

George Bringham, COACH-MAKER,

In Mulberry (Arch) between Fourth and fifth Streets, adjoining the Episcopal burying ground.

TAKES this opportunity of returning his grateful thanks to his former employers, and requesting their future favors, as well as those of the public in general.

He continues to make and repair at the shortest notice, all kinds of pleasure carriages, such as coaches, chariots, phaetons with and without crane necks, coaches, chaises, kitters, windfor sulkeys and chairs, and harness of every description, in the neatest and newest fashion now prevailing in the United States.

And as he has a quantity of the best seasoned wood by him, and capital workmen, he has not the least doubt but he will be able to give satisfaction to those who please to employ him.

He has for sale, several carriages almost finished, such as coaches, an Italian windfor chair, hung on steel springs, a light phaeton for one or two horses, and a sulkey with a falling top.

TAKEN FROM ACTUAL SURVEY.

IT is with pleasure that the publisher has to inform his subscribers and the public in general, that the plate is now under the hands of the engraver, and in greater forwardness than was at first contemplated. At the same time he begs leave to remind them, that subscription papers are still open at most of the noted book-stores in the city, and that he hopes from the whole of them to be enabled to form such a respectable catalogue of names, as will do a credit to the work, as well as afford a reasonable encouragement to the undertaker.

It is wholly unnecessary to expatiate on the advantage, to American readers, that this edition possesses, over every imported edition of any system of Geography extant. The addition of maps of the several states, procured at a very great expense, and from the best materials that are attainable, speaks such full conviction on this subject, that it would be disrespectful to the reader's understanding to suppose it requisite to enter into a detail of arguments to prove its superiority. In no similar work have such maps been ever introduced.

The emendations and additions which are made in this work, are innumerable, and occur in every page. The public are referred to the preface for a slight sketch of a few of them.

The publisher takes the present opportunity of returning his most sincere thanks to those respectable characters who have favored him with documents for improving the maps of several of the states. He requests a continuance of their kindness; and hopes that such public spirited citizens, as are possessed of similar documents, will favor him with their assistance in perfecting his undertaking.

The extraordinary encouragement with which he has been favored, has excited in his breast the warmest sentiments of gratitude—sentiments which time will not efface. He pledges himself to the citizens of the United States, to spare neither pains nor expense to render the present edition of Guthrie's Geography improved, deserving of their patronage.

The First American Edition.

THE grand principle of Equality, if rightly understood, is the only basis on which universal justice, sacred order, and perfect freedom, can be firmly built, and permanently secured. The view of it exhibited in this essay, at the same time that it represses the insolence of office, the tyranny of pride, and the outrages of oppression; confirms, in the most forcible manner, the necessity of subordination, and the just demands of lawful authority. So far indeed, from loosening the bands of society, that it maintains inviolate, every natural and every civil distinction, draws more closely every social tie, unites in one harmonious and justly proportioned system, and brings men together on the even ground of the inherent rights of human nature, of reciprocal obligation, and of a common relation to the community.

Henry Rape } State of Maryland.

Benjamin Gaither } High Court of Chancery,

and } March 5th. 1794.

Basil Gaither }

The Complainant states

in his bill that the defendants Benjamin Gaither and Basil Gaither were seized in fee as tenants in common of a tract of land in Frederick County, called Hammond's Strife;—that being so seized, Basil executed a power of attorney to Benjamin authorizing him to sell his, the said Basil's interest in the said land, that afterwards the said Benjamin sold the said land to a certain William Gaither for the consideration of six hundred pounds which hath been since paid, that the said William hath assigned to the Complainant Henry Rape the bond executed by the said Benjamin for the conveyance of the said land: The Complainant now further states (and so appears to the Chancellor) that the defendants are non-residents of the state of Maryland, and therefore out of the reach of the process of this court.

It is therefore adjudged and ordered, that the Complainant procure a copy of this order to be inserted in the newspaper of Angell and Sullivan, and in the United States Gazette at least three weeks successively, before the twentieth day of May next; to the intent that the Defendants and all others, who may conceive themselves interested in the premises, may have notice to appear in this court, on or before the third Tuesday in September next, to shew cause wherefore a decree should not pass for vesting in the Complainant a complete legal title to the land aforesaid.
