July 8. Health-Office, Philadelphia, 7th June, 1797. THE Board of Health offer to rent out the NEW CITY HOSPITAL, usually called The Typhoid.

It may be occupied as a Tavern, for which there are excellent accommodations. The person taking it must be capable and willing to act in the capacity of a Steward; the cafe a contagious disease in the city, should at any time render it necessary to make use of the premises as a Hospital. It cannot therefore be let for any limited time—and the red painted frame building is to be reserved. Proposals in writing will be received at this office, stating what rent will be allowed under the foregoing circumstances. None need apply without being able to produce the best recommendations. JOHN MILLER, Jun. Chairman of the Board of Health.

The sublime Theory of the celebrated Franklin realized.

MR. MAISON, desirous to show his gratitude to the respectable Companies who do him the honor to be present every evening at the Philosophical and Mechanical Experiments, executed by three artificial persons, informs the lovers of arts and sciences, that THIS EVENING, the 9th inst. there will be a surprising addition to the Philosophical Experiments, which are so ably executed by the artificial Lady: after having fired the Cannon de Volta, melted metals through means of her insulating breath, &c. &c. she will direct the electric fire on a building, which being provided with a pointed conductor, will remain perfectly safe, but having applied a metallic ball to the point, a second stroke of the electric fire will fall on the same, and delroy it instantaneously.

This discovery alone is sufficient to insure to the celebrated Franklin an undoubted right to the gratitude of the public: it is in the country of this great man that an European Philosopher (who already at Paris obtained marks of his esteem) will repeat this beautiful experiment, before his worthy fellow citizens, in order to celebrate and honor the memory of his author. Their experiments will continue every Monday, Wednesday, and Friday evenings, at 8 o'clock, precisely, in the dancing-room of Mr. McDONALD, in Fourth-street, between Chestnut and Walnut-streets, and will be varied and augmented. Entrance half a dollar—Children, one quarter of a dollar. July 7.—mwf

CAUTION.

WHEREAS WILLIAM BRANNON, Auditor, hath, in Claypoole's American Daily Advertiser of this day, advertised for public sale, on to-morrow the 2d inst. a capital building Lot, on the north side of Mulberry-street, between Sixth and Seventh streets, bounded and otherwise described as in the said advertisement is mentioned. All persons are hereby cautioned not to purchase the same, as the equitable title thereto is vested in the President, Directors, and Company of the Bank of the United States, who mean to proceed at law for the recovery thereof. By order of the Directors, George Simpson, Cashier.

The Commissioners

FOR carrying into effect the sixth article of the treaty of amity, commerce and navigation, concluded between his Britannic Majesty and the United States of America, on the 19th day of November, 1794, having this day constituted their Board, pursuant and agreeably to the said treaty, do hereby give notice, that they are ready to proceed to business accordingly; and they desire that all claims under the said article (which so far as the same describes the cafes thereby provided for, is hereto annexed) may be lodged with their Secretary without delay. They further desire that all such claims may not only state in what manner the several cafes come within the description of the said article, but also specially set forth the nature of the evidence by which the claimants respectively undertake to substantiate the same.

Extract from the said article. "Whereas it is alleged by divers British merchants, and others his Majesty's subjects, that debts to a considerable amount, which were bona fide contracted, before the peace, still remain owing to them by citizens or inhabitants of the United States; and that by the operation of various lawful impediments, since the peace, not only the full recovery of the said debts has been delayed, but also the value and security thereof have been in several instances impaired and lessened, so that by the ordinary course of judicial proceedings, the British creditors cannot now obtain and actually have received full and adequate compensation for the losses and damages which they have thereby sustained: It is agreed that in all such cafes where full compensation for such losses and damages cannot for whatever reason be actually obtained, had and received by the said creditors in the ordinary course of justice, the United States will make full and complete compensation for the same to the said creditors: but it is distinctly understood, that this provision is to extend to such losses only as have been occasioned by the lawful impediments aforesaid, and is not to extend to losses occasioned by such insolvency of the debtors or other causes, as would equally have operated to produce such loss, if the said impediments had not existed; nor to such losses or damages as have been occasioned by the manifest delay, or negligence, or wilful omission of the claimant."

By order of the Board, GRIFFITH EVANS, Secretary.

Philadelphia, Commissioners' Office, No. 3 South Sixth-street, May 27, 1797. 16-6tm

THE SUBSCRIBER having been appointed by the Envoy Extraordinary and Minister Plenipotentiary of his Britannic Majesty, General Agent for assisting British creditors, and such particular agents as they may specially authorize, in prosecuting their claims before the commissioners for carrying into effect the sixth article of the Treaty of Amity, Commerce and Navigation between his Britannic Majesty and the United States of America, hereby gives notice that he has opened his office at his house the fourth east corner of Chestnut and fifth streets, Philadelphia, where he is ready to receive all claims or instructions for claims with the vouchers and documents thereof, for the purpose of bringing forward the same agreeably to the rules and orders which the board may think proper to prescribe.

And as it will be for the interest of all concerned, that the several claims be filed, and supported, as to prevent the delay which would arise from the necessity of obtaining further information, or additional materials, from persons residing at a distance, the general agent thinks it his duty to add, (for the direction chiefly of these, who, not having employed particular agents, may leave the prosecution of their claims to his charge and management) that all such claims ought to be particularized in set forth— 1st. The proper description and situation of the creditor or claimant, and original debtor, respectively. 2d. The date or nature of the original contract or debt. 3d. When, in what manner, and to what extent, the creditor or claimant was prevented or impeded, by the provision, operation or defect of law, the decisions and practice of courts, or restraint of execution, from recovering payment of the debt in question. 4th. The loss and damage incurred or sustained, in consequence of such impediments, whether the same may have arisen from the insolvency, change of situation, or death of the debtor, the loss of legal remedy from lapse of time, or other causes impairing the value and security of the debt, which would not have operated if such impediments had not existed. 5th. The particular grounds, and reasons on which the claimant maintains, in the terms of the treaty, that "by the ordinary course of judicial proceedings, the creditor cannot now obtain and actually have received full and adequate compensation" for the losses and damages so sustained. The general agent thinks it his duty farther to suggest that the several claims ought to be accompanied and supported by the affidavits of the claimants duly sworn and regularly attested; both as to the existence of the debts claimed, and such other circumstances as may be within their own knowledge respectively. And wherever the claimants in stating the nature of their evidence (which must in every instance be the best of which the case is capable) have occasion to refer to the testimony of witnesses, it will be proper to apprise the general agent of the names and places of residence of such witnesses and the facts to be established by their testimony.

Wm. Moore Smith, Philadelphia, June 8th, 1797. dtm

Sundry Promissory Notes,

Drawn by John Nicholson in favour of, and indorsed by David Allison. The said notes are all due and have been regularly protested for non-payment. They have been originally given for a full and valuable consideration—are clear of any dispute or delinquency and will be received equal to specie for finance in the Pennsylvania Land Company and will of course be a great object of speculation. Approved endorsed notes at sixty days will be received in payment. July 6, 1797. 8ct

Town Lots.

A TOWN named BEULA, one mile square, being laid out on the Blacklick Creek, Somerset County, Pennsylvania, Lots therein of 38 feet by 125 feet are now selling at 25 dollars each; their situation in the town to be determined by ballot before the first of August, and deeds for the same will be delivered by the subscriber before the first of October next. MORGAN J. RHEES, No. 77, South Second-street, Philadelphia.

The purchasers of lots in BEULA have the following prospects of appreciating their property: 1. It is remote from any other town, and surrounded by great bodies of excellent land, capable of producing every kind of grain and vegetables, and is without doubt one of the best grazing countries in the United States. 2. In point of health the situation is not exceeded by any on the continent. 3. Besides numerous springs and runs of the finest quality, there is a creek for water wheels (on which mills are now building) running through the town. 4. The public road from Philadelphia to Pittsburgh will go through it, which being more level and nearer than any other route, must become universally travelled—and by the navigation of Juniata and Conemaugh, goods may be conveyed at least 2 or 3 dollars per cwt. cheaper from the former to the latter place, than by the old road thro' Bedford. 5. Being in the centre of a flourishing settlement, and taking in the shortest portage between the eastern and western waters, it is likely to become a depot for stores, a manufacturing town, and a seat of justice. Besides the old settlers, upwards of one hundred emigrants have settled in the vicinity of Beula, since last October, and many more have engaged to join them this summer. 6. A Land-Office for supplying actual settlers with farms to a considerable amount, and in various situations, will be immediately opened in the town. The proprietors of land in the circumference country are solicited to send their drafts and terms of sale, or leaving to THOMAS JONES, Surveyor, in Beula, who will give security for any trust reposed in him: with such co-operating aid, the progress of the settlement will be the more rapidly advanced and extended to distant townships. 7. A public library for the benefit of the settlers, will be established in the town, towards laying the foundation of which, upwards of one thousand volumes are already purchased and principally sent forward. 8. Two hundred acres of land adjoining the town, besides lots and subscriptions, will be applied to support a minister and preceptor, capable of teaching the useful and liberal arts. 9. After defraying necessary expenses, the money arising from the present sales will be laid out in public buildings—A place of worship, school house and library room, are the first objects. 10. Every professional man and mechanic, on condition of building a house with a stone or brick chimney, and residing in it, before the first of November next, will be entitled to four lots OR AT HIS free for ever from ground rent. Five and ten acre out lots may likewise be obtained on reasonable terms. \* \* \* \* \* The two central streets in Beula are 100 feet wide, and the others 80 feet. Reserved health and other accommodations must add to the health and beauty of the place. July 6. 5t
