PROPOSAL,  
For Publishing by Subscription,  
AN  
ENQUIRY

INTO THE  
ORIGIN OF EPIDEMIC DISEASES.

THE Letters to Dr. Currie, which I published last autumn, led me to an investigation of the origin and phenomena of pestilential diseases in other countries, as well as in the United States. In the prosecution of the subject, new facts and principles continually opened to my view, and finally determined me to trace back the history of such diseases as far as the records of history extend. For this purpose, I have examined the public libraries in New-York, New-Haven, Cambridge and Boston, with a view to obtain all the material facts which can illustrate the subject, and I have nearly collected all the materials for the proposed work.

The facts collected will enable me to demonstrate that many of the common ideas respecting pestilential epidemics, are unfounded or extremely incorrect; and this in consequence of medical writers considering an epidemic disease as a detached or isolated phenomenon in a particular country; rather than as connected with other epidemics or other phenomena of nature in various parts of the world. The facts I have collected lead to certain deductions which are surprising to myself, and which will probably be new to many others. Much light will be thrown on this dark and perplexing subject, as well as on natural philosophy.

The proposed work will make a full sized octavo volume; and executed well on fine paper, cannot be afforded at less than two dollars, bound, with the usual allowance to book-fellers. As the compilation will cost not only great labor, but considerable expense, no more copies will be printed than to supply subscribers. The book will be ready for subscription early in the coming summer, and the holders of proposals will be good enough to return them to No. 43, Pine-Street, by the first of May.

Subscriptions received by the book-fellers in New-York, Philadelphia, Albany, New-Haven, Hartford, New-London, Providence, Boston, Baltimore and Charleston.

**Salisbury Estate.**

THE Subscriber, proposing to contract his business, offers this Estate for sale, on moderate terms. On it is an excellent mill, with a complete Boreing Machine, and a very good grist Mill, with two pair of stones; also a good Forge, all in perfect repair, as are all the Water Works connected with the various branches. The Air Furnaces were lately built for the purpose of casting Cannon for this State.—There are about two thousand acres of Land, one half of which is under wood, the other very fine arable Land, producing the best Hay and Pasture. The Cannon lately manufactured there, fully prove the excellency of the metal, which is superior to any in this country, and probably, equal to any in the world; for pot one of sixty-nine guns lately made, although some of the 24 were bored into 32 pounders, have failed on proving. The situation is very eligible, particularly for this branch of manufacture, and a place of arms lying in the State of Connecticut, and only 30 miles from several advantages on the Hudson's river, and having every advantage that can result from a plenty of water issuing from a large natural pond, very near the Furnaces, and which may be converted into a variety of other useful purposes. The purchaser can be accommodated with all the stock and utensils, and have possession on or before the first of June next, and preparation may be made in the meantime for going into Black immediately thereafter, for every part will be delivered in good order, with some coal, Ores, &c. &c. For terms, apply to Mr. Joseph Anthony, in Philadelphia, David Brooks, Esq. one of the Representatives in Congress for this State; Mr. David Warriman, on the premises, or to the subscriber New-York.
