NOTICE.

THE partnership between JOHN INSTONE and JAMES BACON, under the firm of Instone and Bacon, is this day dissolved by mutual consent. All persons who stand indebted to said firm are requested to make immediate payment of their respective accounts, to JOHN SKYRIN, on Lancaster's wharf, who is duly authorized to receive the same; and all persons having any demands against the said firm, are desired to bring in their accounts immediately to him for settlement.

John Instone, James Bacon. November 20. eodif

Musical Instrument Manufactory, 167, Arch-street. TO THE LOVERS OF HARMONY. HARPER, INFORMS his friends and the public, that he has now ready for sale, a few of his new invented, and much admired side-board Pianos, with Pedals, patent swell, sonaphant and French harp stop, which for facility of touch, brilliancy of tone, simplicity and durability of construction, the superiority of which he flatters himself, a single trial will convince the unprejudiced judge. As they are manufactured under his immediate inspection, of the very best seasoned materials, he can sell on reasonable terms for Cash. Instruments repaired, tuned, &c.

THIS DAY IS PUBLISHED, in one vol. octavo. By WILLIAM YOUNG, Bookfeller, No. 32, Second Street, the corner of Chestnut Street, (Price, in boards 87 1/2 Cents) Neatly printed on fine American wove medium Paper. A VIEW

Of the Science of LIFE; On the principles established in the elements of Medicine, of the late celebrated JOHN BROWN, M. D. With an attempt to correct some important errors of that work, and cases in illustration, chiefly selected from the records of their practice, at the General Hospital at Calcutta, By WILLIAM TATE & CHAS. MACLEAN.

To which is subjoined, a Treatise on the action of Mercury upon living bodies, and its application for the cure of diseases of indirect debility. And a dissertation on the sources of Epidemic and Pencilent difeases, in which is attempted to prove by a numerous induction of facts, that they never arise from contagion, but are always produced by certain states, or certain vicissitudes of the atmosphere, by CHARLES MACLEAN, of Calcutta. By WILLIAM TATE & CHAS. MACLEAN. To which is subjoined, a Treatise on the action of Mercury upon living bodies, and its application for the cure of diseases of indirect debility. And a dissertation on the sources of Epidemic and Pencilent difeases, in which is attempted to prove by a numerous induction of facts, that they never arise from contagion, but are always produced by certain states, or certain vicissitudes of the atmosphere, by CHARLES MACLEAN, of Calcutta.
