—The following exciting account of the capture of a large bear near Zion was taken from Monday's Daily News: On Saturday at noon Mr. Benjamin Gentzel, of Zion, had a most thrilling adventure with a bear, which terminated in a victory for Mr. Gentzel and the death of Bruin. Mr. Gentzel's home is in Nittany Valley beyond Nye Bank just on the path leading from Nittany to Muncy mountains. On Saturday a bear started out to make this trip, taking a near cut through a corn field which is in gun-shot distance from Mr. G's home.

Mr. Gentzel was in the field at the time and had his gun with him, though likely he was not expecting to meet a bear. As soon as the bear was near enough, Mr. Gentzel took aim and rapidly sent two or three loads of buckshot into his bear's side. The animal stopped, looked around and when he saw who had given him such a warm and unpleasant reception went for Mr. Gentzel in lively style. Had he caught him, Mr. Gentzel would have been hurt more energetically than ever before. Mr. G. sprang quickly behind a huge stump of corn-stalks and yelled for help as he knew friends were not far off. Meanwhile, he tried to disable the bear by giving him another taste of the contents of the gun. Among those who saw an appearance and attracted the attention of the bear, which was angry and snuffing, was Henry Gentzel, a brother of the first mentioned. Bruin rushed at Henry and took one of his legs in his powerful jaws, and might have crushed it had not Benjamin struck the animal a powerful blow on the back with the butt of his gun, breaking the bear's back and also damaging the gun.

The bear is a monster. The gun was taken to Mr. Deschner's gun shop for repairs. We congratulate Mr. Gentzel on their bold battle with the bear and its fortunate outcome. With the exception of the marks of the animal's teeth left in Henry's leg, neither of the brothers was injured.

MILLHEIM'S FIRE LAST SATURDAY.—Afternoon at about half past twelve o'clock last Saturday our people were attracted from their homes and places of business by the columns of dense black smoke which rolled up the skies from Elias Luse & Son's planing mill, east of the Evangelical church on Penn street, and which indicated a large and destructive fire. It is supposed that the fire had originated from a hot stove pipe which rested on a beam in the ceiling. When it was first discovered by F. D. Lose and some neighbors a few little flames licked through the roof and they attempted to check their progress with the water contained in a barrel which had been kept on the roof for such an emergency. In several former instances a serious conflagration had been prevented by means of these barrels but on this occasion the fire had too much headway and there was not enough water to extinguish the flames. In a few minutes the old and dry shingle roof was one mass of fire, which defied all efforts at saving any part of the large frame building. The fire company, assisted by several of the citizens turned their attention to the machinery, the undertakers' goods, and finished work, such as doors, sashes, &c., on the first and second floor, and succeeded in getting most of it out of the building before the flames enveloped the four walls. The men thus engaged did some fearless and noble work. By this time the heat became so intense that the building had to be abandoned and, as a strong wind fanned the fierce flames the fire fighters gave their attention to Michael Maize's dwelling house and some stables, in close proximity, and prevented the spreading of the fire. While the men worked under a great disadvantage on account of the scarcity of water, the looks, ladders and ropes of our fire department were of valuable service and were effectively used. After an hour and a half's hard work the fire was gotten under control and all danger of the spreading of the flames was past. Unfortunately the Messrs. Lose carried no insurance and their loss, which is estimated between \$900 and \$1000, is a severe blow for them. Elias Luse, the older member of the firm is at present home, and it is therefore impossible to say what will become of the enterprise in the future. We earnestly hope that arrangements may be perfected to rebuild the mill, which employed several hands almost steadily. The main building of the mill used to be the old Evangelical church, which the Messrs. Lose purchased about two years ago and its destruction wipes out one of the oldest land marks of this town.

—We learn from the Lewisburg Saturday News that Hon. C. S. Wolfe, of that place, expects to leave home this week for a trip to Dakota, where he has already made large investments in land. He announces his positive determination, however, of making Dakota his future home, where he will try the experiment of growing up with the country.
