- TERMS.**
1. This work will be comprised in two volumes.
 2. Subscribers pay for the present volume on delivery, six dollars, and the price of binding, (56 cents for boards.)
 3. They may receive the succeeding volume in twenty-four weekly numbers, at a quarter dollar each, or else, when finished, at the same price as the first.
 4. The subscription will be raised on the first day of June 1794, to fourteen dollars, exclusive of binding.
 5. Should any copies remain for sale after the completion of the work, they will be sold at sixteen dollars, and the price of binding.
 6. The names of the subscribers will be published as patrons of American literature, arts, and sciences.

It is wholly unnecessary to expatiate on the advantage, to American readers, that this edition possesses, over every imported edition of any system of Geography extant. The addition of maps of the several states, procured at a very great expense, and from the best materials that are attainable, speaks such full conviction on this subject, that it would be disrespectful to the reader's understanding to suppose it requisite to enter into a detail of arguments to prove its superiority. In no similar work have such maps been ever introduced.

The emendations and additions which are made in this work, are innumerable, and occur

in every page. The public are referred to the preface for a slight sketch of a few of them.

The publisher takes the present opportunity of returning his most sincere thanks to those respectable characters who have favored him with documents for improving the maps of several of the states. He requests a continuance of their kindness; and hopes that such public spirited citizens, as are possessed of similar documents, will favor him with their assistance in perfecting his undertaking.

The extraordinary encouragement with which he has been favored, has excited in his breast the warmest sentiments of gratitude—sentiments which time will not efface. He pledges himself to the citizens of the United States, to spare neither pains nor expense to render the present edition of Guthrie's Geography improved, deserving of their patronage.

PROPOSALS
 FOR PUBLISHING BY SUBSCRIPTION,
A Ground Plan
 OF THE
City Philadelphia,
 AND ITS ENVIRONS:

Taken from actual survey, by **A. P. FOLIE,** Geographer, from St. Domingo.

THIS Plan will be engraved on a plate 26 inches square; and it will contain an exact description of all the squares, streets and alleys in the City and Liberties. The situation of the several public buildings, such as the State-House, City-Hall, Seat of Congress, Churches, Meeting-Houses, Hospital, Library and Seminaries of Learning—of the several Banks, and of the Federal and State Offices, will be ascertained. The parts which are built on will be distinguished from those that are not. The courses of the rivulets between Delaware and Schuylkill, and as much of the Canal, intended to connect the navigation of those two waters, as lies within the compass of the draught, will be accurately delineated. It will also be ornamented by a view of the shipping in the harbor, and an elevation of Congress-Hall, and of the other public buildings that occupy the ground contiguous. In short, nothing will be omitted to render this useful and desirable work acceptable to an enlightened public, that is in the author's power; and it shall be completed with the greatest possible dispatch, as soon as the generous encouragement of subscribers shall insure to the author such a sum as will be sufficient to defray expenses.

A Pamphlet will be delivered with each Plan, which will contain an alphabetical list of the Subscribers names, and information concerning the police, population and present state of the city.

The price to subscribers will be Two Dollars and one third, to be paid at the time of delivering the Plans.

Subscriptions will be gratefully received at the principal Book-sellers in this city—and the original Draft may be seen at **B. DAVIES,** No. 68, Market-Street, at any time until it shall be put into the hands of the Engraver.

George Bringhurst,
 COACH-MAKER,

In Mulberry (Arch) between Fourth and Fifth Streets, adjoining the Episcopal burying-ground,

TAKES this opportunity of returning his grateful thanks to his former employers, and requesting their future favors, as well as those of the public in general.

He continues to make and repair at the shortest notice, all kinds of pleasure carriages, such as coaches, chariots, phaetons with and without crane necks, coachees, chaises, kittreens, windfor sulkeys and chairs, and harness of every description, in the neatest and newest fashion now prevailing in the United States.

And as he has a quantity of the best seasoned wood by him, and capital workmen, he has not the least doubt but he will be able to give satisfaction to those who please to employ him.

He has for sale, several carriages almost finished, such as coachees, an Italian windfor chair, hung on steel springs, a light phaeton for one or two horses, and a sulkey with a falling top.

Carriages sold on Commission.

 Aliquid semper ad communem utilitatem afferendum.
 CICERO.

The First American Edition.

THE grand principle of Equality, if rightly understood, is the only basis on which universal justice, sacred order, and perfect freedom, can be firmly built, and permanently secured. The view of it exhibited in this essay, at the same time that it repels the insolence of office, the tyranny of pride, and the outrages of oppression; confirms, in the most forcible manner, the necessity of subordination, and the just demands of lawful authority. So far indeed, from loosening the bands of society, that it maintains inviolate, every natural and every civil distinction, draws more closely every social tie, unites in one harmonious and justly proportioned system, and brings men together on the even ground of the inherent rights of human nature, of reciprocal obligation, and of a common relation to the community.
