Now I am free from all pain and soreness, and am able to do all my own housework. I owe my thanks to Electric Bitters for having renewed my youth, and removed completely all disease and pain." Try a bottle, only 50c at J. Eisenhuth's Drug Store. —Sheandoah and the entire Mahanoy Valley is threatened with a water famine. No rain has fallen in nine weeks, and the streams in the valley are nearly all dried up. In this season of the year, when the nights are cool and the days warm, people should take every possible precaution against diseases of that kind. One of the preventives which we know to be very good is the scattering of carbolic acid in the cellars and rooms of your residences. —It affords us much pleasure to recall an item referring to Rev. C. F. Deininger's ill health and probable removal to town, which appeared in a former issue of this paper. The information which was given us was the result of a misunderstanding of Rev. He says his health is no better than when he was here, but that he will remain at his post in York, Pa., at least until the time of his appointment expires. —GRAND OYSTER SUPPER AND FESTIVAL.—The ladies of the Mite Society of the Trinity Ev. Every table was filled and the cake walks in the rear part of the building were largely patronized. —One reason why the representation from Brush and Penn Valleys was not larger at the recent Democratic meeting in Bellefonte was that most of the people doubted Black's coming there. It's funny that our republican friends should make so much capital out of this insignificant matter. The democracy of this end of the county may not always turn out to mass meetings, but when the time comes for voting they will take care that every man will be on board and help to elect Black. Don't forget that.

BASOM, Pastor. —EMINENT PHYSICIANS connected with the principal hospitals throughout the United States report very gratifying and satisfactory results from the use of McDonald's Great Blood Purifier in all cases of vitiated blood, emaciated condition, enfeebled digestive power, malassimilation of food, &c. But few diseases can withstand its remarkable purifying tonic and reconstructive power. Money refunded to dissatisfied purchasers. JOHNSTON, HOLLOWAY & CO., Philadelphia Agents. Sold by J. Eisenhuth, Millheim, Pa. —The crossings on Main street are about being finished. The council spent considerable time and money on them but they are a splendid and durable job. As usual the growers and fault with the crossings, the street commissioner, the workmen, the council and the borough in general. But what is the difference. The world moves on the same as before and the fault-finders are just as willing to pass over a good crossing on a rainy day as the rest of mankind. The one thing that councilmen must learn is that they can no more run a borough to suit everybody than an editor can run his newspaper to please all. —Prof. Bierly's singing class was organized on last Wednesday evening by the election of a president, treasurer and secretary. J. F. Harter handles the funds and M. C. Gephart wields the pen. Never mind about the president. The class at present consists of some forty scholars and will meet in the Grammar school room on Penn street every Saturday evening. Persons who are fond of music and desirous of receiving thorough instructions in vocal music are urgently requested to turn out next Saturday evening and join the class. The larger the class the easier the terms. The books to be used during the term will then be for sale. —On our way to Bellefonte last Tuesday we met an old and prominent democrat of Gregg township and conversation led to a certain letter in last week's Keystone Gazette and which was alleged to have been written by a Gregg township democrat, who chooses to be a "kicker." Our democratic friend, who by the way is well posted in Gregg township politics, told us that upon reading the letter he made it his special business to ferret out the writer but found that none of the democrats of Gregg had anything to do with the article and the common belief is that editor Fiedler himself is the getter up of this fine (?) piece of literature. Fiedler's malapropos writings create considerable indignation and at the end of the campaign he will see to his sorrow that he has done his party more harm than good. Better stop monkeying 'round the buzz saw. —THE BELLEFONTE GLASS WORKS BURNED.—The Bellefonte Glass Works were totally destroyed by fire on Sunday morning. The flames broke out about 5 o'clock and burned fiercely. The loss is estimated at \$50,000, on which is an insurance of \$20,000. The capacity of the works was 1,000 boxes a week. The company annually paid out to labor in cash about \$45,000. Seventy-five men are thrown out of employment. The works originally cost \$60,000. They were owned by the present stock company, consisting of Messrs. Ardell, Munson, Sechler, Anderson, Josephs, McFarlane, Teller and Sayer, under the name of the Bellefonte Glass Company, Limited. The fire is supposed to have been of incendiary origin. It is authoritatively stated that the Works will be rebuilt at once. —Last Thursday evening ground was broken for the foundation walls of the Knitting Factory. About 30 or 40 men were on hand and made them selves useful with picks, shovels and wheelbarrows. The crowd, according to orders, gathered on Main street and marched to the place of operation by the strains of the band. When arrived on the ground Cashier A. Walter was proposed as the proper person to dig the first shovel of ground which he did amidst the cheers of the crowd. A fair start was made that evening and the well-begun work was continued on Friday evening by means of a large pile and scraper. Of course the exercises were witnessed by a good sized crowd of spectators, with a fair sprinkling of the fairer sex. At a meeting of the executive committee Jon. Harter was appointed to take charge of the foundation work, and John Stoner to furnish and deliver on the ground the necessary lumber. The work is to be pushed right along.

A THRILLING ACCIDENT.—On Thursday one of the most marvelous escapes from instant death occurred near Coburn in this county that are known to the history even of railroad accidents. Conductor Cook, who visits Bellefonte every day, three, as is his custom, mail matter from one train to the other, as they passed each other. At this point both trains were going with more than ordinary speed, fully thirty miles an hour. The motion caused him to lose his balance and he fell from the car. In falling, his hand came in contact with the last car of the opposite train. Thence he was thrown back upon the other track, that train having passed. Both trains were stopped and all hands ran to the place expecting to find Conductor Cook ground to pieces. Their surprise and delight may be imagined when it was discovered that he was only bruised. His injuries compel him to be off duty today, but he will soon be quite well again. —Daily News. —FINE TIMBERLAND AND A GOOD FARM FOR SALE.—On Friday, November 12th, 1886, at 1 o'clock, p. m. there will be offered at Orphan's Court Sale a tract of land containing 370 ACRES, late the property of Chas.
