Will the Fourth of July, or rather the preceding Saturday, be a re-letter day in Millheim, or will we sit with our hands folded in our laps and talking of Independence Day as other towns celebrate it? Referred to the H. & L. boys, or to the new G. A. R. post or to the band.
An ominous report that the town was to be laid in ashes on last Saturday night, resulted in frightening nearly all the women and children in town and many of them had a sleepless night in consequence of it. A balcony on the second story of Musser & Smith's new hardware building on Main street would be a delightful place for our band on fine summer evenings, and we are sure our town people would enjoy listening to open air concerts given from this elevated place. Cohen's advertising wagon going through town on Tuesday afternoon raised some excitement. It announced in glaring letters that this is his last week in Millheim and that he is selling out at cost. An exchange says that the time to plant corn, according to the Indian custom, is when the leaf of the white oak is as large as a young squirrel's ear, and the rapid development of the leaves the past few days has caused the leaf of the white oak to attain the proportions desired; therefore, the proper time has arrived for corn planting.
Owing to the rain last Friday evening, which prevented the Brushvalley Post of the G. A. R. from coming over, it was impossible to effect an organization of a post in this place at that time. R. men from Bellefonte were on hand, among them Commander Austin Curtin. The work of organization was postponed until next Monday evening and if the weather be fair then a successful meeting is expected.
Our readers in Aaronsburg and this vicinity will be particularly interested in the following item of news clipped from last week's Shamokin Herald:

They will renovate the room, add a large stock of new goods, and leave nothing undone to win custom. The firm is composed of Prof. W. T. Meyer, so well and favorably known as teacher of music, and his brothers-in-law, Messrs. D. K. Musser and W. H. Phillips, both of Aaronsburg, Pa. Mr. J. B. Solt, of Centre Hall, is making arrangements to erect a mill for the purpose of manufacturing the Heberling automatic silt fence, which in the language of the business world, "is destined to succeed all others." The fence produced is handsome, durable and strong and will outlast any other kind, while it is very cheap. One of the Heberling machines will make 300 rods of fence in a day of 8 hours. The fence consists of wooden slabs firmly bound together by the strongest of steel wire. It must be seen to be appreciated. Mr. Solt has orders for the manufacture of several thousand rods of fence.—Daily News.
We understand that Mr. George Peters, of Millheim, has also received machinery for this manufacture of silt fence several weeks ago and is prepared to run out any amount of it.

BURNED OUT.—"The Housekeeper," Minneapolis, Minn., was burned out for the second time in six years, April 12th, and a part of its large subscription list destroyed. Several of the ladies employed barely escaped with their lives.
Such of our readers as do not receive the May number promptly, should write to the publishers, giving full address, time when subscription was made, and length of time paid for. The May number will then be forwarded and the name restored to the list.
MANY CHILDREN suffer from day to day; puffy, pallid, fretful and feverish, variable appetite and restless sleep, finally die, and their parents never suspecting the real cause, that the little sufferers' stomachs are infested and eaten through with worms. Twenty-five cents invested in a box of McDonald's Celebrated Worm Powders would save the doctor's bills and the patient's life. Entirely vegetable. Easy and pleasant to take. Money refunded to dissatisfied purchasers.

The Aaronsburg Centennial—well, what about it? The matter is presented to us almost daily. A few, in our judgement, are getting too querulous. Oh yes, you want to come here and enjoy a good dinner with us. Well, we will see about it. No action has been taken yet by our citizens.
For the more distant readers of the Journal we will announce through its columns the death and burial of Mrs. Samuel Schoch, of Millheim, Pa., formerly and for many years a resident of this place. We are aware of the fact that many Journal readers were very well acquainted with Mrs. Schoch, therefore we make this announcement.
A rumor reached us a few days ago that the laboring classes of our sister town, Millheim, are about to enter upon a strike for eight hours' work and ten hours' pay. Well, Mr. Editor, if you anticipate a riot, see to it that an order is issued for the Aaronsburg militia. They are all captains in a riot, wooden guns you know. ANOTHER.

The merchants through our valley must be doing a good business, judging from the amount of goods we see unloaded daily at our railroad station.

It is now conceded on all sides that there is not and never has been a remedy of such remarkable efficacy as Curtis' Carmelite Cordial, in curing cholera, dysentery, diarrhoea, cholera morbus, summer complaints, cramps, pains in the bowels, or any intestinal irritation whatever, a single dose brings remarkable relief and a single bottle is guaranteed to cure any case or money refunded.
