It is wholly unnecessary to expatiate on the advantage, to American readers, that this edition possesses, over every imported edition of any system of Geography extant. The addition of maps of the several states, procured at a very great expense, and from the best materials that are attainable, speaks such full conviction on this subject, that it would be disrespectful to the reader's understanding to suppose it requisite to enter into a detail of arguments to prove its superiority. In no similar work have such maps been ever introduced.

The emendations and additions which are

made in this work, are innumerable, and occur in every page. The public are referred to the preface for a slight sketch of a few of them.

The publisher takes the present opportunity of returning his most sincere thanks to those respectable characters who have favored him with documents for improving the maps of several of the states. He requests a continuance of their kindness; and hopes that such public spirited citizens, as are possessed of similar documents, will favor him with their assistance in perfecting his undertaking.

The extraordinary encouragement with which he has been favored, has excited in his breast the warmest sentiments of gratitude—sentiments which time will not efface. He pledges himself to the citizens of the United States, to spare neither pains nor expense to render the present edition of Guthrie's Geography improved, deserving of their patronage.

PROPOSALS

FOR PUBLISHING BY SUBSCRIPTION,

A Ground Plan

OF THE

City Philadelphia,

AND ITS ENVIRONS:

Taken from actual survey, by A. P. FOLIE,
Geographer, from St. Domingo.

THIS Plan will be engraved on a plate 26 inches square; and it will contain an exact description of all the squares, streets and alleys in the City and Liberties. The situation of the several public buildings, such as the State-House, City-Hall, Seat of Congress, Churches, Meeting-Houses, Hospital, Library and Seminars of Learning—of the several Banks, and of the Federal and State Offices, will be ascertained. The parts which are built on will be distinguished from those that are not. The courses of the rivulets between Delaware and Schuylkill, and as much of the Canal, intended to connect the navigation of those two waters, as lies within the compass of the draught, will be accurately delineated. It will also be ornamented by a view of the shipping in the harbor, and an elevation of Congress-Hall, and of the other public buildings that occupy the ground contiguous. In short, nothing will be omitted to render this useful and desirable work acceptable to an enlightened public, that is in the author's power; and it shall be completed with the greatest possible dispatch, as soon as the generous encouragement of subscribers shall insure to the author such a sum as will be sufficient to defray expenses.

A Pamphlet will be delivered with each Plan, which will contain an alphabetical list of the Subscribers names, and information concerning the police, population and present state of the city.

The price to subscribers will be Two Dollars and one third, to be paid at the time of delivering the Plans.

Subscriptions will be gratefully received at the principal Bookellers in this city—and the original Draft may be seen at B. DAVIES', No. 68, Market-Street, at any time until it shall be put into the hands of the Engraver.

The Public are cautioned to
beware of counterfeited Five Dollar Bills of
the Bank of the United States, and Twenty
Dollar Bills of the Bank of North America,
several of which have appeared in circulation
within a few days past; they are a good general
imitation of the genuine Bills, but may
be distinguished by the following

M A R K S.

Five Dollar Bills of the Bank of the
United States.

ALL that have appeared have the letter F.
for their Alphabetical Mark.

The Texture of the Paper is thicker and
whiter and it takes the ink more freely than
the genuine paper.

The O. in the word Company is smaller
than the M. and other letters of that word,
so that a line extended from the top of the O,
to touch the top of the M. would extend con-
siderably above the range of the whole word.

In the word United the letters are narrow,
and closer together than the rest of the bill.

The i and f in the word promise are not
parallel, the f inclining much more forward
than the i.

The engraving is badly executed, the strokes
of all the Letters are stronger and the device
in the margin particularly is much coarser and
appears darker than in the true bills. Some
of the counterfeits bear date in 1791—Where-
as the Bank was not in operation till Decem-
ber, and no five dollar bills were issued in
that year.

Twenty Dollar Bills of the Bank of North
America.

ALL that have appeared have the letter
B. for their alphabetical mark.

They are printed on a paper nearly similar
to that of the counterfeit Five Dollar Notes
above described; the engraving is better exe-
cuted, and they approach nearer to the ap-
pearance of the genuine bills.

The fine ruled lines through the word Twen-
ty, in the body of the bill, are in number thir-
teen in the genuine bills, and but twelve in
the counterfeits.

The word Company is much like the same
word in the Five Dollar Bills as described a-
bove, the o being less than the m, and others
following.

There is no stroke to the t in the word North
whereas in the genuine bills the stroke is well
defined.

The letters ent in the word Twenty, to the
left hand at the bottom, do not come down to
the line, but are so cut as to give an irregular
appearance to the word, the Tw and the y go-
ing below them.

The Signature J. Nixon, has the appear-
ance of being written with lamp-black and
oil, and differs from the other ink used in
printing the bills and the cashier's signature.

It is supposed these forgeries were committed
in some of the Southern States, as all the coun-
terfeits that have appeared, have come from
thence, and two persons have been apprehended
in Virginia, on suspicion of being the authors
of them.

The reward of ONE THOUSAND DOLLARS
will be paid to any Person or Persons who shall
discover and prosecute to conviction the several
offenders of the following descriptions or any
of them, viz.

The person or persons, who manufactured
the paper on which the Bills are printed.

The person or persons, who engraved the
plates.

The printer or printers, of the bills.

Every person who has acted as a principal in
any other way, in the counterfeiting and utter-
ing the said bills.

THOMAS WILLING, President
of the Bank United States.

JOHN NIXON, President of the
Bank of North America.

By order of the Committees of the Res-
pective Boards.
