John Dubois' Fortunate and Favorite Nephew.

CLEARFIELD, April 28 .- John Dubois, the bachelor lumber king of Pennsylvania, filed here yesterday an abso. lute deed, conveying all his property, valued at about \$8,000,000, to his favorite nephew, John E. Dubois. The deed bears date January 17, 1884, so that, although for more than two years young John Dubois has been in his uncle's employ, taking orders from whateyer superintendent he chanced to be working under, he has been the actual owner of the entire property. Nobody knew it but himself and his uncle. The senior Dubois, who is 77 years old, has been ailing lately, and decided to make the deed public. The only consideration in the deed is that John E. Dubois shall pay all debts and fill all contracts his uncle may make till the day of his death.

His purpose in making the deed was to make sure that his business should go on in single and absolute ownership. just as he had conducted it for the period of 20 years, after his death, and that the 800 workmen in his employ should not be distressed by the stoppage or embarassment of his enterprise. The deed makes no mention of any of the other heirs, of whom there are a great many, John Dubois being the only bachelor in a family of 14. It is left entirely to the conscience of John E. Dubois whether any of them shall have any share in the estate or not. The young man is about 25 years old and unmarried. He was educated at Ch ester Military Academy.

Attention, Ye Fishermen! Potato Bugs as a Bait for Trout.

The Williamsport Bulletin says Constable Andrew Cassidy returned from a successful trout fishing expedition in Gamble Township yesterday. When spoken to in regard to his success the genial officer stated that the secret of it all was in the kind of bait used-potato bugs. Red worms were first tried, but as the fish did not seem to have any particular appetite for that kind of food something more tempting was looked for. A large potato bug was observed crawling out of his hole, and he was quickly impaled on the hook. In an instant bug and hook were swallowed by a huge trout. More bugs were secured, and in a short time the Constable started home with a wellfilled basket.

Blossoms and Promise.

May is the month of blossoms, of the future has in store we do not know, except that the harvest"shall not fail," at least not the world over. Single crops may go amiss. Drouths may and will come, some whole sections may suffer, but we will plan and work, cheered by the hope of a bountiful re-turn, gladdened by the rain and by the sunshine, thankful that labor well applied earns its reward from the willing earth. The sentence passed by the All wise Judge, "By the sweat of thy brow shalt thou eat bread," may seem severe to the lover of ease. Had it been given as a panacea for all the ills which afflict mankind it might have been differently regarded, but none the less a blessing. This reward of labor we are too apt to overlook. Health, as the highest award of toil, is ours; pecuniary profits may foot up more or less, but with seasonable care not to overwork or overstrain, not to overtax endurance of mind or body, to take time to rest, to provide plain, well-cooked food, and reasonable relaxation, being temperate in all things, we can afford to be contented with very moderate pecuniary gains. The coming ou of warm weather is often trying to strong constitutions. Moderation is desirable. We take care not to overtax our teams, why should we take less care of ourselves ? - American Agriculturist for

Thousands of articles are now manufactured that in former years had to be imported, paying high

in former years had to be imported, paying high import duty as it is now being done on Lea & Pertins table sauce; the QUAKER TABLE SAUCE takes its place; it has been pronounced by competent fudges just as good and even better. The QUAKER SAUCE has Slowly but surely gained great importance and is replacing the very best imported sauce on the shelf of the grocer, the tables of the restaurant and the tables of the rich and poor men, greatly priz d and relished by all on account of its piquancy, aroma, taste, strength and pureness. The inventor has by years of study of the secret virtues contained in the aromatic spices of the Indies and China, such as mace, nutmeg, cinnamon, genuine Jamaica ginger. mace, nutmeg, ciunamon, genuine Jamaica ginger, and peppers and buds of trees unknown to most men, and by long practice succeeded to combine their extracts in such a liquid form as we now find it, of agreeable taste, and so invigorating as to be taken in place of stomach bitters. By mannfacturing this sauce here, heavy import duties and freights are saved, and it is sold at a lower figure to the dealer, who making a better profit on Quaker Sauce can sell it to the consumer cheaper than the very best imported article hardly equaling ours. If your grocer does not keep it, write us for prices, etc. Sold in bottles or by the gallon,
