THE FIFTIETH CONGRESS.

An Apparent Democratic Majority of Twenty-five in the House.

The latest returns of the Congres sional elections are much more favorable to the Democrats and, unless reversed by official count, give the party twenty-five majority in the next House of Representatives. The gains not heretofore credited to them are the Second and Fifth California districts and the Second North Carolina. In the Seventh Ohio, which had been reported carried by Little (Bep.), the official count gives three majority to Campbell (Dem). In the disputed Tenth Illinois district the face of the returns shows a majority for Post (Rep.) over Worthington (Dem.) Mr. Carlisle is re-elected by a majority of 786. The Congressional table, as now arranged, stands as follows :

kansas, 5 are all democratic. Colorado elected a republican governor In Delaware and Arizona the democrats were victoricus. Florida elected two democratic congressmen. Massachusetts has a republican winter and are to be put on the road governor. Michigan is claimed by both par- ton men steady work during the com- deceased. ties for the state ticket. The legisla- | ing winter. ture is republican. Nebraska and Nevada went republican. Missouri has the usual democratic majorities.

The grain markets have been speculative, in a mild sense last week and prices have undergone slight fluctuations, but the rounding out shows a falling off. This cannot last, unless all the signs of the times are astray, at least so far as wheat is concerned. The wheat crop of the world is short, and the surplus from past seasons must be called upon, to eke out the supply.

Col. ROBT. G. INGERSOLL is affected with a throat trouble similar to that which killed Gen. Grant and is regarded by his physicians as incurable.
AN order has been received by the Lehigh Valley Railroad shops at Packerer ton to build 100 Tiflin refrigerator cars. These are to be built during the winter and are to be put on the road next spring. This insures the Packerton men steady work during the comming winter.
