An Essay on Slavery,

Designed to exhibit in a new point of view its effects on morals, industry, and the peace of Society. Some facts and calculations are offered to prove the labor of freemen to be much more productive than that of slaves; that countries are rich, powerful and happy, in proportion as the laboring people enjoy the fruits of their own labor; and hence the necessary conclusion, that Slavery is impolitic as well as unjust.

Charlotte, a tale of Truth,

IN TWO VOLUMES.

By Mrs. ROWSON, of the New Theatre, Philadelphia, Author of Victoria, the Inquisitor, the Fille de Chambre, &c.

Of Charlotte, the Reviewers have given the following character.

IT may be a Tale of Truth, for it is not unnatural, and it is a tale of real distress.—Charlotte, by the artifice of a teacher, recommended to a school, from humanity rather than a conviction of her integrity, or the regularity of her former conduct, is enticed to America.—The marriage ceremony, if not forgotten, is postponed, and Charlotte dies a martyr to the inconstancy of the over, and treachery of his friend.—The situations are artless and affecting—the descriptions natural and pathetic; we should feel for Charlotte if such a person ever existed, who for one or two scarcely, perhaps, deserved so severe a punishment. If it is a fiction, poetic justice is not, we think, properly distributed.

From the Gazette of Main.

Mr. TITCOMB, EVER fond as I know you are of any thing that tends to promote the interest of your country, you will oblige your eastern customers, by giving to the public the following account of shipping belonging to the district of Penobscot, which I have obtained from the Custom-House in that district, and is authentic,

Yours,

JOSEPHUS,

Registered Tonnage on 31st of March 1794	Tons.	95ths
Enrolled Tonnage at the same date	1533	74
Licences outstanding on that day, of Vessels under 20 Tons	1396	58
Tons	3323	54

Of those vessels registered and enrolled, 1326 Tons were built and launched in the district, in 1792 and 1793, exclusive of about five hundred tons which were built in and fold out of the district, during the same period. To shew the rapid increase of property in this infant and uncultivated country, it need only be known, that in the year 1787 there was not two hundred tons of navigation of every description owned in the district, and but one vessel that exceeded the burthen of thirty tons.—The inhabitants of this vicinity, during our late glorious revolution were exceedingly harassed by the privateers of Nova Scotia, nor did they escape the like treatment from some of their friends at the westward.—Peace was succeeded by swarms of Jack-Affes, or pretenders to trade, who came here from the western shore, unacquainted with business, with the country, and every other requisite necessary to ensure success, not only ruined themselves, but tended greatly to impoverish the people.

At the adoption of the Federal Government the scale began to turn.—And should we now escape a war (which Heaven grant we may) we bid fair to make a respectable figure, both in the agricultural and commercial

DUMFRIES, (Virg.) May 12.

A correspondent informs, "That the indictment which was to have been presented against some members of a certain society, chiefly composed of the *swinish multitude*, for talking about *Tar and Feathers* at a late meeting, is for the present quashed! An eminent character of the law, having given it as his opinion— "That unless the *corpus* of plaintiff was, actually divested of his garment—reduced to the state of our first parents—and forcibly wrapp'd up in the *American coat of mail*, with which, plaintiff was only threatened, defendant would produce *cause of writ*, which would occasion a *non sum informatus*." This sentence of the learned gentleman of the law, has induced the high offended party to drop a *prosecution* which otherwise would have crushed a rebellious Hydra, who dares to avow sentiments diametrically opposite to those of the WELL-BORN part of the community."

Our correspondent, congratulates his fellow-swine on thus fortunately escaping the disaster which threatened their dissolution—would recommend to them, cautiously to avoid a repetition of the two obnoxious articles, *Tar and Feathers*.

WHITESTOWN, N. Y. May 14.

The following may be depended on as fact: some boatmen were proceeding with a boat load of salt and other articles, valued at 60l. from the Onondago salt spring to Niagara. While passing Fort Olwego, a detachment of *British forces*, stationed at that place, seized the boat and cargo, and condemned them as a legal prize. The owner of the property seized, obtained information that a boat was dispatched from Niagara, some time since, to Schenectady, on the Mohawk River, by the subjects of his Britanic majesty, for articles to a considerable amount. Exasperated at his usage at Fort Olwego, he raised party of men, and proceeded to the threa
