**English Grammar,**  
The second edition, with improvements,  
ADAPTED to the different classes of learners; with an appendix, containing rules and observations for assisting the more advanced students to write with perspicuity and accuracy.  
By LINDLEY MURRAY.  
This is a publication of much merit, and fully answers the professions in the Title. The appendix contains some of the best rules for writing elegantly, and with propriety, that we recollect to have seen.  
Monthly Review, July 1796.  
This Grammar is, on many accounts entitled to commendatory notice, its materials have been carefully and judiciously selected; its arrangement is distinct and well adapted to the purpose of instruction and its expression is simple, perspicuous and accurate, &c.  
See the character at large in the Analytical Review, July 1796

**English Exercises,**  
Adapted to the Grammar lately published by Lindley Murray, consisting of exemplification of the parts of speech, instances of false orthography, violations of the rules of syntax, defects in punctuation, and violations of the rules respecting perspicuity and accuracy, designed for the benefit of private learners, as well as for the use of schools.  
We have been much pleased with the perusal of these Exercises. They occupy with distinguished excellence a most important place in the science of the English language; and as such, we can warmly recommend them to the Teachers of Schools, as well as to all those who are desirous of attaining exactness and precision in their native tongue.

**Salisbury Estate.**  
THE Subscriber, proposing to contract his business, offers this Estate for sale, on moderate terms. On it are one Black and three Air Furnaces, a complete Boring Machine, and a very good grist Mill, with two pair of stones; also a good Forge, all in perfect repair, as are all the Water Works connected with these various branches. The Air Furnace were lately built for the purpose of casting Cannon for this State.—There are about two thousand acres of Land, one half of which is under wood, the other very fine arable Land, producing the best Hay and Pasture. The Cannon lately manufactured there, fully proves the excellency of the metal, which is superior to any in this country, and probably equal to any in the world; for not one of sixty-nine guns lately made, although some of the 24 were bored into 32 pounders, have failed on proving. The situation is very eligible, particularly for this branch of manufacture, and a piece of arms lying in the state of Connecticut, and only 30 miles from several landings on the Hudson's river, and having every advantage that can result from a plenty of water lifting from a large natural pond, very near the Furnace, and which may be converted into a variety of other useful purposes. The purchaser can be accommodated with all the stock and utensils, and have possession on or before the first of June next, and preparation may be made in the mean time for going into Black immediately thereafter, for every part will be delivered in good order, with some coal, Ore, &c. &c. For terms, apply to Mr. Joseph Anthony, in Philadelphia; David Brooks, Esq. one of the Representatives in Congress for this State; Mr. David Waterman, on the premises, or to the proprietor in New-York.
