—As Spring is some weeks late, so the early wild flowers are about ten days behind time. The trailing arbutus generally in full bloom on the 15th of April, is as yet quite scarce.

—Housecleaning and gardening operations were effectually knocked out by last Monday's three-inch snow and subsequent rain. Screen doors and windows will have another week's rest.

—Why not go to a regular shoe store like J. H. Musser & Son's, to buy your boots and shoes, where you have many times the variety to select from than at a general store.

—Carroll Kemp, a son of Rev. E. J. Wolf, D. D. of Gettysburg College, died last week, aged 10 years. We could not learn the cause of his death, but are told that he had been sick for several weeks past.

—We always keep some attractions in our store—but just now the chief attraction in our establishment is the immense pile of spring goods which we are receiving daily. First come, first served. D. S. KAUFFMAN & CO.

—Thos. Burd, of Ellsworth, Kansas, arrived on yesterday morning's train and passed through town on his way to Aaronsburg, to pay his father, Levi Burd, a visit. He will spend a few weeks in this section with relatives before returning to his western home.

—The county commissioners propose to convert the bare and unsightly space between the court house and the jail in Bellefonte into a park, and appropriated \$2000 for that purpose. It will no doubt be a very pleasant spot after you are there, but its nasty up-hill work to "get there."

—A. Walter returned from his southern trip last Saturday morning, but we are not authorized to give any of his adventures this week. He expects to satisfy the curiosity of our town readers himself by means of a communication which will appear in next week's JOURNAL.

—Philip Sarvis, an employe of the railroad company, was run down by a freight train, while walking on bridge No. 5 of the Northern Central road, near Sunbury to examine it, on Monday morning, and was crushed to death. He was 72 years of age and had been in the employ of the company nearly 25 years.

—By referring to J. Eisenhuth's Tinware and Stove advertisement on the fourth page, it will be noticed that the location of his shops, has been changed. The business is carried on in the basement rooms of D. I. Brown's residence on Main street, where all orders will be attended to promptly and cheaply.

—The way W. T. Mauck & Son, on Penn street, are showing out furniture, is a caution. But that firm has profited by their experience which tells them that an advertisement put in the JOURNAL is bound to bring custom. Another fact not to be overlooked is that they always keep a well-selected and suitable stock of furniture on hand.

—Gentlemen will please notice the new advertisement of I. W. Buck, the enterprising tailor on North street. See what he has to say and give him a trial. He insures satisfactory work in all cases and more than that no one will ask. He respectfully solicits the trade of town and neighboring country. Read his spring announcement on our second page.

—Prof. Fehrer, of Selingsgrove, is with us and, judging from the rehearsals going on in the band room every evening, the band will have greatly improved after this week's instructions and their new music will be characteristic of the mastery style of composition for which little Joe is so renowned. The town may look for a rich musical treat towards the end of the week,

—R. B. Hartman's residence on Penn Street was the scene of a pleasant family reunion and social dinner on Tuesday, it being the 67th anniversary of his birthday. Mr. Hartman has quite an extensive posterity. He is the father of eight children, has 29 grandchildren and 5 great grandchildren. Nearly all of these partook of the dinner and a very nice time was had.

THE OUNCE OF PREVENTION.—The satisfaction of feeling safe from catching any disease from drinking water, from impure air, from a sick person, from contact with foul clothing, infection or contagion from any source, is complete and all anxiety allayed by the use of Darby's Prophylactic Fluid. A bottle will give you more safety, comfort and confidence than all the doctoring in the world.

—In passing Musser & Alexander's marble yards the other day we noticed a fine display of monuments ready to be put into the cemeteries. Their establishment is without doubt the best place far and wide to procure tasty and substantial work at the lowest prices. If in need of a monument, headstone, couch, or anything in that line you cannot do better than to call at their shops, east of Main street bridge.

MILLINERY.—Miss Sadie Grove, of Spring Mills, wishes to give notice that she received a fine assortment of goods from the well-known firm of Hill Brothers, of New York, beginning of the week and is ready to begin work to-day, April 21st, in her shop at Aaronsburg.

A \$6000 BLAZE AT MILESBURG.—The Franklin House, at Milesburg, along with a restaurant and adjoining store building were destroyed by fire last Friday night. The Franklin House was an old structure, occupying a prominent place on the corner of the square, and was about four stories high. This building and the restaurant were owned by J. C. P. Jones. The store belonged to A. T. Boggs.

—The trout fishing season was fitly inaugurated in this place by Dr. J. F. Harter, who on last Friday wandered over to the Gap all by himself and quietly hooked eight fine specimens of the speckled fishes, the combined length of which was 72 inches. He wears the honors of being the first successful fisherman of the season with becoming dignity. It must be a cold day if Shady don't have a bit of some kind.

—DON'T GET CAUGHT this spring with your blood full of impurities, your digestion impaired, your appetite poor, kidneys and liver torpid, and whole system liable to be prostrated by disease—but get yourself into good condition, and ready for the changing and warmer, weather by taking Hood's Sarsaparilla. It stands unequalled for purifying the blood, giving an appetite, and for a general spring medicine.

—The traveling swindler is abroad, seeking whom he may devour. We warn our readers against his "seductive smiles and cunning wiles." If there is anything you are in need of, come to town and buy of a reliable dealer. Be not deceived into purchasing any article of use from peddlers or traveling agents, not even if they can make exceedingly low rates, and in no case part with your money until goods are delivered, for rest assured there is some swindling game on foot.

—At the annual meeting of the stockholders of the Bald Eagle Valley Railroad Company, held in the city of Philadelphia, on last Tuesday, 12th inst., the following officers were elected for the ensuing year:

President, Hon. L. A. Mackey.
Directors, Andrew G. Curtin, J. N. DuBarry, James Duffy, John Irwin, Jr., James M. Gamble, John P. Green, C. A. Mayer, Wistar Morris, George B. Roberts, Edmund Smith, J. P. Shortridge, H. D. Welch.

—The Rev. Francis W. Tustin, Ph. D., professor of the Greek language and literature in Bucknell university, Lewisburg, died at his residence at that place on last Thursday of congestion of the brain. Professor Tustin was 52 years of age. He had been connected with the university for nearly thirty years, and was universally respected as a scholar and teacher. He leaves a wife and two children, Earnest Tustin, of the Philadelphia bar, and a daughter. The funeral took place on Monday.

—"Bertie Waltz" and "Semper Bonus," a brilliant march, are the latest compositions of Prof. J. H. Fehrer, the former piece having just been published by Brophy Bros., of Philadelphia. Prof. Fehrer is the author of the finest band music in the market, and his productions always find ready sale. The Millheim band are in possession of the above two pieces and we know whereof we speak when we say that both the waltz and the quickstep are very pleasing and symphonious compositions.

LET THERE BE LIGHT.—There are some parts of this town where it is actually dangerous to walk on dark evenings. In fact as soon as you leave the centre of Main street you are in the dark and stand all the chances of getting off the sidewalk to wade through a mud puddle or stumble over a pile of ashes or stones. We propose that the town council lay an extra tax of say one half mill to purchase a sufficient number of street lights and to keep them burning on dark nights. We are sure the majority of our citizens, especially those residing on the dark streets would gladly pay the additional tax for this purpose. Let there be light.

—A lot of low shoes, slippers and other styles, for summer wear, will arrive at our store beginning of next week.
J. H. MUSSEY & SON.

FOR SALE.—One Top Buggy, Side-bar Springs, One good Implement Wagon, One swell-body Sleigh, One Parlor Stove, with 60 feet of pipe and register. For terms and particulars inquire of E. H. LONG, Millheim, Pa.

—At least twenty different kinds and styles of Ladies' Fine Shoes now on hand, and almost as great a variety in Men's shoes at J. H. Musser & Son's Boot and Shoe store, on Main street.

—Prof. Lewis P. Bierly, who had been a visit to friends in Brushvalley, passed through town yesterday afternoon en route for his place of residence, Conyngham, Luzerne Co., Pa. He stopped a few moments to call on the JOURNAL man.

—General Robert S. Brown, the authorized correspondent for the United States Agricultural department just made a trip through Northampton county and reports that the severe weather of March killed nine-tenths of all the wheat crop in that county. Farmers will barely be able to reap enough wheat for seeding purposes and keep their families in bread for a year.

POSTOFFICE ROBBERY.—The news that the postoffice and hardware in Musser & Smith's new building had been robbed during the night spread over town like wildfire on Thursday morning. As early as four o'clock Harry Hoy left town with the milk cans for the Spring Mills creamery and noticed that the door of the hardware had been burst open. He at once notified Mr. Musser of his discovery, and that gentleman found upon investigation that several dollars of cash change, a pair of pocket knives and a mailbag key had been taken. The thieves were evidently amateurs in their profession, as they made a very bungling job of it. The front door looked as though it had been broken open with a very rude instrument while some of the drawers were badly damaged. A lot of half burned matches on the floor indicated what kind of light the burglars used for their night's work. The supposition is that several tramps who were seen on the streets the day before are the guilty parties.

—A JOURNAL subscriber at Wolf's store kindly furnished us the following items: Mrs. Geo. Chase, of Wolf's store will start for her new home in New York City on the 23d instant where her husband is engaged in the steam heat and electric light business. Her many friends here as well as at Bellefonte, where she had her home for eight years, wish her success in the metropolis of the Empire state.

Geo. Wate, of this place, who suffered from a cut in the left knee since the 14th of February, we are happy to state is on a fair way to recovery, and ere many weeks may be seen hopping along on crutches. This is one of the many evidences of Dr. Bright's medical proficiency, and we have sufficient reason to place great confidence in the doctor.

What has become of your school Maria? Better try your luck with a number of old fogies and you will be sure of success. Too bad that a place like Wolf's store cannot afford as much as a term of summer school, where the streets are ever thronged with little folks who should be at school.

Neighboring News.

COBURN.

Owing to an error in the mails we did not "get there" last week.

The Whitmer mill was idle the greater part of last week.

Mr. Cassler and wife spent part of last week in Union county.

Thomas Zeigler, of Rebersburg, has contracted to burn a kiln of 200,000 brick about 2 miles west of Coburn for the new Lutheran church.

A new boardwalk which was badly needed, has been put down from the depot to the hotel.

Considerable work has been done in gardens and yards the last week, the latter having been cleaned up and beautified.

Some of our Coburn people spend their Sundays fishing and roaming around. Pity they cannot find more profitable employment.

Preaching on Saturday evening last by Rev. Swengel.

And now snow has taken the place of the fine weather we have been having.

Mr. Strunk, of Millheim, has been sent here as assistant at the station. Mr. Stover being removed and put out on the main line.

Jacob Whitmyer has the contract for floating the logs down the creek to the mills and has a number of hands at work.

GREEN BRIAR.

Mr. Hoy, of Millheim, who gathers up the cream in this neighborhood, for the Spring Mills creamery, seems to be doing a good business. Nearly all our farmers are doing away with butter churning.

Jacob Auman greatly improved the appearance of his home by new fences. His neighbors should do likewise and make our town look neat and tasty.

One night last week the house of Jacob Sanders caught on fire but the inmates never found it out until the following morning. The six-inch joist, together with the flooring were burned several feet around the stove pipe, and strange to say, the fire ceased burning of its own accord. The only way to account for it is that there was not draught enough to fan the flames. It was a close escape.

The Paradise Sunday school is doing splendidly with 100 scholars in attendance.

Mr. Alvin G. Harter, of the Selingsgrove Seminary, spent a few days at his home in this place last week.

Miss Tamie Herb is spending a few weeks with her brother in Sugar Valley.

Daniel Hosterman sold a good horse to M. M. Musser, of Aaronsburg. Where is John?

Our friend and teacher, Mr. Ammon Loss, has left for Lock Haven to attend the State Normal school at that place. Success go with you, Ammon.

Daniel Baney, of Brushvalley, moved into the vacant house at Sobers' saw mill. He acts as engineer.

Jacob Snayely, an old citizen of this place, has been quite ill for some time.

ZITKA.

SPRING MILLS.

The M. E. Congregation has decided to build a new church at this place. Work will be commenced at once.

Miss Mary Zeigler has gone to Muncy where she expects to learn dress-making in all its branches.

P. J. Auman has accepted a situation in the creamery, as assistant buttermaker.

L. C. Runkle is at home again with his mother. He had been in Philadelphia at the Medical College all winter, attending lectures.

We notice Domer G. Smith, a bright young man of Penn Hall, has become a student under Dr. Vanvalzah, of this place.

AARONSBURG.

Mrs. Sallie Fisher, from Illinois, is visiting her mother, Mrs. Simon Rote and her brother, D. H. Rote, the jeweler.

North 2nd Street certainly takes the lead for good, substantial sidewalks. They now have an unbroken line from the house of U. C. Bell, at the extreme west end to the Lutheran church on the hill. Please think over it, some of you Main streeters.

Our mountains north of town were on fire on Thursday of last week. By the timely interference of some few of our town folks the fire was soon put out. Some people become very fidgety at mountain fires.

What has become of "Jumbo," the Smithtown correspondent to the JOURNAL? Well, the bible says something about one who could not be there, because he had taken unto himself a wife. Can't excuse you on that ground, C. D. Come, can't you join us again or send us another.

Chas. H. Stover, our tannery hill confectioner, has opened up the ice cream season. Charley thinks the early bird catches the worm. "Thos. Frank, of North 2nd St., will be ready to serve the people of that part of town with cream by next Saturday evening, providing winter ends.

Geo. Bollinger has gone to Nittany Valley to introduce his patent washer. George sees he has a good article and is therefore determined to push its sale.

Report says that several of our town dogs were running over the lower valley one night last week killing sheep. Messrs. William Bower and Jacob Winkleblech were the losers of several sheep. One of the dogs was shot, the rest escaped, but should meet a like fate.

We hardly know what to say about the creamery business. It certainly has put butter at a price almost beyond the reach of the poorer class of people. By reports just received there will be a creamery started in the lower valley, near Woodward. Some of the farmers are very seriously inclined that way. Go slow, gentlemen, it takes money and good Jersey cows to run a creamery successful.

On our way up to church on North 2nd St. last Sunday we noticed that some of the residents of that street are rather encroaching upon the rights of passing pedestrians. We mean that some of the wood piles threaten to fall on the boardwalks. Keep the coal clear, gentlemen.

Some of our boys or young men, we are told, tried to fire the mountain north of town on last Sunday afternoon. Can it be possible that we have boys who would be guilty of such an act.
