PEALE'S MUSEUM.

THIS valuable repository of the works of Nature, so well calculated to delight the mind and enlarge the understanding, is opened daily, as usual. It stands in an airy and healthy situation, and free from the epidemic that at present afflicts the city; it may, therefore, be frequented with the greatest safety.
 As an Amusement, the study of Nature is the most rational and pleasing; as a Science, the most sublime and instructive. It elevates the mind and expands the heart. *The works of Nature's works can charm, with God himself in His world.*
 Many interesting additions have lately been made to this Museum: and the feathered tribe, containing a variety of the most rare and beautiful subjects, is now very advantageously arranged. Waxen Figures, of Men large as life (some of them call from nature) are here dressed in their proper habits, and placed in attitudes characteristic of their respective nations. Here may be seen the North-American Savage, and the Savage of South-America—a laboring Chinese, and the Chinese Gentleman—the lofty African, and the Kamtschadale—with some Natives of the South Sea Islands. The immense variety and interesting diversity which this Museum offers to the view, may be seen but cannot be described with full effect.
 Price only 1/4th of a dollar.

Boston Glass Manufactory.

THE citizens of the United States are hereby informed, that the manufactory of Window Glass is now commenced at the Glass House in Boston.
 It is needless to say any thing of the excellent quality of the Boston Glass, as it is so well known throughout the United States to be in every respect greatly superior to any ever imported from Europe. It will be cut to any size commonly used; and may be constantly had by applying to CHARLES F. KUPFER, at the Glass House.
 Orders from the distant States to be addressed to Mr. SAMUEL GORE, Court-street, Boston.
 Boston, Sept. 30, 1797. dtaw3w

At the Federal Blast Furnace,

SEYMOUR'S Patent Rollers.
 THEIR Superiority consists in being free from holes and honey-combed places, which are commonly found in rollers cast in sand, or clay moulds. These patent rollers are cast in iron moulds, previously heated, and will be found to be more durable, solid and durable than any rollers heretofore used. Another important advantage they have over others, is, that the necks require no turning, but are immediately fit for use, and from their accuracy, run with less friction, and require less water to make them perform their work. They may be had by application to the Patentee in Plymouth, of Gen. Nathaniel Goodwin, or of Messrs. Thacher and Hayward

Letters and Conversations,
 Between several Young Ladies, on improving and interesting subjects.
 Translated from the Dutch of *Madame de Camben* with alterations and improvements,
Printed on fine paper, and neatly bound.
 Price one dollar.
 AMIDST the tide of modern Romances, painting tales of extraordinary distress, or of desperate and artful villainy, which "harrow up the soul," and which it would be for the honor of young ladies to be ignorant of, this little book comes forward to excite notice, where, in a variety of incidents, not contradicting the bounds of real life, the proper, beautiful and natural dignity and importance of the Female character is exhibited in an interesting point of view, and presents examples of real and attainable excellence.
 The publisher was so much pleased with the parafal, that he was persuaded he should do a pleasing service to the community by sending it in a circu-
