George Bringhurst,
COACH-MAKER,

In Mulberry (Arch) between Fourth and Fifth
Streets, adjoining the Episcopal burying-
ground,
TAKES this opportunity of returning his
grateful thanks to his former employers,
and requesting their future favors, as well as
those of the public in general.

He continues to make and repair at the
shortest notice, all kinds of pleasure carriages,
such as coaches, chariots, phaetons with and
without crane necks, coaches, chaises, kitte-
reens, windfor sulkeys and chairs, and burnes
of every description, in the newest and newest
fashion now prevailing in the United States.

And as he has a quantity of the best seasoned
wood by him, and capital workmen, he has
not the least doubt but he will be able to give
satisfaction to those who please to employ him.

He has for sale, several carriages almost
finished, such as coaches, an Italian windfor
chair, hung on steel springs, a light phaeton for

Encyclopedia, Vol. X.

JUST PUBLISHED,
By **THOMAS DOBSON,**
Bookseller, at the Stone House, in Second-
street Philadelphia.
VOLUME X. OF
ENCYCLOPEDIA; OR DICTIONARY
Of Arts, Sciences, and Miscellaneous
Literature, on a Plan entirely new;
BY WHICH
The Different Sciences and Arts,
are digested into the form of
Distinct Treatises or Systems:

THIS volume contains principles of Levels,
Liberty, Doctrine of Light, Lightning,
Locks, Logarithms, Logic, History of Lon-
don, Longitude, Luther, Lydia, Macedon,
Madagascar, Magic, Magnetism, Malts, His-
tory of Man, Marriage, Mary, Maryland,
Masonry, Materia Medica, Meadow, Mecha-
nics, with a great variety of Biographical and
Miscellaneous articles, illustrated with TWENTY
TWO COPPERPLATES.
As a number of families are still in the
country, and it is not generally known who
are returned. T. Dobson, solicits the favor
of the subscribers to call or send for their vo-
lumes, that they may be supplied as early as
possible.

The Tenth Volume of the Encyclopedia is
now presented to the public; but as it makes
its appearance in an imperfect state, some ac-
count of the reason of that imperfection should
be given. On the 8th of September last, the
Publisher had the misfortune of having his
Printing-Office burnt down by a fire which
broke out in the neighbourhood, and a great
quantity of his printing materials destroyed,
and among other articles, the TABLES OF LO-
GARETHMS, belonging to the present volume,
were melted down by the violence of the fire.
As a supply of these could not be immediately
obtained, he was under the necessity of pub-
lishing the volume without the TABLES; but
hopes he shall be able to publish them with
the next volume which is now in considerable forwardness.

The Publisher embraces this opportunity of
expressing his grateful acknowledgments to
the generous public, for the very liberal pa-
tronage with which his undertaking has been
honored; at the same time he takes the li-
berty of representing to such of the subscri-
bers as are in arrears, the indispensable necessity of
punctuality, both in taking up the volumes as
early as possible after publication, and of pay-
ing for them when taken. Many of the subscri-
bers having got only one, two, three, &c.
volumes, and several volumes remain UNPAID.
Thus the work hangs in all its different stages
from the commencement; and though the im-
portance of a few dollars may be but a trifle
to the individuals, yet the accumulation of
these trifles UNPAID lays the Publisher under
very serious embarrassment, and deprives him
of the use of many Thousands of Dollars which
at this time would be of very essential service.
For these reasons the Publisher finds himself
under the necessity of recurring to the original
terms of publication, and in future no vo-
lumes will be delivered but only to those who
take and pay to the time of publication.
