He died of heart disease and his end came very suddenly. He was working in his yard on said morning, when he fell over and expired. The news of his death was a surprise to everybody as he was seen in town a few days before, apparently in usual health. He leaves a widow and several grown and married children to mourn his death. Deceased was well known in this section of the county as a hardworking, neighborly and peaceloving citizen. His funeral took place vesterday afternoon, when the services were held in the U. B. church. DEATH AGAIN .- It is with sorrow and sympathy that we announce the death of the infant son of Mr. & Mrs. A. F. Harter, which was caused by cholera infantum. The little one died

We hope there will be soon an end to this masquerading business. It is anything but creditable for a married woman to walk around town in men's apparel. It's a trifle too bold and if the lady has no respect for herself she should have some for her husband. Let the occurrence the other day be the last of the kind.

to whether the family pocket book belongs to the husband, the wife, or a little of both. One thing is sure, the pocket-book ought to be open long enough for the wife to get one dollar to pay for THE HOUSEKEEPER one year, especially as the publishers send the last three numbers of 1886, all of 1887, and a choice collection of imported bulbs for fall planting or forcing for winter blooming in the house, to any

-The following item appeared in the Sunday Times, Philadelphia, last week, as a Pittsburg Dispatch and as it speaks of the Penns Caves, situate midways between this place and Bellefonte it will be perused with interest by many of our readers :

A CAVE IN CENTRE COUNT Y. Penn Cave, of Bellefonte, Pa., is of very recent discovery. It has just gotten over the noyelty of christening. It is a second Luray cavern, and if it were the property of an enterprising man it would rise to fame. A farmer, while plowing, accidentally discovered it some few years ago. He has done nothing more to it than to open au entrance in the hillock and build for himself a boat to accommodate the hundreds of curiosity seekers who come and go. Even so distinguished a c-lebrity as Ex-Governor Curtin, who lives in Bellefonte, has had no influence to bring the maryel into worthy prominence. We reached it six miles out of town by special conveyance. We called the farmer from his plow and gave him a quarter dollar fee each, and so were conducted into the wonder. The farmer showman was no expert at the par He paddled from behind and illumined the way with a lantern affixed to the prow. Understand, the cavern

is dark from the start, and it must be seen all through in a boat. Water pervades it and the pendant cones that drop like icicles everywhere allow a passageway, through which you ply your boat. The formation of stalagmite and stalactites presents the most fantistic spectacle in the glare of the torch. The spectral reflections on the water, with the splash blind fish, make the quarter mile journey a weird one. You reach the end wall, through which the light—the dream of greater won-the nudice version of the light of the second of the light of the second of the light of the second of the light of the light

invitation to do so. Quite a large number of our citizens attended the funeral of Mis. Wm. Bright

at Millheim on last Sunday. With the exception of a few Prohibition speeches, Aaronsburg steered clear of all pullic political excitement.

Just as well it was so. Charles Musser has again returned to
