## Encyclopedia, Vol. X.

JUST PUBLISHED,

By THOMAS DOBSON,

Bookseller, at the Stone House, in Second-  
street Philadelphia.

VOLUME X. OF

ENCYCLOPEDIA; OR DICTIONARY  
Of Arts, Sciences, and Miscellaneous  
Literature, on a Plan entirely new;

BY WHICH

The Different Sciences and Arts,  
are digested into the form of  
Distinct Treatises or Systems:

THIS volume contains principles of Levels,  
Liberty, Doctrine of Light, Lightning,  
Locks, Logarithms, Logic, History of Lon-  
don, Longitude, Luther, Lydia, Macedon,  
Madagascar, Magic, Magnetism, Malts, His-  
tory of Man, Marriage, Mary, Maryland,  
Masonry, Materia Medica, Meadow, Mecha-  
nics, with a great variety of Biographical and  
Miscellaneous articles, illustrated with TWEN-  
TY TWO COPPER PLATES.

As a number of families are still in the  
country, and it is not generally known who  
are returned. T. Dobson, solicits the favor  
of the subscribers to call or send for their vo-  
lumes, that they may be supplied as early as  
possible.

The TENTH VOLUME of the Encyclopedia is  
now presented to the public; but as it makes  
its appearance in an imperfect state, some ac-  
count of the reason of that imperfection should  
be given. On the 8th of September last, the  
Publisher had the misfortune of having his  
Printing-Office burnt down by a fire which  
broke out in the neighbourhood, and a great  
quantity of his printing materials destroyed,  
and among other articles, the FIGURES, with  
which he was printing the TABLES OF LO-  
GARITHM, belonging to the present volume,  
were melted down by the violence of the fire.  
As a supply of these could not be immediately  
obtained, he was under the necessity of pub-  
lishing the volume without the TABLES; but  
hopes he shall be able to publish them with the  
next volume which is now in considerable for-  
wardness.

The Publisher embraces this opportunity of  
expressing his grateful acknowledgments to  
the generous public, for the very liberal pa-  
tronage with which his undertaking has been  
honored; at the same time he takes the li-  
berty of representing to such of the subscribers  
as are in arrears, the indispensable necessity  
of punctuality, both in taking up the volumes as  
early as possible after publication, and of pay-  
ing for them when taken. Many of the sub-  
scribers having got only one, two, three, &c.  
volumes, and several volumes remain unpaid.  
Thus the work hangs in all its different stages  
from the commencement; and though the im-  
portance of a few dollars may be but a trifle  
to the individuals, yet the accumulation of  
these trifles upwards lays the Publisher under  
very serious embarrassment, and deprives him  
of the use of many Thousands of Dollars which  
at this time would be of very essential service.  
For these reasons the Publisher finds himself  
under the necessity of recurring to the original  
terms of publication, and in future no vo-  
lumes will be delivered but only to those who  
take and pay to the time of publication.
