The Millheim Jounnal THURSDAY, JUNE 3RD, 1886. Published by R. A. BUMILLER.

THE city of Reading is happy now since their postoffice is in charge of a democratic postmaster for the first time in 25 years. Calvin Goodman, the new man, entered upon his duties on the first of June.

JOHN KELLY, the great Tammany chief, is now beyond the harrassing toils of this life and especially of political campaigns. He died at his residence in New York on Tuesday afternoon, after an illness of seven months.

ANOTHER distinguished bachelor is reported to have been caught in the meshes of love. Governor Hill, of New York is said to be likely to follow PresidentCleveland's example by marrying a wealthy young widow of Albany. Cupid must have opened war upon the hearts of the executives.

On Tuesday the President sent to the senate the following nominations : David L. Hawkins, of Missouri, for Assistant Secretary of the Interior, vice George A Jenks, resigned ; Joseph B. Johnson of Virginia, to be Commissioner in and for the District of Alaska, vice Chester S. Eber. re-

signed.

A NUMBER of Pennsylvania capitalists, composing the Pioneer Mining and Manufacturing Company, and mostly residents of Catasauqua, Pa., and vicinity, are about making arrangements to erect large iron furna ces in Alabama, shout three miles from Birmingham. A boom for Scuthern fields.

AT LAST the curious and inquisitive reporters of the large city dailies are out of their agony and may again enjoy a quiet night's rest. The great event. President Cleveland's marriage, which would have been such a precious morsel of news had they known date and particulars a little earlier, is now past and there wasn't such an awful fuss made about it either.

Appropriation Bill Becomes Law. Washington, May 30.-Of fourteen annual appropriation bills the Indian bill has become a law. The District of Columbia and Post-office bills have assed both Houses and are in the ands of conference committees. The cousular and diplomatic, army, pension, Military Academy, agricultural and river and harbor bills have passed the House of Representatives and are before the Senate committees. The leg-

House calendar awaiting action. The tortification, sundry evil and general the season was to bring forth a 'bumpdeficiency bills have not yet been reported from the House committees.

The Wolfe Movement Has a Dangerous Look.

From the Crawford Journal, Rep. The proposition of the Pennsylvania

Prohibitionists to nominate Charles E. Wolfe for Governor has a dangerous look. The old Independent fires are slumbering, not entirely extinguished, and there are many Republicans who will not vote for General Beaver now any more than they would four years ago. They will gladly vote for Wolfe, not because they are Prohibitionists. but because they are favorable to General Beaver. Mr. Wolfe would un doubtedly poll more than the regular Prohibition vote. Whether his candi-

dacy would not keep from the Democratic candidate those Independent votes which he might otherwise get is fair question. The count alone would tell. For our part, although not in favor of General Beaver's nomination, we believe if nominated he should be elected. He got his punishment in 1882 for his subserviency and doubtless he will remember it.

THE INDIAN SITUATION SER-IOUS.

A General Outbreak at San Carlos Feared. 'Three Indians Scalped.

Tucson, May 29 .- The Indian situation is growing serious. It is feared that a general outbreak from the San Carlos reservation will take place. It Carlos reservation will take place. It is said there is no doubt that the hos-tiles are being reinforced from this res-H ervation and that the long continued success of the hostiles has emboldened the others. General Miles is yery active and is enlisting rangers from the most determined men. A company is 0 being recruited at Tucson who will take the field at once. Southern Arizonia, it is stated, is in a state of ter-Wilcox, Arizona May 29.-On Wednesday night Indians attacked Jon es brothers' ranch, near Hooker's, Hot Springs. The owners made an effective defense, killing three of the Indians, whom they scalped. Critteden, Arizona, May 29.-G. P.

Wemple, superintendent of the Chicago HH Washer Company, at Greaterville, was killed by Indians this morning while on his way from a neighboring ranch to Greaterville.

President Cleveland Married HOTEL and FAMI

to Miss Folsom.

general outlook for an average crop yield. Southern Illinois continues to send in the most serious reports as to ravages by clinch bugs. Alexander, 418 Bond, Edwards, Jefferson and Monroe counties, all in Southern Illinois, report great injury in many of the fields. Greola, Franklin and Panorama counties in Kansas ; Felton and Highland 163 counties in Ohio, and Howard county in Indiana report considerable injury 163 from clinch bugs. Grasshoppers are reported in numerous quantities in Wilson Valley, Iowa ; Howard county, Indiana, and Athens county, Ohio. Looking over the entire winter wheat islative and naval bills are on the belt the promise is still good for an average yield, but the early promise that 163 153 er' crop will not be abandoned. The 163 165 acreage would not warrant such an outcome unless the conditions were everywhere extremely favorable. The 163 late returns from Kansas do not indi-163 cate that the former estimate of from 40 to 50 per cent. of an average crop will be exceeded. The State of Michigan does not promise more thap 85 per cent. of an average yield, while the average of Illinois now threatens to fall 163 to 90 per cent. In Missouri, Tennessee, Kentucky and possibly Indiana 433 163 and Ohio conditions are still fayorable 20 for a full average crop. Turning to the spring-wheat States and Territories the conditions contin- 30 ue to remain favorable in Iowa, Nebraska and Wisconsin for wheat and all the life small grains. In Minnesota wheat on 120 many of the lowlands has been drowned by the recent heavy rains. On all high and well drained lands the outlook continues to be excellent. In some portions of Dakota fears of injury from 433 120 drought are expressed. Barns county reports serious need of rain. Cass county, the largest wheat producing county in the Territory, reports the wheat prospects never to have been more promising. The remaining counties report the growing grain up to a fair condition. Harvesting will commence in Tennessee, and it is promised that some grain cutting will begin the first week in June. GRANDMASTER POWDERLY, when asked the question the other day, whether James G. Blaine, the Plumed Knight, is also a Knight of Labor answered in the negative by saying in a cutting way that already enough bad things were said about the order, leaving alone such a misfcrtune. If J. G. B. still entertains presidential aspirations he would better work Powderly out of the way before 1888.

THE Prohibition Party in this state propose to put the following ticket in the field this fall :

Governor, Hon. Charles S. Wolfe, of Union : Lieutenant Governor, Colonel George F. Macfarland, of Dauphin ; Auditor General, Captain M. L. Marquis, of Lawrence ; Secretary of Internal Affairs, Professor H. D. Patton, of Greene, and Congressman at large, Samuel P. Godwin, of Philadelphia.

THE Harrisburg Patriot rightly calls the Senate the hot-bed of subsidies. It says that these subsidies seldom originate in the House. They are a fungus matter that attaches itself to an appropriation bill after it has passed the House and got into the other chamber. As an example, the House passed the Post-office Appropriation Bill. The Senate added a clause giving \$800,000 for the benefit of two or three steamship lines, trusting to the chance of forcing the House to yield to the demands of the jobbers rather than be responsible for an extra session.

HERR MOST, the principal anarchist, who is at present on trial in New York for inciting riots and communism, has a rather checkered history. After having been incarcerated for several years in his native country, Germany, for precisely the same crime for which he is being tried now, he went to France, and when it got too hot for bim there, he went to England. There again he spent some time in prison for publishing and distributing socialistic literature and when he had served out his term behind the bars he sailed for the United States and again engaged in his rascally business of firing on the blind and less educated workingman to the bloody and disastrous work of rioting. Legally he cannot be charged with murder or bloodshed, as his compan- Friday. ions in Chicago, and consequently he will likely slip clear with a year in

the penitentiary ; but it is a pity all the same, for practically he is at the bottom of all the mischief, and de-

Washington, May 29 .- At last the long suspense is ended; the President has owned up ; the ship has come in ; the bride and the trousseau are safe on the land. A bombshell could not have startled some nerves more than when the news was given out on Friday night. The Cabinet officers received the President's confidence on the subject of the wedding only the shortest time in advance of the whole world, and experience the same universal H sense of relief that the general conviction is at last a certainty. Official society is now bowed down with grief at the death of Miss Fol-

som's grandfather, but for which sad 0 event the wedding would have been celebrated with great splendor and all B the official world invited to a grand reception. As with the brides of sovereigns and heirs apparent, she comes to the Capitol to be married in the official residence of the ruler, although the one precedent of the kind, President Tyler, went over to New York and married Miss Gardner there. Dr. Sunderland, the President's pastor, is to officiate,

and his surprise at the first notification AGENTS of it may be imagined when it came late on a quiet night by a corpse of re-WANTED! porters ringing his door bell and plying

him with questions. THE WEDDING TO BE A VERY QUIEF ONE.

Washington, May 29 -The White House is a busy place. Now that the secrecy connected with the President's wedding has been removed, and the date has been announced as June 2, the evidences of preparation are visible. Imrovements in and around the Executive Mansion are being pushed forward with great vigor, and Celonel Wilson, Superintendent of Public Buildings and grounds, is giving the work his dard books.

personal supervision. The household force is larger than usual and the interor of the mansion is being scoured from top to bottom. An addition has been made to the fountain which orna. ments the beautiful lawn at the south front of the building, which is said to have been suggested by Miss Folsom when she was last a guest at the White

House. It is the President's desire, as well as that of Miss Folsom, that the marriage ceremony shall be performed with as little display as possible, and, owning to the recent death in the Folsom famly, only the immediate friends of the Cleveland and Folsom families, the Cabinet officers and their families, and a few personal friends will be invited to witness the ceremony. There will be no bridesmaids or groomsmen. The services will be conducted by the Rev. Dr. Sunderland, of the Presbyterian Church. A wedding supper will be served in the state dining room, at which the new hostess of the White House will preside for the first time. The President has decided to postpone his bridal tour until after Congress adjourng and

will spend his honeymoon at the White House. The State Doctors. Williamsport, Pa., June 1.-The State

Medical Convention will convene here tomorrow. Already a large number of physicians are in the city. The convention will continue in session until
