Salisbury Estate.

Salibury Estate.

On it are one Blast and three Air Furnaces, a complete Boreing Machine, and a very good grist Mill, with two pair of stones; also a good Forge, all in persect repair, as are all the Water Works connected with these various branches. The Air Furnaces were lately built for the purpose of cassing Cannon for this State.—There are about two thousand acres of Land, one half of which is under wood, the other very fine arable Land, producing the best Hay and Pasture. The Cannon lately manufactured there, tully proves the excellency of the metal, which is superior to any in this country, and probably, equal to any in the world; for not one of fixty-nine gens lately made, although some of the 24 were bored into 32 pounders, have failed on proving. The figuration is very eligible, particularly for this branch of manufacture, and a place of arms lying in the state of Connecticut, and only 30 miles from several landings on the Hudson's river, and having every advantage that can result from a plenty of water issuing from a large natural pond, very near the Furnace, and which may be converted into a variety of other useful purposes. The purchaser can be accommodated with all the stock and utensits, and have possession may be made in the meantime for going into Blast immediately thereaster, for every part will be delivered in good order, with some coal, Ore, &c. &c. For terms, apply to Mr. Joseph Anthony, in Pailadelphia; David Brooks, Esq. one of the Representatives in Congress for this State; Mr, Bavid Waterman, on the premises, or to the proprietor in New-York.
