—B. O. Deiningner, Esq., has embarked in the publication of a new and well-arranged tax receipt book, which he had copyrighted and which especially adapted to the new tax law. One hundred sample copies of these books were printed in the JOURNAL office last week which will shortly be sent out for examination. These books will no doubt secure a good market and promise the author an extensive business. The book is an improvement upon his former publication, which furnished a separate receipt for each tax paid, while the new receipt book is arranged in last twenty years, one page answering for a receipt for all taxes paid in one year.

—MARK TWIN says of Prof. Loiset's system of memory training, now taught at 237 Fifth Ave., New York: "Prof. Loiset did not create a memory for me—no, nothing of the kind. And yet he did for me what amounted to the same thing, for he proved to me that I already had a memory, a thing which I was not aware of till then. I had before been able, like most people, to store up and lose things in the dark cellar of my memory; but he showed me how to light up the cellar. It is the difference, to change the figure, between having money where you can't collect it and having it in your pocket. The information cost me but little, yet I value it at a prodigious figure.
THE NEW ORDINANCE.—Six columns of the first page of this week's JOURNAL are taken up with the new Borough Ordinances. We advise our town readers to give them a careful perusal as they are infinitely superior to the old borough laws. The council committee, appointed for the revision of the former ordinance, assisted by their clerk, have worked hard and incessantly to make the job as near perfect as it is in the power of human mind to do, and employed the services of one of Bellefonte's best attorneys to pass judgement upon and correct and improve the ordinance where it was necessary. Several new sections have been added, in order to cover some points of local government which had been entirely omitted in the old set of ordinances, and to those who study the document with care it will be evident that the framers of the new law inserted some wise and timely provisions. We call special attention to sections 2, 10, 37, 38, 39, 40, 41, 44, 45, 46, 47, 50, and 51. A comparison of the old with the new borough laws will at once convince an impartial observer that it was indeed necessary to make changes and additions, and without attempt at flattery we say that the work was well done and at comparatively little expense.

NINETEENTH ANNUAL SESSION OF THE CENTRAL PA. M. E. CONFERENCE.
—The M. E. conference at Bellefonte which is just about closing has been a very successful and profitable convention of the clergy of that denomination. The sessions began on last Thursday in the M. E. church with Rev. Bishop H. W. Warren in the chair. Rev. D. S. Monroe, D. D., was elected secretary. At the second day's session three resolutions for missions were reported in advance of last year, while the whole number of conversions is seven thousand. Miss Annie F. Newman, of Nebraska, addressed the conference on Saturday morning and delivered a lecture before a great audience in the afternoon on "Mormonism and Its Errors." Her remarks made a profound impression upon her hearers. On Sunday all the churches of Bellefonte were filled to overflowing, the various pulpits having been supplied by contributing ministers. Bishop Warren dated a number of elders and deacons, and the missionary anniversary was held in the evening. The greater part of Monday's session was taken up with semi-centennial addresses. The report of the church extension showed that the income for the past year from collections and the loan fund amounted to \$275,000, an increase of over \$11,000. Messrs. F. J. Cheney & Co.—Gentlemen—I have been in the general practice of medicine for most 40 years, and would say that in all my practice and experience, have never seen a preparation that I could prescribe with such confidence of success as I can Hall's Catarrh Cure manufactured by you. Have prescribed it a great many times and its effect is wonderful, and would say in conclusion that I have not yet found a case of Catarrh that it would not cure, if they would take it according to directions.
Yours truly,

Shippers along the railroad are anxious to know what effect the inter-state commerce bill which goes into effect April 5th will have on rates. Shippers who have been shipping under special rates will be withdrawn April 4th and new rates issued in compliance with the bill. What the result will be is hard to say but our opinion is, it will make cheaper rates from interior points to the eastern markets, so that shippers from here will be able to compete in eastern markets with shippers from the far west who have been able to ship to the East as cheap as those who are within a day's travel of the seaboard cities.

—Working people are often too ill to labor, but they haven't time to take medicine and lay off. Simmons Liver Regulator can be taken without any loss of time, and the system will be built up and invigorated by it. It has no equal as a preparatory medicine, and can be safely used when a doctor cannot be called in. In all common diseases it will, unassisted by any other medicine, effect a speedy cure.

—B. O. Deiningner, Esq., has embarked in the publication of a new and well-arranged tax receipt book, which he had copyrighted and which especially adapted to the new tax law. One hundred sample copies of these books were printed in the JOURNAL office last week which will shortly be sent out for examination. These books will no doubt secure a good market and promise the author an extensive business. The book is an improvement upon his former publication, which furnished a separate receipt for each tax paid, while the new receipt book is arranged in last twenty years, one page answering for a receipt for all taxes paid in one year.

MARK TWIN says of Prof. Loiset's system of memory training, now taught at 237 Fifth Ave., New York: "Prof. Loiset did not create a memory for me—no, nothing of the kind. And yet he did for me what amounted to the same thing, for he proved to me that I already had a memory, a thing which I was not aware of till then. I had before been able, like most people, to store up and lose things in the dark cellar of my memory; but he showed me how to light up the cellar. It is the difference, to change the figure, between having money where you can't collect it and having it in your pocket. The information cost me but little, yet I value it at a prodigious figure.
THE NEW ORDINANCE.—Six columns of the first page of this week's JOURNAL are taken up with the new Borough Ordinances. We advise our town readers to give them a careful perusal as they are infinitely superior to the old borough laws. The council committee, appointed for the revision of the former ordinance, assisted by their clerk, have worked hard and incessantly to make the job as near perfect as it is in the power of human mind to do, and employed the services of one of Bellefonte's best attorneys to pass judgement upon and correct and improve the ordinance where it was necessary. Several new sections have been added, in order to cover some points of local government which had been entirely omitted in the old set of ordinances, and to those who study the document with care it will be evident that the framers of the new law inserted some wise and timely provisions. We call special attention to sections 2, 10, 37, 38, 39, 40, 41, 44, 45, 46, 47, 50, and 51. A comparison of the old with the new borough laws will at once convince an impartial observer that it was indeed necessary to make changes and additions, and without attempt at flattery we say that the work was well done and at comparatively little expense.

NINETEENTH ANNUAL SESSION OF THE CENTRAL PA. M. E. CONFERENCE.
—The M. E. conference at Bellefonte which is just about closing has been a very successful and profitable convention of the clergy of that denomination. The sessions began on last Thursday in the M. E. church with Rev. Bishop H. W. Warren in the chair. Rev. D. S. Monroe, D. D., was elected secretary. At the second day's session three resolutions for missions were reported in advance of last year, while the whole number of conversions is seven thousand. Miss Annie F. Newman, of Nebraska, addressed the conference on Saturday morning and delivered a lecture before a great audience in the afternoon on "Mormonism and Its Errors." Her remarks made a profound impression upon her hearers. On Sunday all the churches of Bellefonte were filled to overflowing, the various pulpits having been supplied by contributing ministers. Bishop Warren dated a number of elders and deacons, and the missionary anniversary was held in the evening. The greater part of Monday's session was taken up with semi-centennial addresses. The report of the church extension showed that the income for the past year from collections and the loan fund amounted to \$275,000, an increase of over \$11,000. In the evening the preachers' aid and educational anniversaries were held. Tuesday's session was devoted to making the appointments for the several districts. The list of preachers for the Altoona district is given at the end of
