PROPOSALS,

tional premium will be required, in proportion to

II. Infurances will also be made on buildings and goods extra hazardous, at premiums proportioned to the risque. But it is not easy to arrange these under particular heads or classes, so as to describe each with the necessary accuracy. Each case must therefore be decided upon according to the circum-stances attending it; and these circumstances will

flances artending it; and these circumstances wili, in general, appear from the description accompanying the application.

Buildings partly constructed of brick or sone, are preserable to those wholly wooden. And in both cases, the stile of building, how they are occupied, how they are situated, the neighboring buildings, and how occupied, are considerations to be taken into view. And with respect to goods, their tendency, whether from their nature, or from the manner in which they are exposed, either to commence or to increase an accidental fire, and their liability in such state to receive damage by wet, or by sudden and hasty removal, or to be solen in time of consusion and hurry, are all cirproportioned accordingly.

proportioned accordingly.

III. The fellowing conditions are to be underflood by the parties.

The hefurance is not binding till the flipulated premium be raid; but it shall be deemed effectual from the time of such payment and acceptance thereof, whether the policy be immediately flipulated or not.

figned or not.

2d. Infurances may be renewed at the expiration of the term of the policy, without further expenses than the payment of the premium of the renewed term, the circumflances continuing the fame as they were understood by the Infurers at the time the former infurance was made; but the payment of the premium is effential to such renewal; and if the party infured fulfers any time to elapse after the expiration of the former infurance, before he pays a premium for the renewal, he is not insured during such time; sor contheinsurance he renewed on the former policy but by computing the commencement of the renewal from the expiration of the former, insurance. The subject of insurance may nevertheless be open to treaty for a new insurance.

furance.

3d. If any other infurance be made on the fame or operty; it must be made known at the time of plication, otherwise the policy made on such application will be void.

4th Goods held in trust, or on configurent, ay be insured as such is a separate policy; but by are use to be considered as insured otherwise.

This company will not be liable or accoun-or any lois or damage occasioned by any for-nvasion, or by my military or usurped force-reason of any civil commotion; or occasion,

perty infured.

6th. Bills of Exchange, Bonds and other Securities, Title Deeds, Money, Bank and other promiffery Notes, are not included in any infurance; nor are paistings, medals, jewels, gems, antique curiofities, or mirrors exceeding the value of twenty-five dollars each, to be confidered as infured une less particularly mentioned and by special agreement.

7th. No infurance will be made for a fhorter term than one year, nor for a longer term than fe-ven years. Persons choosing to insure for seven years shall be allowed one year's premium by way of discount: One third of a years premium shall be abated in like manner on an insurance for

three years.

Sth. Losses fustained by fire on property infured, shall be paid in thirty days after due proof and liquidation thereof, without deduction.

quidation thereof, without deduction.

A description of the property to be insured will be expected with each application, to be made by a master carpenter and figned by him, as well as by the owner of the building or applicant for insurance, and attested before a Notary or principal Magistrate, who will certify his knowledge of the parties and their credibility.

With respect to Houses and other Buildings.

Is. The site and position; describing the fireet or road on or near which the building stands; its contiguity to water, and other circulations.

firect or toad on or near which the building stands; its contiguity to water, and other circumfiances relative to the extinguishing of fire in ease of accident; and particularly whether any and what fire companies are established, and engines provided, in the place or neighbourhood.

2d: The materials of which it is built, whether of brick, stone or wood, and what part of each, as well as to the outside walls as inside or partition walls, and their respective height and thickness; the style of the roof and of what materials; how secured by 'attlements or partition's standard of the roof and of what materials; how secured by 'attlements or partition's standard of the roof and of what

thickness; the flyle of the roof and of what materials; how fecured by battlements or party walls; what kind of access to the top of the house and to the chimnies; whether any and what electric rods; the number and kind of fire places; and the kind of deposit for ashes.

3d. The dimensions of the building and how divided, and the style in which it is finished so as to enable indifferent persons to judge in what manner it is to be repaired or rebuilt in case of injury; the age and condition of the building, and how occupied, whether merely as a dwelling house, or for any other, and for what purpose, also an estimate of the value of the house of building independent of the ground.

4th. The situation with respect to other buildings or back buildings, whether adjoining or not, comprehending at least one hundred seet each way: what kind of buildings are within that distance, how built, of what materials, and how occupied or improved, whether as dwellings for private families or otherwise: whether any and what trade or manufactory is carvinder, and restigularly whether there he any ther any and what trade or manufactory is carried on, and particularly whether there be any extra hazardous articles used, or usually deposited in the house, or within the distance aforesaid, and, of what kind.

Respecting goods in Houses, Warehouses, &c.

1. A general description of the building in
which they are kept will be expected, similar in
all respects, as to the danger from sire, with that
required for Insurance on the buildings them-

2. A description of the kinds and nature of the goods, whether in casks or other packages, or opened; and whether displayed in whole pieces or in the usual form for retailing. And

if the goods are materially in kind, a general ellimate of the value of each kind proposed to be intured; but in the last particular minute

PROPOSALS,

By THE

Infurance Company of North America.

Por Insurance, against Fire, on Dwelling-Houses, Ware-Houses, and other Buildings (and on Goods contained in such Buildings) distant from Philadelphia, in the United States.

1. Common Infurance, on hazards of the first class, will be undertaken at a premium of about halt per cent. per annum. For extra hazardous risques a larger premium will be required, which will vary according to circumstances, icidosa exteeding one per cent. per annum; but in some inflances, where the property insured is not only in itself extra hazardous, but rendered fill more so by the vicinity of extra hazardous buildings and occupations, the premium demanded will be raifed according to circumstances.

Houses and Ware-Houses, the walls and pertitions of which are wholly of some or brick, well constructed, so as to be guarded as well as may be against fires from within, and free from extra hazardous buildings and occupations in their neighborhood, will be deemed hazardous of the first class, and may be insured to their full value.

Also Goods and Merchandize, not of an extra hazardous buildings and occupations in their neighborhood, will be deemed hazardous of the first class, and may be insured to their full value.

Also Goods and Merchandize, not of an extra hazardous buildings and occupations in their neighborhood, will be deemed hazardous of the first class, and may be insured to their full value.

Also Goods and Merchandize, not of an extra hazardous buildings and occupations in their neighborhood, will be deemed hazardous of the first class, and may be insured to their full value.

Also Goods and Merchandize, not of an extra hazardous buildings and occupations in their neighborhood, will be deemed hazardous of the first class, and may be insured to their full value.

Also Goods and Merchandize, not of an extra hazardous buildings at on a mount not extended to the premium will be required, in proportion to circumstances.

To be leafed, for a term not less than three, nor more than seven years, a VALUABLE PROPERTY at the Seneca-Falls, in the county of Onondago, and state of New-York, on the Banks of the Seneca-river, two miles well of the Cayuga-ferry, and cleven miles east of Geneva.

This establishment confiss of an excellent grist

This establishment consists of an excellent grist mill, saw mill, dwelling house, harn, and a port age or carrying place, with between thirty and forty acres of land, under good improvement, and as much more in the vicinity, as may be required for future improvement.

The grist mill is a handsome, new and well fin ished building, of 50 by 30 feet, 3 stories high and surnished with a run of excellent Burr stones and another of Elopus' stones, of the best quality—and the most approved hoults, &c. calculated to make all the different qualities of flour for exportation or for home consumption: It is accessible by water from every part of the Cayuga lake and Scineca-river, as well as from the Seneca-lake—and from its situation. Commands a veryextensive and enterasing ushom. The stream of the life and it has been kept working during the severest feasor of the last winter, it is not liable to be impeded by frost:

The faw mill is also new, situated on the same stream, now surnished with an ample stock of logs, of which a supply may at all times be procured by land or water, of the best quality:

The dwelling house is well calculated for the use of the miller, is new, and sufficiently latge: The barn is about 40 feet square, and entirely new:

The portage is 3-4ths of a mile in length, along the Seneca-falls—over which were passed in the last year, nearly two hundred boats with their contents; this object is already productive of a handsome income, which must be increasing and permanent:

Among the many advantages of this situation,

Among the many advantages of this lituation, must be numbered the fertility of the furrounding country—being the best improved part of the country—being the best improved part of the country of Onondaga—the concentration of intercourse by land and water, the Genessee factoroad passing through it, as well as all water carriage to Geneva, and the countries of Ontario and Steuben; which renders it a most eligible stand for a Store or Tavern—The river and lakes abound in fish and sowl, and the country with deer and other game.

Besides the mills already creessed at this place, it is calculated for any additional water works that may be found necessary—Fulling mill, bark mill tannery, forges, &c. may be erecked at a small expense—lron ore may be brought in boats from the Cayuga lake; and it is thought to abound in the neighborhood.

The stock on hand will be fold to the lessee, and

The flock on hand wilthe fold to the leffee, and the cattle, utenfils, fmith's forge, &c. may be fold or let the premifes.

If a purchase should offer for the whole or as undivided part of the premifes it will be fold.

For terms of fale or leafe, apply to mr. WilBELMUS MYNDERSE, at the Seneca falls, or to the
fubferiber, at Scheneckady.

STEPHEN N. BAYARD.

Federal Mills,

A DJOINING Georgetown, and the City of Washington, will be offered at Public Sale, on the 10th day of September next, at the Union Tavern, if not previously sold at Private sale.

Those mills in point of situation for business and natural advantages are generally admitted to be equal to any in America. The Merchant Mill is a large brick house, eighty seet by sifty, almost new, in which are erected four pair of Burr mills flones with elevators, hopperboys and belting cloths, completely sinished and constructed in such a mamer that the whole of the mills may manufacture flour at the same time. The country mill which is crecked near the other, is entirely new, a strong stone huilding, containing one pair of sones, and built in such a manner that the second pair may be put up with little expense. This mill is conveniently sinished, and calculated to carry on extensively, country work, of which it gets a containing the property of the price is belonging to the faid mills are areas of land, the whole of which will be fold with the mills.

One third of the purchase money will be required in fixty days from the day of sale, and for the balance a liberal credit will be given. Further particulars will be made known on the day of sale.
