FOR PUBLISHING BY SUBSCRIPTION,  
**A Ground Plan**

OF THE  
**City Philadelphia,**  
AND ITS ENVIRONS:

Taken from actual survey, by A. P. FOLIE, Geographer, from St. Domingo.

THIS Plan will be engraved on a plate 26 inches square; and it will contain an exact description of all the squares, streets and alleys in the City and Liberties. The situation of the several public buildings, such as the State-House, City-Hall, Seat of Congress, Churches, Meeting-Houses, Hospital, Library and Seminars of Learning—of the several Banks, and of the Federal and State Offices, will be ascertained. The parts which are built on will be distinguished from those that are not. The courses of the rivers between Delaware and Schuylkill, and as much of the Canal, intended to connect the navigation of those two waters, as lies within the compass of the draught, will be accurately delineated. It will also be ornamented by a view of the shipping in the harbor, and an elevation of Congress-Hall, and of the other public buildings that occupy the ground contiguous. In short, nothing will be omitted to render this useful and desirable work acceptable to an enlightened public, that is in the author's power; and it shall be completed with the greatest possible dispatch, as soon as the generous encouragement of subscribers shall insure to the author such a sum as will be sufficient to defray expenses.

A Pamphlet will be delivered with each Plan, which will contain an alphabetical list of the Subscribers names, and information concerning the price, population and present state of the city.

The price to subscribers will be Two Dollars and one third, to be paid at the time of delivering the Plans.

Subscriptions will be gratefully received at the principal Bookellers in this city—and the original Draft may be seen at B. DAVIES, No. 68, Market-Street, at any time until it shall be put into the hands of the Engraver.

Aliquid semper ad communem utilitatem afferendum. CICERO.

The First American Edition.

THE grand principle of Equality, if rightly understood, is the only basis on which universal justice, sacred order, and perfect freedom, can be firmly built, and permanently secured. The view of it exhibited in this essay, at the same time that it represents the influence of office, the tyranny of pride, and the outrages of oppression; confirms, in the most forcible manner, the necessity of subordination, and the just demands of lawful authority. So far indeed, from loosening the bands of society, that it maintains inviolate, every natural and every civil distinction, draws more closely every social tie, unites in one harmonious and justly proportioned system, and brings men together on the even ground of the inherent rights of human nature, of reciprocal obligation, and of a common relation to the community.
