16,739 Prizes.
33,261 Blanks.
50,000 Tickets, at Eight Dollars, 400,000

N. B. To favour those who may take a quantity of Tickets, the prize of 40,000 dollars will be the LAST drawn ticket, and the 30,000 the LAST but ONE.

And approved notes, securing payment in either money or prizes, in ten days after drawing, will be received for any number not less than 20 tickets.

This Lottery will afford an elegant specimen of the private buildings to be erected in the City of Washington. Two beautiful designs are already selected for the entire fronts on two of the public squares; from these drawings it is proposed to erect two centre and four corner buildings, as soon as possible after this lottery is sold, and to convey them, when complete, to the fortunate adventurers, in the manner described in the scheme for the Hotel Lottery. A net deduction of five per cent. will be made to defray the necessary expenses of printing, &c. and the surplus will be made a part of the fund intended for the National University, to be erected within the city of Washington.

The Drawing will commence as soon as the tickets are sold off. The money prizes will be payable in thirty days after it is finished; and any prizes for which fortunate numbers are not produced within twelve months after the drawing is closed, are to be considered as given towards the fund for the University; it being determined to settle the whole business in a year from the ending of the drawing, and to take up the bonds given as security.

The real securities given for the payment of the Prizes, are held by the President and two Directors of the Bank of Columbia, and are valued at more than half the amount of the lottery.

The twenty-four gentlemen who by appointment of the late Commissioners assisted in the management of the Hotel Lottery are requested to undertake this arduous task a second time on behalf of the public; a sufficient number of these having kindly accepted, it is hoped that she tends to a National University and the other federal objects may continue to favor the design.

By accounts received from the different parts of the Continent as well as from Europe, where the tickets have been sent for sale, the public are assured that the drawing will speedily commence, and that the care and caution unavoidably necessary to insure a safe disposal of the tickets, has rendered the short suspension indispensable.

SAMUEL BLODGET.

Tickets may be had at the Bank of Columbia; of James West & Co. Baltimore; of Peter Gilman, Boston; of John Hopkins, Richmond; and of Richard Wells Cooper's Ferry.

Lancaster, Harrisburgh, Carlisle, Shippenburgh and Sunbury STAGES.

The public are requested to take notice, that the partnership which has for some time subsisted between Machias Slough of Lancaster, and William Geer, is now dissolved; but, not as M. Slough intimates to the public without just cause; as will more fully appear by a letter on the subject from M. Slough to W. Geer, dated the 29th December last. A recital of which is not now deemed necessary. Any gentleman who wishes to be more circumstantially informed of the merits of this business, by applying to W. Geer may have the perusal of M. Slough's letter, and then can be at full liberty to determine whether or not W. Geer is not perfectly justifiable in attaching himself to any other person in the prosecution of the Stage conveyance from Philadelphia to Shippenburgh, or any other place.

Now from the liberal and generous support the public were pleased to confer on the first effort in this business, William Geer, in conjunction with Messrs. Reily, Weed and Wimer, is determined to prosecute and carry it on, with every care, attention and dispatch that a zeal to oblige the public can possibly exert.

The above company, who are amply provided with carriages, horses, and every appurtenance to render the passage safe and commodious, inform those who wish to patronize and encourage the undertaking, that they can take their seats at George Weed's, the sign of the White Horse, Market Street, Philadelphia, on every Monday and Friday, to proceed to Lancaster, Harrisburgh, Carlisle and Shippenburgh. The fare as hitherto established.

For the further accommodation of the public, a Stage will start every Wednesday from the house of Samuel Elder, in Harrisburgh, arrive at Sunbury in Northumberland county, every Thursday, and return from thence and arrive at Harrisburgh every Saturday, so that passengers destined for Lancaster or Philadelphia, may proceed on Mondays.

WILLIAM GEER.

Lancaster, Jan. 27, 1797.
N. B. This Line of Stages starts from the house of William Ferree, in Lancaster, on every Tuesday and Saturday morning at 6 o'clock, proceeding to the westward; and from the house of Mr. Samuel Elder in Harrisburgh every Wednesday morning, on the same evening arrives at Patrick Cochran's in Shippenburgh, and returns from thence on every Thursday; performing the same route daily as in its tour from Philadelphia.

FOR SALE,

A very Valuable Estate,

ALLED TWITTENHAM, situate in the Township of Upper Derby, and county of Delaware, 7 1/2 miles from Philadelphia, and half a mile from the new Western road containing 230 acres of excellent land, 45 of which are good watered meadow, 90 of prime woodland, and the rest arable of the first quality. There are on the premises a good two story brick house, with 4 rooms on a floor, and cellars under the whole, with a pump-well of excellent water in front; a large frame barn, stables and other convenient buildings; a smoke-house and stone spring-house; two good apple orchards, and one of peaches. The fields are all in clover, except those immediately under tillage, and are laid out as to have the advantage of water in each of them, which renders it peculiarly convenient for grazing.

The situation is pleasant and healthy, and from the high cultivation of the land, the good neighbourhood, and the vicinity to the city, it is very suitable for a gentleman's country seat.

The foregoing is part of the estate of Jacob Harnan, deceased, and offered for sale by
Mordecai Lewis,
Surviving Executor.

AN ENQUIRY

Concerning POLITICAL JUSTICE,

And its Influence on Morals and Happiness,
By **WILLIAM GOWIN.**

THE reputation of this work is already well established in Europe—it is hardly necessary for an American editor to say more than barely to mention, that the Enquiry concerning Political Justice has ever since its publication been a favorite performance with the friends of republican government. The style is pure, nervous, and classical; the ideas are strongly marked by an original vein of thinking; and, amongst a multitude of other just and striking passages, the author's delineation of the peculiar infelicities inseparable from the condition of a King, may be pointed out as a most masterly specimen of philosophical disquisition. The latest London edition of this work sells in this city at four dollars and an half.

Extracts from Letters to the Author of the Metallic Discovery.
PIERPONT EDWARDS, Esq. District Attorney for the State of Connecticut.
New-Haven, October 7, 1796.

Dear Sir,
I should have written you last week, had I then been able to ascertain certain facts, the rumour of which I had heard. A Mrs. Beers, a near neighbour to me, the wife of Eben Beers, and daughter of captain Samuel Huggins, of Eben town, had been, for fourteen weeks, exceedingly distressed with the Rheumatism, to such a degree that for fourteen weeks previous to the 29th of last month, she had not been able to walk across the room even with crutches, save only once, when she made out with the assistance of crutches to hobble part of the way across her room.

On the 29th of September last, she procured a set of your metallic substances, and in less than an hour after she had begun to use them, in the manner directed by you, she rose from her chair, and walked about her house, and on the next day she went abroad to her neighbours, having thrown aside her crutches. I have this day paid her a visit in company with her father, and Timothy Jones, Esq. who lives in the street where she resides and directly opposite to her residence, and with Capt. Abel Burrett, who is her next neighbor, and lives within eight yards of her door. I requested her to relate her case over in their presence, which she did, and these gentlemen all with one voice, supported, from their own knowledge, her story. It is a duty which you owe yourself and the world to promulge this event.

I am, very respectfully,
Your obedient servant,
PIERPONT EDWARDS.

N. B. She says her fever has left her, her appetite has returned, and she is in a fair way to be restored to perfect health.

REV. MR. SPALDING, of Salem.

This may certify, that the subscriber, in his visits among his people, has used Dr. Perkins's metallic points, to relieve pains and inflammations of various kinds, and has succeeded to his astonishment. They have seldom failed to relieve the head-ach, tecti-ach, ague in the face, inflammation in the eyes, cramp, cholera, rheumatism, pains of the breast and side, bilis, icalls and burns—Sometimes there has been a perfect cure from one operation. A lad who had been confined three days with high symptoms of a fever, very hot and full of pain, by an operation of the points, designed to relieve his head, his face turned pale and cold, his fever and pain immediately left him, and in a few days he was out of doors; the year before, at the same season, he was taken with the same symptoms, and lay extremely sick forty days. The efficacy of the metallic points has gained great credit in this town.

JOSHUA SPALDING.
December 5, 1796.

REV. ELIHANAN WINCHESTER.

I certify, that on the 21st of March, 1796, I saw Dr. Perkins's method of cure by pointed metallic instruments, tried with success in the poor-house or bettering-house in Philadelphia; especially upon a man who was unable to lift his right hand to his head, as was tried beforehand, but who after a few minutes operation, was able to remove it at pleasure; and in my light, put it with ease on the top of his head and back of his neck, and in all directions.

Nearly the same effect took place upon a woman; and all that I saw treated, professed that their pains ceased after being treated a short time: and several came voluntarily, and in my hearing thanked the Dr. for cures he had performed on them about eight weeks before, in removing pains from them, which they declared had not since returned:—so that from what I saw with my own eyes, and what I have heard, I have great hopes that this method will greatly tend to alleviate the miseries of mankind.

ELIHANAN WINCHESTER.
Philadelphia, April 4, 1796.

Extract from a Providence Paper.
Communication.

Dr. Perkins's invention for removing pains from the human body, begins to obtain reputation in proportion to its utility and efficacy. The simplicity of the operation was at first an obstacle to its credit; but the flood of evidence in its favor, from actual experiment, is at length too powerful to be refuted.

FOR SALE.

By private contract, a very valuable Estate, known by the name of

CHATHAM,

MOST delightfully situated on the north bank of Rappahannock river, opposite the town of Fredericksburg, in the state of Virginia, consisting of eleven or fifteen hundred acres, as may best suit the purchaser. There is on this estate, a large and well built brick house, containing nine commodious rooms, exclusive of a spacious hall or entry, 22 feet square, two pair of stairs, suitable and convenient passages, and excellent dry cellars. It is placed on a fine healthy eminence, commanding beautiful views in every direction over the towns of Fredericksburgh and Falmouth, and an extensive cultivated country.—The grounds adjoining the house are neatly laid out in pleasure and kitchen gardens interspersed with a variety of scarce trees, a choice collection of flowers and flowering shrubs, and enriched by various sorts of the following fruits, viz apples, pears, walnuts, chestnuts, cherries, peaches, plums, nectarines, apricots, grapes, figs, raspberries, gooseberries, strawberries, and currants; the whole admirably varied by turfed slopes which have been formed by great labour and expence. Bordering upon these improvements, are several lots, in a high state of cultivation, and well set with red clover and orchard grass, from which three heavy crops of hay are taken every year. Adjacent thereto are two large and flourishing orchards; one of well chosen peach trees, the other of apple and pear-trees, selected from the best nurseries in the state. Properly detached from the mansion house are extensive roomy offices of every denomination, viz a Kitchen and Larder, house-keeper's room and Laundry, with a cellar underneath for a variety of purposes, a store-house and smoke house all of brick, a dairy and spring house of stone. Stables for thirty horses, and coach houses for four carriages. Also a large and well planned farm yard, with barn and granary, a cow house, with separate stalls for thirty-six grown cattle; apartments for fattening veals, muttons and lambs; extensive sheds for sheep, and other arrangements for stock of every description, with a large and convenient receptacle for provender, from which they can be furnished without being exposed to the inclemency of the weather. An overlie's house, blacksmith's shop, and quarters sufficient to accommodate in the best manner more than fifty labourers.

The arable lands are so advantageously divided as to afford an opportunity of making a large quantity of Indian corn annually, without bringing the field into similar culture other than once in four years; consequently the lands may be improved by keeping up the inclosures during the intermediate years, or may be beneficially fallowed for wheat and other grain at the option of the proprietor.

On the premises there is also a merchant mill with one pair of belt French burr stones, and one pair of Cologne; furnished with modern machinery, and now leased for the unexpired term of four years, at 1500 per annum, and all grain for the use of the farm, hopper free, which is nearly 1000 more. The mill and miller's house are built of free stone, within a very small distance of navigation, near to which are two or more valuable fisheries, and a well accustomed ferry over the Rappahannock to the town of Fredericksburg. The land contains inexhaustible quantities of free stone near to the river, is plentifully supplied with remarkable fine water and possesses a due proportion of meadow, which by having the command of water may be considerably increased. The roads are good, and the neighbourhood genteel and sociable. In fact, exclusive of an improvable and well conditioned farm, the value and amusement inseparably connected with a mill, ferries, fisheries and quarries slightly situated; the profits arising from an ice-house inferior to none in the state, and a garden of four acres so abundantly stocked with vegetables of all sorts as to be fully equal to the demand in market, there might be detailed many other advantages, appertaining to the fertility of these lands, which the subscriber conceives it unnecessary to mention, being fully convinced that when examined, it will be found to be a complete, pleasant and healthy residence, possessing beauties and conveniences sufficient to attract the attention of any person desirous of becoming a purchaser.

The motive which induces the subscriber to offer for sale an estate so singularly beautiful and advantageous, is a desire to become an inhabitant of Alexandria, where he can with more ease attend to his interests in the neighbourhood of that city.

The purchaser may be accommodated with a few slaves in families, either for plantation or domestic use. A part of the purchase money will be required and the balance made easy, the debt being properly secured.
