

The city of Boston elected O'Brien, Democrat, for its mayor by a nice round majority. The Democrats will also have a clear majority of three in the common council. That's not so bad for the capital of republican Massachusetts.

GOVERNOR-ELECT BEAVER does not seem disposed to be in a hurry about dealing out the fat places which his office gives him authority to fill and the General's hesitancy is a dilemma to the hungry office seekers. They intend to wait developments patiently and that is about the wisest and only course left.

The trade reports show a fair degree of progressiveness. The business pulse of the country is quiet but regular and far-seeing traders think prices of grain must soon go higher. There is no change in the iron markets. Prices are stiffly held and contracts for the coming season are being made more freely.

It is astonishing to read of the enormous waste of material that has been going on in the shipyards under previous administrations. Secretary Whitney in his annual report shows that there are now twenty million dollars worth of supplies on hand, most of them new but ruined by decay and rust. This would indicate gross extravagance and a great necessity for reform.

CONGRESSMAN Randall and several of his followers held a conference on Tuesday night to consider the tariff questions. The discussion of the subject consumed about two hours and resulted in the adoption of the following propositions:

1. They stand opposed to entering the consideration of the pending Morrison bill.

2. They favor a reduction of the revenues at this session so as to prevent the accumulation of surplus in the Treasury, but insist that it shall be effected by the same measure which shall embrace the repeal or reduction of certain internal revenue taxes.

3. They favor an immediate change in the administrative feature of the existing tariff laws separate and apart from any general revision of the tariff.

These sentiments would at least provide a mild remedy for the "knotty" tariff question. It will be a relief to the country at large to see the beginning of tariff reform and though the measure passed may not suit all it is a consolation to know that the most of the ridiculous revenue taxes will be wiped away.

SPAKING of the recent cleaning out of the Soldiers' Orphan Schools in this state the Philadelphia Times says that the soldiers' orphans of Pennsylvania have occasion every day to be thankful for the overhauling the orphan schools got last spring in the newspapers. The children are now getting the benefit of the liberal appropriations made for their maintenance. The report of Miss Simmons, the new inspector, who has just returned from a tour of inspection including five of the schools, is that their condition is excellent. The bedding is good and there is plenty of it; the bathing facilities are ample; there is no more overcrowding and the children have plenty to eat, the food being of good quality. Much of this reform in the management of the schools is due to the personal visits of Governor Pattison and to the admirable rules prescribed and enforced by General Wagner. The proprietors of the schools are not getting rich as they were; but what is their loss is the children's gain. The public will view the decrease in the profits of the syndicate orphan farmers with a great deal of satisfaction.

WASHINGTON LETTER. (From our regular correspondent.) WASHINGTON, Dec. 14, 1886. The first work of the new session of Congress shows the Senate's record as a blank, so far as public business is concerned. But the much abused House of Representatives, which is too bulky to transact business, which is composed of a dozen heterogeneous elements, and which is under Democratic control, accomplished some useful work. The tariff question will not "down." It has made its appearance several times since the session began at unexpected times and places. Senator Morrill has introduced for twenty successive years. Senator Beck, who is heartily in favor of a radical reduction of customs duties, answered the Senator from Vermont in a speech in which he quoted Secretary Manning, Senator Sherman, and the Bible in support of free trade, or "fair trade." He quoted what Senator Sherman had once said in advocacy of the utmost freedom of intercourse between nations. The Ohio Senator next took the floor to answer the remarks of the able Kentuckian, but his speech was simply an arraignment of the Democratic party. Mr. Sherman is working with his usual adroitness and with more energy than any of the other Republican aspirants

for nomination at the National convention in 1888. He has never forgiven Gen. Garfield for having gotten the nomination at Chicago when he expected it himself.

While many Democrats seem to think that Mr. Sherman is a strong man with his party, the truth is that his Republican associates do not like him. He is not a man whom anybody could like without a great effort. As in the case of Senator Edmunds, any liking for him must be an acquired taste. Indeed there is such a complication of dislikes and hatreds and old grudges among the Republican aspirants that not many men of real eminence in the party are solicitous for the nomination in 1888. Said one of them a few days since "what would be the use of getting a nomination. The Democrats have come in to stay for a long time."

Returning to the tariff it seems now to be a foregone conclusion that the two opposing forces in congress will cross swords on this issue during the winter. Both sides are in earnest. An Ohio member remarked yesterday, "this thing has gone on long enough. The tariff must be reduced. We have a hundred millions coming in which we do not know what to do with."

The tariff reformers and their opponents have been consulting with each other, and it is thought another effort for tariff reform will be made this week. Speculation upon the probable result of that effort would be more conjecture. Whether Mr. Morrison's tax-reducing measure joined with Mr. Hewitt's customs-administration measure will pass, or whether one will pass without the other, or whether some substitute for the one or for both will pass, or whether every tariff proposition will be rejected, it is impossible to say. At present the proposition to abolish the internal revenue taxes on whiskey and tobacco seems to be the most formidable rival of Mr. Morrison's proposition to reduce customs duties and to extend the list of articles that shall be entitled to free entry.

Miscellaneous News.

Mikado in the Danville Insane Asylum.

Monday's Patriot contains an interesting account of the performance of the comic and popular opera "Mikado" which was given in the recreation hall of the Danville asylum by the Star Opera Company last week. It is said that the six hundred insane inmates watched the play with intense interest and that they were effected in many different ways by the pleasing scenes and music which the opera produces. As a whole the attending physicians think that the experiment will prove beneficial to the diseased minds as it is likely to divert their thoughts from their usual fixed channels.

It is in order now for every manufacturer to project and extend the width of his coat of medicine, and claim it ever so much better than any other. On square business principles the proprietor of Dr. Kessler's Celebrated English Cough Medicine says if you are not satisfied with the relief and benefit obtained, if you do not consider it well worth the price paid for it, then take the empty bottle back to your dealer and get your money.

Cutting to Invade Mexico. ST. LOUIS, Dec. 12.—A. K. Cutting, the leader of the filibusters who propose to invade Mexico, said yesterday: "We have about 2,000 men enrolled already, and the work is still going on. In Chicago a syndicate of capitalists told us that if we could raise seven or eight thousand men for the work, they would furnish \$18,000,000 to pay the expenses of the undertaking, so you see we shan't lack money."

DISTRESS AFTER EATING.—This result of indigestion will no longer be experienced if Simmonds Liver Regulator is taken after each meal. It is such a good digester, and so mild and pleasant in its effect that it is used by many, after a hearty meal, to insure good digestion. The Regulator does not nauseate or irritate the stomach, but corrects acidity, dispels foul gases, always irritates, and assists the stomach in its digestion.

DO NOT crucify the children by compelling them to take the horrible, nauseous compounds usually sold as worm medicines, many of them as worthless as they are obnoxious, but get a box of McDonald's Celebrated Worm Powders. Purely vegetable. So easy and pleasant to take that the children will never know a medicine is being administered. You will in addition secure the very best vermifuge possible to produce. So sure are we of this that in all cases of failure to cause expulsion where worms exist we cheerfully agree to refund the purchase price. One box of McDonald's Worm Powders guaranteed equal to four bottles of any worm syrup.

Mistook His Daughter for a Burglar PITTSBURGH, Dec. 12.—J. C. Hill, a resident of Edgewood, a suburb of this city, mistook his daughter for a burglar Friday night and shot her through the neck, inflicting a dangerous and, it is feared, fatal wound. Mr. Hill had made collections of about \$5,000, which he took to his home to keep over night. His daughter, who had a bad toothache, rose early yesterday morning and went down to the library to the fire to warm herself. Her father, hearing the noise, thought burglars were in the house and taking his revolver followed her down stairs. When he reached the door of the library he fired, the ball striking his daughter in the back of the neck and passing through the front.

AGONIZING ITCH AND PAIN.—I was seriously troubled with salt rheum for three years, and receiving no benefit from medical treatment I decided to try Hood's Sarsaparilla. I am now entirely cured of salt rheum; my weight has increased from 108 lbs. to 135 lbs. Mrs. ALICE SMITH, Stamford, Conn. If you suffer from salt rheum, or any blood disease, try Hood's Sarsaparilla. It has cured many others, and will cure you.

Desperate Tramps. They Attack a Saloon Keeper and Terribly Beat Three Men.

SHENANDOAH, Pa., Dec. 12.—A band of about thirty tramps who had been making their headquarters just outside the borough limits during the past few weeks, came into Shenandoah last night, and after getting drunk raised a riot in a saloon, fatally injuring three men. Four of the tramps were ejected from the saloon for using abusive language and shortly afterwards returned with eight of their comrades and attacked the saloon keeper and a party of miners who were drinking in the house of James McKeone. A brother of the saloon keeper was terribly hacked with a razor in the hands of one of the tramps and two of the miners were beaten with bottles and glasses into insensibility. The tramps after clearing out the barroom withdrew to the street and wrecked the front of the building. Nine of the number were subsequently arrested and four of them were committed to jail. McKeone will die and the other two men are in a precarious condition.

A Young Man Asks Permission of the Government to Marry an Indian Girl. WASHINGTON, Dec. 12.—A rather novel request has been received at the Interior Department from a young man living in Nebraska who wants to marry a daughter of Standing Bear, a Sioux chief. He states who he is, and encloses a photograph of the girl, who is very nice-looking and was educated at Carlisle. The young man, however, wishes to go and live on the reservation with his prospective wife and her relations, and for this reason it was necessary to obtain the permission of the Interior Department. White men are not allowed to stay on an Indian reservation unless they have authority from the Government to do so, and so this young man was obliged to take the Government into his confidence and reveal his love affairs. The Secretary of the Interior considered the matter from its practical rather than its sentimental side, and concluded that while he could not prevent the young man marrying the girl he could prevent him from going to live with the old folks, and if he was anxious to marry the young woman as he professed to be, he might scratch around and provide her with a home. Secretary Lamar will write a letter to the ambitious lover, and while not discouraging the ardor of his love, will suggest the practical view of the situation, which seems to have escaped him. Until there is some change in the present plans of the young man the paternal benediction of the Interior Department will be withheld.

Don't Experiment.

You cannot afford to waste time in experimenting when your lungs are in danger. Consumption always comes, at first, only a cold. Do not permit any dealer to impose upon you with some cheap imitation of Dr. King's New Discovery. You will get the real thing, but be sure and get the genuine. Because he can make more profit he may tell you he has something just as good as just the same. Don't be deceived, but insist upon getting Dr. King's New Discovery, which is guaranteed to give relief in all cases of Croup and Croupy Coughs. Trial bottles free at J. Eisenhuth's Drug Store.

Salt Rheum

The agonies of those who suffer from severe salt rheum are indescribable. The cleansing, healing, purifying influence of Hood's Sarsaparilla are unequalled by any other medicine. "I take pleasure in recommending Hood's Sarsaparilla, for it has done wonders for me. I had salt rheum very severely, affecting me over nearly my entire body. Only those who have suffered from this disease in its worst form can imagine the extent of my affliction. I tried many medicines, but failed to receive benefit until I took Hood's Sarsaparilla. Then the disease began to subside, the blood made collections of about \$5,000, which he took to his home to keep over night. His daughter, who had a bad toothache, rose early yesterday morning and went down to the library to the fire to warm herself. Her father, hearing the noise, thought burglars were in the house and taking his revolver followed her down stairs. When he reached the door of the library he fired, the ball striking his daughter in the back of the neck and passing through the front.

There is more Catarrh in this section of the country than all other diseases put together, and until the past few years was supposed to be incurable. For a great many years Doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment pronounced it incurable. Science has proved Catarrh to be a constitutional disease, and therefore requires a constitutional treatment. Hall's Catarrh Cure manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure now on the market. It is taken internally in doses from ten drops to a teaspoonful. It acts directly upon the blood and mucous surface of the system. They offer one hundred dollars for any case it fails to cure. Send for circular and testimonials. Address, F. J. CHENEY & CO., Toledo, O. Sold by Druggists, 75 cts.
