Salisbury Estate. THE Subscriber, proposing to contract his business, offers this Estate for sale, on moderate terms. On it are one Blast and three Air Furnaces, a complete Boring Machine, and a very good grist Mill, with two pair of stones; also a good Forge, all in perfect repair, as are all the Water Works connected with these various branches. The Air Furnaces were lately built for the purpose of casting Cannon for this State.—There are about two thousand acres of Land, one half of which is under wood, the other very fine arable Land, producing the best clay and Pottery. The Cannon lately manufactured there, fully proves the excellency of the metal, which is superior to any in this country, and probably equal to any in the world; for not one of sixty-nine guns lately made, although some of the 24 were bored into 32 pounders, have failed on proving. The situation is very eligible, particularly for this branch of manufacture, and a place of arms lying in the State of Connecticut, and only 30 miles from several landings on the Hudson's river, and having every advantage that can result from a plenty of water issuing from a large natural pond, very near the Furnace, and which may be converted into a variety of other useful purposes. IN THE PRESS, And speedily will be Published, For the benefit of the MARINE SOCIETY OF THE UNITED STATES, A general plan and system of Regulations therein: Written at Sea, in the year 1794: And now printed BY THE AUTHOR.

A NAVY would be maintained but to an almost useless purpose which taking the seamen kept the merchantmen idle in port, and trading vessels would be as unprofitably employed, if they took all those seamen whose skill and courage on board ships of war, would give them protection and secure their safety. We have enough for both purposes, and the cultivating hand of attention alone is wanting to multiply their number. Money may buy all naval stores, except mariners; but unless a supply of them is preserved, no wealth will be able to procure them. February 7.
