ENGLAND has its share of American pugilists this while past. Sullivan, the renowned slugger, and Kilrain, his ambitious rival, both are over there to gather honors with their muscles.

PRESIDENT Cleveland's annual mes sage will likely be finished this week. Although there is not a bit of doubt that the document will contain the the most practical and statesmanlike views on all important national ques tions which will be well worth reading it will likely be as lengthy as most Presidential messages are and thus forfeit the close perusal of the public. Brevity seems to be the popular thing.

AN economicalIndianafarmer named Hayes recently bestowed upon the Methodist Episcopal church \$130,000, the amount of his savings for years. To be sure of having the money disposed as he wishes, he gives it in his life time, only asking that an annuity of \$500 be settled upon him for the remainder of his life. The Board of Mission has fixed the annuity at \$1,000 for Mr. Hayes and \$500 for his wife. At 5 per cent. interest the 'board will net \$5,000 a year after paying the annuities so it seems to have a very good thing of the bequest already.

EX-GOVERNOR ST. JOHN, of Kansas, is

now in Chicago where he will attend a conference of the leaders of the Prohibition par ty from all parts of the United States. This conference which is to be held on Wednesday, will determine upon a place for holding the next National Prohibition Convention. Regarding the action of that convention Mr

St. John says : "I do not anticipate any great contest in the convention, as the general concensus of opinion seems to be that General Clinton B. Fiske, of New Jersey, will capture the nomination. There is a lot of rot appearing in the newspapers about the impossibility of Blaine's nomination, his declination, etc. speak by the card, of course, but he thinks he knows what he is talking about and perhaps he does. It may be interesting to some to know that the Kansas leader thinks his

It seems that some one has notified the pension office at Washington that General Tuttle secured his pension through a misrepresentation of facts. The ground upon which the pension was granted is that General Tuttle is afflicted with hernia caused by his exertions at the siege of Fort Donelson. The information now laid before the commissioner of pension is to the effect that Gen. Tuttle suffered from hernia before he entered the army, and that the injury never at any time amounted to disability.

General Tuttle's pension was grant ed under the "arr ears-of pension" act and he drew some \$5,000 as arrearage. The commissioner of pension ought not to be a respecter of persons and it is his duty to inquire into the truth of the allegation concerning the manner in which the pension was obtained If he should find that it was secured by false or fraudulent evidence he should not hesitate to annul it and require General Tuttle to make restitution.-Patriot.
