"The cause of my troubling you with this is, that I thought it a duty which I owed to yourfelf and to society, that I thoused nestion the falutary effects that your excellent medicine, easted Antispertuffis, had upon my elder fon; who was, about two months ago, afflicted with the Hooping Cough, in a most decedful degree. My child was attended by some of the mod eminent of the faculty here, who, for three days, thought him dying; and was given eyer. At this time a friend of mine acceptance the wonderful cures that had been effected by your needleine; and though we had no experience that my child could possibly recover, yet, refolved to try it. I did; and at this time, I have the happiness to say, that he is quite well, hot the last symptom of his complaint remaining.

PROPOSALS,

Insurance Company of North America.
For Insurance against Fire, on Dwelling-Houses, Ware-Houses, and other Buildings (and on Goods contained in such Buildings) distant from Philadelphia, in the United States. Philadelphia, in the United States.

Philadelphia, in the United States.

I. Common Infurances, on hazards of the first class, will be undertaken at a premium of ahout has, per cent, per annum. For extra hazardous risques a larger premium will be required, which will vary according to circumstances, feldom exceeding one per cent. per annum; but in some instances, where the property insured is not only instances, where the property insured is not only in itself extra hazardous, but rendered still more so by the vicinity of extra hazardous buildings and occupations, the premium demanded will be raised according to circumstances.

Houses and Ware-Houses, the walls and partitions of which are wholly of stone or brick, well constructed, so as to be guarded as well as may be against fires from within, and tree from extra hazardous buildings and occupations in their neighborhood, will be deemed hazardous of the first class, and may be insured to their full value.

Also Goods and Merchandize, not of an extra hazardous kind, in case, bales, or packages, desposited in sitch buildings, to an amount not exceeding 4000 dollars; but it more than this sum is required to be insured in one tenemeat, an additional premium will be required, in proportion to circumstances.

II. Insurances will also be made on building and

is required to be infured in one tensmeat, an additional premium will be required, in proportion to circumstances.

II. Infurences will also be made on building and goods extra hazardous, at premiums proportioned to the risque. But it is not easy to arrange these under particular heads or classes, is as to describe each with the necessary accuracy. Each chie mass therefore be decided upon according to the circumstances attending it; and these circumstances will, in general, appear from the description accompanying the application.

Buildings, partly constructed of brick of work, are preferable to those whelly wooden. And in both cases, the stile of building, how they are occapied, how they are situated, the neighboring buildings, and how occupied, are considerations to be taken into view. And with respect to goods, their tendency, whether from their nature, ar from the manner in which they are apposed either to commence or to increase an accidental fire, and their distributy in such face to receive damage by wet, or by sudden and hally removal, or to be from the institute of confinsion and hurry, are all circumstances of weight; and the premiums much be proportioned accordingly.

III. The following conditions are to be underflood by the parties:

If the infarance is not binding till the flipulated premium be paid; but it shall be deemed effectual from the time of fuch payment and acceptance thereof, whether the policy he immediately figued or not.

Robifon, of Edinborough, a gentleman in high eltimation in the literary world—the facts therein recorded are well furthantiated, and the reasoning and arguments thence deduced, while they discover the found judgment and penetration of the writer, are calculated to amuse as well as to instruct. A scene of villainy is developed by the author sufficient to appal the stoutest heart.—The danger to be apprehended from secret societies is clearly pointed out; the degeneracy of human nature awfully illustrated, and the hazard of every deviation from the straight path of religion and of virtue, incontessibly proved both to the politician and the christian by stubborn and incontrovertable sacts.

The Subscriber, proposing to contract his business, offers this Estate for sale, on moderate terms. On it are one Blast and three Air Furnaces, a complete Boreing Machine, and a very good gost Mill, with two pair of stones; also a good Forge, all in perfect repair, as are all the Water Works connected with these various branches. The Air Furnaces were lately built for the purpose of casting Cannon for this State.—There are apour two moduland acres of Land, one half of which is under wood, the other very fine arable Land, producing the best stay and Pasture. The Cannon lately manufactured there, fully proves the excellency of the metal, which is superior to any in this country, and probably, equal to any in the world; for not one of fixty-nine gans lately made, although some of the 24 were bered into 32 pounders, have failed on proving. The simulation is very eligible, particularly for this branch of manufacture, and a place of arms lying in the state of Connecticut, and only so miles from severy advantage that can result from a plenty of water shuing from a large natural pond, very near the Euroace, and which may be converted into a variety of other useful purposes. The purchaser can be accommodated with all thestock and utensitis, and have possessing on or before the first of June next, and preparation may be made in the mean sime for going into Blastim-mediately thereaster, for every part will be delivered in good order, with sorte coal, Ore, &c. &c.
