AND now there are well-founded reports that the Tories in England contemplate striking a quick and disgrace ful blow at the whole Irish party in parliament. There are about sixty Parnellites and it is the intention to have the whole number arrested and put to prison. This is despotism in the highest degree and if it comes to such a shameful move it will incite the indignation of all the Irish and probably lead to rebellion and bloodshed.

THE lower branch of the House of Representatives is hard at work to finish business on hand before adjournment. A large number of bills were passed finally during the three sessions on Tuesday. Among them is the senste bill authorizing burgesses, aldermen and justices of the peace to commit to the lockup or the station house of the borough for the non-payment of fines : to amend the marriage license act of 1885 so as to give power to justices of the peace to assist in obtaining a marriage license, saving a Snyder. trip to the county seat.

EVERY party has its dissatisfied element and the Democratic party is no field, Elk and Centre. exception to the rule. This becomes evident as the presidential campaign of 1888 approaches and Cleveland is being held up as the available candidate. Those democrats who were after the spoils and were disappointed by our reform president are, as might be expected, sour and opposed to Cleveland. They will however, when the proper time comes, remember that in case of the election of a republican president, their chances are infinitely smaller than under Cleveland, and they will wisely join the democratic army and support the democratic nominee in the final contest.

HIGH LICENSE was somewhat modified by an amendment to the original bill, which passed the state senate by a small majority on Wednesday of last week. The amendment makes a difference between whiskey and beer or wine and puts the license fees for the sale of the latter at the following figures: In cities of the first, second and third class \$200, in all other cities \$150, in boroughs \$100 and in townships \$50 per year. A natural is a personage, and there is only one the latter eyent, to lease the Canadian locate claims. consequence of this amendment will be that many of the grog shops will go out of existence on account of the very high fees and that the crazing, poisonous liquors will be substituted by milder and healthier beverages, which may be sold at less expense. The bill, of course, is not to the taste of prohibitionists, but even they must admit that the bill as amended will tend to largely decrease drunkeness.

THE question of who shall be the Democratic standard bearer in 1888 has given rise to much speculation the other end of the table sat Mis. Cleveand argument. The Pittsburg Post, that staunch Democratic organ, has made it its business to sound the laughed gayly as she talked to her escort State Legislature by making a close canvass and one of the staff corre- ed from his view by large floral decoraspondents of that paper writes about tions in the centre of the table. the political drift as follows: It will take the delegates of a very large collection of States to finally settle the question, but it can be taken as a foregone conclusion that the delegates from Pennsylvania will be for Cleveland. A most remarkable and wholly improbable revulsion of feeling would have to occur to secure the endorsement of the Democracy of this State for a candidate other than Cleveland.

There is no better index to the popexpressions of preference made by the Democrats in the house and senate pacity, five-sixths of those who cared | mines and handsome President's wiyes.

Taking their expressions at face value five-sixths of those announcing their views are for Cleveland. To present the matter perfectly impartially, bowever, it will be necessary to discount this majority a trifle, say about one-tenth, and with this slight shave the proportion who will heartily cooperate and use their influence for Cleveland's re-nomination can be fixed at an exact quantity. The ten per cent, shave is made for those who in against the administration, and would June. hardly be desirable for Cleveland delegates in the event of a close contest. But even allowing that 10 per cent. of the alleged Cleveland men were secretly opposed to him; that all the non-committal members were against him and add to these those who open-THE Bell Telephone Company may ly announce their opposition, Cleveland would still have two-thirds of parefaced monopoly among all of the Democratic members of the legislature, a proportion whose support is nine. unquestionable in the most unfavorable light in which it can be placed.
