be done.

The House, which was the only branch of Congress in session to-day, took up the President's message early, instructions to report upon it on or before the 15th of May. In the discussion in which Messrs. Randall, McCreery G. Curtin at the head, last week heard and others participated, the message

#### The Anthracite Coal Miners Making a Determined Stand on the Question.

WILKESBARRE, April 23. It is estimated that there are 20,000 miners and laborers in the anthracite coal regions who are either members of the Miners and Laborers' Amalgamated Association or Knights of Labor For some time past the members of these organizations have been agitating the eight hour question, and through the efforts of George Harris, of Pittsburg, president of the Miners and Laborers' Amalgamated Association of Pennsylvania, and several other labor agitators, the men have been brought almost to a unit on the quesstion. At any rate, the Executive Board of the Miners and Laborers' Association of Luzerne County this evening followed the action of the Schuykill association and appointed committees to wait on all the coal operators in the county and notify them that on and after May 1 the miners and laborers only propose to
