Last week's JOURNAL was jammed full of local news and correspondence, making purpose of speculating with the enterit a newspaper in the strictest sense of the word. Since nearly all our farmers are obliged to haul water from the public watering place it strikes us that the fence is about 6 or 8 feet out over the line. When a man has his team at the trough for the purpose of loading water, a job which occupies from one to two hours, it is impossible for a big wagon to pass. The supervisors should see and who are interested in church work to this matter at once. The question whether or not we will have

Smith Town and Millheim people, whether they want to go to Aaronsburg or to Penn Hall, or to the ailroad station, or to Brushvalley, must pay a heavy toll, and all the while have their full share of road taxes to pay.
