### PROPOSALS,

BY THE

### Insurance Company of North America.

FOR INSURANCE AGAINST FIRE, on Dwelling-Houses, Ware-Houses, and other Buildings (and on Goods contained in such Buildings) distant from Philadelphia, in the United States.

I. Common insurances, on hazards of the first class, will be undertaken at a premium of about half per cent. per annum. For extra hazardous risks, a larger premium will be required, which will vary according to circumstances, seldom exceeding one per cent. per annum; but in some instances, where the property insured is not only of itself extra hazardous, but rendered still more so by the vicinity of extra hazardous buildings and occupations, the premium demanded will be raised according to circumstances.

Houses and Ware Houses, the walls and partitions of which are wholly of stone or brick, well constructed, so as to be guarded as well as may be against fires from within, and free from extra hazardous buildings and occupations in their neighborhood, will be deemed hazardous of the first class, and may be insured to their full value.

Also Goods and Merchandise, not of an extra hazardous kind, in casks, bales, or packages, deposited in such buildings, to an amount not exceeding 1000 dollars; but if more than this sum is required to be insured in one tenement, an additional premium will be required, in proportion to circumstances.

II. Insurances will also be made on buildings and goods, extra hazardous, at premiums proportioned to the risk. But it is not easy to arrange these under particular heads or classes, so as to describe each with the necessary accuracy. Each case will therefore be decided upon according to the circumstances attending it; and these circumstances will, in general, appear from the description accompanying the application.

Buildings partly constructed of brick or stone, are preferable to those wholly wooden. And in both cases, the site of the building, how they are exposed, and how occupied, are considerations to be taken into view. And with respect to goods, their tendency, whether from their nature, or from the manner in which they are exposed, either to commotion or to increase an accident fire, and their liability in such state to receive damage by wet, or by sudden and hasty removal, or to be stolen in time of confusion and hurry, are all circumstances of weight; and the premiums must be proportioned accordingly.

III. The following conditions are to be understood by the parties.

1st. The insurance when binding till the stipulated premium be paid; but it shall be deemed effectual from the time of such payment and acceptance thereof, whether the policy be immediately signed or not.

2d. Insurances may be renewed at the expiration of the term of the policy, without further expense than the payment of the premium of the renewed term, the circumstances continuing the same as they were understood by the Insurers at the time the former insurance was made; but the payment of the premium is essential to such renewal; and if the party insured suffers any time to elapse after the expiration of the former insurance, before he pays a premium for the renewal, he is not insured during such time; nor can the insurance be renewed on the former policy but by computing the commencement of the renewal from the expiration of the former insurance. The subject of insurance may nevertheless be open to treaty for a new insurance.

3d. If any other insurance be made on the same property; it must be made known at the time of application, otherwise the policy made on such application will be void.

4th. Goods held in trust, or on consignment, may be insured as such in a separate policy; but they are not to be considered as insured otherwise.

5th. This company will not be liable or accountable for any loss or damage occasioned by any foreign invasion, or by any military or warlike force, or by reason of any civil commotion; or occasioned by gunpowder, aquafortis or other thing of the like kind kept in the building, or amongst the property insured.

6th. Bills of Exchange, Bonds and other Securities, Title Deeds, Money, Bank and other promissory Notes, are not included in any insurance; nor are paintings, medals, jewels, gems, antique curiosities, or mirrors exceeding the value of twenty-five dollars each, to be considered as insured unless particularly mentioned and by special agreement.

7th. No insurance will be made for a shorter term than one year, nor for a longer term than seven years. Persons choosing to insure for seven years shall be allowed one year's premium by way of discount; one third of a year's premium shall be abated in like manner on an insurance for three years.

8th. Losses sustained by fire on property insured, shall be paid in thirty days, after due proof and liquidation thereof, without deduction.

A description of the property to be insured will be expected with each application, to be made by a master carpenter and signed by him, as well as by the owner of the building or applicant for insurance, and attested before a Notary or principal Magistrate, who will certify his knowledge of the parties and their credibility.

With respect to Houses and other Buildings.

1st. The site and position; describing the street or road on or near which the building stands; its contiguity to water, and other circumstances relative to the extinguishment of fire in case of accident; and particularly whether any and what fire companies are established, and engines provided, in the place or neighbourhood.

2d. The materials of which it is built, whether of brick, stone or wood, and what part of each, as well as to the outside walls as inside or partition walls, and their respective height and thickness; the style of the roof and of what materials; how secured by battlements or party walls; what kind of access to the top of the house and to the chimneys; whether any and what electric rods; the number and kind of fire places; and the kind of deposit for ashes.

3d. The dimensions of the building and how divided, and the style in which it is finished so as to enable indifferent persons to judge in what manner it is to be repaired or rebuilt in case of injury; the age and condition of the building; and how occupied, whether merely as a dwelling house, or for any other, and for what purpose; also an estimate of the value of the house or building independent of the ground.

4th. The situation with respect to other buildings or back buildings, whether adjoining or not, comprehending at least one hundred feet each way; what kind of buildings are within that distance, how built, of what materials, and how occupied or improved, whether as dwellings for private families or otherwise; whether they are in the same or in another street; and particularly whether there be any extra hazardous articles used, or usually deposited in the house, or within the distance aforesaid, and of what kind.

5th. Respecting goods in Houses, Warehouses, &c.

A general description of the building in which they are kept will be expected, similar in all respects to the one aforesaid from which that required for Insurance on the buildings themselves.

6th. A description of the kinds and nature of the goods, whether in casks or other packages, or opened; and whether displayed in whole pieces, or in the usual form for retailing. And if the goods vary materially in kind, a general estimate of the value of each kind proposed to

be insured; but in the last particular minute description is not expected.

3. Articles of the following kinds are deemed extra hazardous, though in various degrees, in whatever building they may be placed, viz. pitch, tar, turpentine, rosin, wax, tallow, oil, inflammable spirits, sulphur, hemp, flax, cotton, dry goods of an inflammable kind or kind—Glass, china ware or porcelain, especially un-packed; Looking glasses, jewelry; and all other articles more than commonly inflammable, or more than commonly liable to injury by sudden removal or by moisture, or particularly obnoxious to theft on an alarm of fire.

Letters post paid, directed to the Secretary of the Board of Directors, will be duly attended to. An order for Insurance accompanied by the means of paying the premium, will be immediately executed on the premium being paid. If the application contain an enquiry only, it will be answered.

### Patent Ploughs,

To be sold for cash by Joseph Salter at Astor Richard Wells, Cooper's Ferry—Jonathan Harker, Woodbury—and Jesse Evans, Lumberton. Those who have used them give them the preference to any other kind, as they require less team, break the ground better, are kept in order at less expence and are sold at a cheaper rate—the plan is much simplified and consists of but one piece of cast iron, with the handles and beam of wood; they may be fixed with wrought iron ax and coulters to be put on with screws and taken off at pleasure.

Patent rights for vending with infractions for making them may be had by applying to John Newbold, or the subscriber No. 212 North Front-street.

### Mills, Portage, &c.

TO BE LEASED FOR A TERM OF YEARS. TO be leased, for a term not less than three, nor more than seven years, a VALUABLE PROPERTY at the Seneca Falls, in the county of Onondaga, and State of New York, on the Banks of the Seneca river, two miles west of the Cayuga ferry, and eleven miles east of Geneva.

This establishment consists of an excellent grist mill, saw mill, dwelling house, barn, and a portage or carrying place, with between thirty and forty acres of land, under good improvement, and as much more in the vicinity, as may be required for future improvement.

The grist mill is a handsome, new and well finished building, of 10 by 30 feet, 3 stories high and another of 8 stories, of excellent Burr stones, and another of 8 stories, of the best quality—and the most approved bowls, &c. calculated to make all the different qualities of flour or exportation or for home consumption. It is accessible by water from every part of the Cayuga lake; an Seneca river, as well as from the Seneca lake—and from its situation, commands a very extensive and increasing custom: The stream on which it stands, being the outlet of the Seneca lake, the mill can never be in want of water; and as it has been kept working during the several seasons of the last winter, it is not liable to be impeded by frost.

The saw mill is also new, situated on the same stream, now furnished with an ample stock of logs, of which a supply may at all times be procured by land or water, of the best quality.

The dwelling house is well calculated for the use of the miller, is new, and sufficiently large: The barn is about 40 feet square, and entirely new.

The portage is 3/4ths of a mile in length, along the Seneca falls—over which were pulled in the last year, nearly two hundred boats with their contents; this object is already productive of a handsome income, which must be increasing and permanent.

Among the many advantages of this situation, must be numbered the fertility of the surrounding country—being the best improved part of the county of Onondaga—the concentration of intercourse by land and water, the Seneca Railroad passing through it, as well as all water carriage to Geneva, and the counties of Ontario and Steuben, which renders it a most eligible stand for a Store or Tavern—The river and lake abound in fish and game, and the country with deer and other game.

Besides the mills already erected at this place, it is calculated for any additional water works that may be found necessary.—Fulling mill, bark mill, tannery, forges, &c. may be erected at a small expence.—Iron ore may be brought in boats from the Cayuga lake; and it is thought to abound in the neighbourhood.

The stock on hand will be sold to the best use, and the cattl., utensils, smith's forge, &c. may be sold or let for premises.

If a purchaser should offer for the whole or an undivided part of the premises will be sold.

For terms of sale or lease, apply to Mr. WILHELM MYSER, at the Seneca Falls, or to the subscriber, at Schenectady.

### Federal Mills,

**ADJOINING** Georgetown, and the City of Washington, will be offered at Public Sale, on the 10th day of September next, at the Union Tavern, if not previously sold at Private Sale.

These mills point of situation for business and equal advantages are generally admitted to be equal to any in America. The Merchant Mill is a large brick house, eighty feet by fifty, almost new, in which are erected four pair of Burr mill-stones with elevators, hopper-boys and bolting cloths, completely finished and constructed in such a manner that the whole of the mills may manufacture flour at the same time. The country mill which is erected near the other, is entirely new, a strong stone building, containing one pair of stones, and built in such a manner that the second pair may be put up with little expence. This mill is conveniently finished, and calculated to carry on extensively, country work, of which it gets a constant supply. There is belonging to the said mills 27 1/2 acres of land, the whole of which will be sold with the mills.

One third of the purchase money will be required in sixty days from the day of sale, and for the balance a liberal credit will be given. Further particulars will be made known on the day of sale.

### AN ACT

For the relief of the Refugees from the British provinces of Canada and Nova-Scotia.

BE it enacted by the Senate and House of Representatives of the United States of America, in Congress assembled, That to satisfy the claims of certain persons claiming lands under the resolutions of Congress, of the twenty-third of April, one thousand seven hundred and eighty-three, and the thirteenth of April, one thousand seven hundred and eighty-five, as refugees from the British provinces of Canada and Nova-Scotia, the Secretary for the Department of War, be, and is hereby authorized and directed to give notice in one or more of the public papers of each of the States of Vermont, Massachusetts, New-York, New-Hampshire and Pennsylvania, to all persons having claims under the said resolutions, to transmit to the War-office, within two years after the passing of this Act, a just and true account of their claims to the bounty of Congress.

Sec. 2. *And be it further enacted,* That no persons shall be entitled to the benefit of the provisions of this Act, than those of the following descriptions, or their widows and heirs, viz. First, those heads of families, and single persons, not members of any fish families, who were residents in one of the provinces aforesaid, prior to the fourth day of July, one thousand seven hundred and seventy-six, and who abandoned their settlements, in consequence of having given aid to the United Colonies or States, in the revolutionary War against Great Britain, or with intention to give such aid, and continued in the United States, or in their service, during the said war, and did not return to reside in the dominions of the King of Great-Britain, prior to the twenty-fifth of November, one thousand seven hundred and eighty-three.

Sec. 3. *And be it further enacted,* That the proof of the several circumstances necessary to entitle the applicants to the benefits of this Act, may be taken before a judge of the Supreme or District court of the United States, or a judge of the Supreme or Superior court, or the first Justice or first Judge of the court of common pleas or county court of any State.

Sec. 4. *And be it further enacted,* That at the expiration of fifteen months from and after the passing of this Act, and from time to time thereafter, it shall be the duty of the Secretary of the Department of War, to lay such evidence of claims as he may have received, before the Secretary and Comptroller of the Treasury, and with them, pre-ceed to examine the testimony, and give their judgment what quantity of land ought to be allowed to the individual claimants, in proportion to the degree of their respective services, sacrifices and sufferings, in consequence of their attachment to the cause of the United States; allowing to those of the first class a quantity not exceeding one thousand acres; and to the last class, a quantity not exceeding one hundred, making such intermediate classes as the resolutions aforesaid, and distributive justice, may in their judgment require, and make report thereof, to Congress. And in case any such claimant shall have sustained such losses and sufferings, or performed such services for the United States, that he cannot justly be classified in any one general class, a separate report shall be made of his circumstances, together with the quantity of land that ought to be allowed him, having reference to the foregoing ratio: *Provided,* that in considering what compensation ought to be made by virtue of this Act, all grants except military grants, which may have been made by the United States, or individual States, shall be considered at the just value thereof, at the time the same were made, respectively, either in whole or in part, as the case may be, a satisfaction to those who may have received the same: *Provided also,* that no claim under this Act, shall be assignable until after report made to Congress, as aforesaid, and until the said lands be granted to the persons entitled to the benefit of this Act.

Sec. 5. *Be it further enacted,* That all claims in virtue of said resolutions of Congress, which shall not be exhibited as aforesaid, within the time by this Act limited, shall forever thereafter be barred.

### HAPPY DISCOVERY.

A certain Cure for that alarming and dreadful Disorder, The Yellow Fever,

As well as any other dangerous epidemic fever, fever and ague, and other inveterate and complicated diseases, by the use of the

#### POUDRE UNIQUE,

Well known and patented in England, France, Poland, and all the capital cities in Europe, where the most astonishing cures have been effected on persons judged incurable by all physicians. In a Treatise printed in London, on the properties of this powder, by T. Seymour, M. D. late Chemist to his Majesty, there are stated two hundred cases, where this most valuable remedy has proved infallible, in all that of fevers, pleurisy, bloody flux, *incurable rheumatism, fistula, apoplexy, paralysis, yellow jaundice, dysentery, worms in children and in grown persons, scabies, rheumatism, and stomach ache, hepatic and nephritic or stone colic, the King's evil, Erysipelas and the most inveterate and complicated venereal disease.* It is likewise the best preparative for the small pox and measles; of the greatest utility for young as well as for elder ladies at the critical epoch of their life. The efficacy of this powder in several of the above diseases has been discovered by chance, and so it has been in the yellow fever last year, by Mr. Mahy, who cured several by administering only two of the said powder, and lost not a single patient which he undertook to cure, as proved and attested by the here annexed certificates, whose origin may be seen at *Andrew Hall's umbrella shop, No. 131, corner of Chestnut and Fourth streets,* the only place where these powders are to be had, with proper directions for the use of them.—*Price two dollars.*

The usefulness and certainty of this remedy being so great for so many dangerous disorders, any person willing to be provided with these powders, will please to apply very soon, as the quantity at hand is not very large, and it is doubtful if for a long time, or if ever any other genuine will be imported, the stock remaining only in the hands of the inventor, in Europe, and never being communicated to, or discovered by any other person.

N. B. In the yellow and putrid fevers, this powder must be taken the second, or at least the third day.

We the subscribers, during the late sickness in this city, having taken the yellow fever, applied to Mr. Mahy for his medical assistance, we do hereby certify, that by a certain powder, called the *Poudre Unique*, we were perfectly recovered from the said fatal sickness, and from an experience of the happy effects of the above most valuable medicine, consider it our duty to make the same known, for the benefit of our fellow citizens.
