Salibury Estate.

The Subscriber, proposing to contract his business, offers this Estate for sale, on moderate seems. On it are one Blast and three Air Furnaçae, a complete Boreing Machine, and a very good grist Mith, with two pair of stones; also a good Forge, all in perfect repair, as are all the Water Works connected with these various branches. The Air Furnacea were lately built for the purpose of cashing Cannon for this State.—There are about two thousand acres of Land, one half of which is under wood, the other very fine arable Land, producing the best Hay and Patture. The Cannon lately manufactured there, sully proves the excellency of the metal, which is superior to any in this country, and probably, equal to any in the world; for not one of fixty-nine gans lately made, although some of the 24 were bored into 32 pounders, have failed on proving. The situation is very eligible, particularly for this branch of manufacture, and a place of arms lying in the state of Connecticut, and only 30 miles from several landings on the Hudson's river, and having every advantage that can result from a plenty of water issuing from a large natural pond, very near the Furnace, and which may be converted into a variety of other useful purpose. The purchaser can be accommodated with all the stock and utensils, and have possession may be made in the meantime for going into Blast immediately thereaster, for every part will be delivered in good order, with some coal, Ore, &c. &c. For terms, apply to Mr. Joseph Anthony, in Philadelphia; David Brooks, Esq. one of the Representatives in Congress for this State; Mr, David Waterman, on the premises, or to the proprietor in New-York.

A TREATISE ON THE POLICE OF LONDON, Containing a derail of the various crimes and mif demeanors, by which public and private property, are, at prefent, injured and endangered:
And fuggesting remedies for their prevention.

BY A MAGISTRATE. Ging for the counties of Middlesex, Surry, Kent, and Essex; sor the city and liberty of Westmin-ster; and sor the liberty of the Tower of Lon-

To those robe have read this curious and valuable work, it will need no recommendation—they know its solid merit —but as it has hitherte got into very sew bands in this country, it will not be amiss to observe—so great was the approbation and demand in Lendon, that it passed through three large editions in the course of trustwe months. As a detail of the ingenious varieties of fraud, that endanger property in London, and most other overgrown and opulent edities, it cannot fail to afford the reader great entertainment as well as instruction; but as the author traces all these enormities to a serve, and in themselves, inconsiderable causes, many of vabied actually exist in all the large expitals of the United States, the business is brought home to our own doors; and the work has an increasing claim to our attentive perusal. To those robo have read this curious and valuable work

To offit the ingiflator and the magifirate in the humane office of preventing crimes, and their confequent punifoments, was the patriotic defign of the author. Private offences, he lays, are the fource of public crimes, and the best method of guarding society against the latter is, to make proper previous, for cheeking the former. "Thase men are easily siduced from their loyalty who are apostates from wirtue."

This work will be printed in a large of ave, on an excellent English paper—It will be delivered to subscribers, bound in boards, at the moderate price of One Bollar and a balf; although the last London edition, on inserior paper and meanly bound, is now fold at two dollars and a half. Whatever encouragement may be given by subscription, it will be committed to the profs without delay; and, barring accidents, will be roady for publication early in April.
