II. Infurances will also be made on buildings and goods extra hazardous, at premiums proportioned to the risque. But it is not easy to arrange these under particular heads or classes, so as to describe each with the necessary accuracy. Each case must therefore be decided upon according to the circumstances a tending it; and these circumstances will, in general, appear from the description accompanying the application.

Buildings partly constructed of brick or stone, are presented to these wholly wooden. And in both cases, the fille of building, how they are occupied, how they are fituated, the neighboring buildings, and how occupied, are considerations to be taken into view. And with respect to goods, their tendency, whether from their nature, or from the manner in which they are exposed, either to commence or to increase an accidental fire, and their liability in such state to receive damage by wer, or by sudden and hally removal, or to be stolen in time of confusion and hurry, are all circumstances of weight; and the premiums must be proportioned accordingly.

proportioned accordingly.

III. The following conditions are to be understood by the parties.

III. The Infurance is not binding till the slipulated premium be paid; but it shall be deemed effectual from the time of such payment and acceptance thereof, whether the policy be immediately fixed or not

figured or not.

2d. Infurances may be renewed at the expiration of the term of the policy, without further expendes than the payment of the premium of the renewed term, the circumftances continuing the fame as they were understood by the Infurers at the time the former infurance was made; but the payment of the premium is effential to fuch renewal; and if the party infured fuffers any time to elapfe after the expiration of the former infurance, before he pays a premium for the renewal, he is not infured during fuch time; nor can the infurance be renewed on the former policy but by computing the commencement of the renewal from the expiration of the former infurance. The fubject of infurance may nevertheles be open to treaty for a new infurance.

3d. If any other infurance be made on the fame roperty; it must be made known at the time of plication, otherwise the policy made on such aparation will be void.

4th Goods held in trust, or on confignment,

ath Goods held in truit, or on configurent, ray be infured as such in a separate policy; but they are not to be confidered as insured otherwise.

5th. This company will not be liable or accountable for any loss or damage occasioned by any forces in vasion, or by my military or usured force or by reason of any civil commotion; or occasion, ed by gunpowder, aquasortis or other thing of the

like kind kept in the building, or amongst the pro-

perty infared.

6th. Bills of Exchange, Bonds and other Securities, Title Deeds, Money, Bank and other promillory Notes, are not included in any infarance;
nor are paintings, medals, jewels, gems, antique
curiofities, or mirrors exceeding the value of twenty-live dollars each, to be confidered as infured une
less particularly mentioned and by special agree-7 h. No infurance will be made for a fhorter

term than one year, nor for a longer term than fe-year years. Perfons choosing to insure for seven years shall be allowed one year's premium by way of discount: One third of a years premium shall be abated in like manner on an insurance for

Sth. Losses sustained by fire on property insured, shall be paid in thirty days after due proof and liquidation thereof, without dediction.

A description of the property to be insured will be expected with each application, to be made by a master carpenter and signed by him, as well as by the owner of the building or applicant for insurance, and attested before a Notary or principal Magistrate, who will certify his knowledge of the parties and their credibility.

With respect to Houses and other Buildings.

18. The site and position; describing the street or road on or near which the building stands; its contiguity to water, and other cir-

frands; its contiguity to water, and other cir-cumflances relative to the extinguishment of fire in case of accident; and particularly whether any and what fire companies are established, and engines provided, in the place or neighbourhood. 2d. The materials of which it is built, when

engines provided, in the place or neighbourhood.

2d. The materials of which it is built, whether of brick, stone or wood, and what part of each, as well as to the outside walls as inside or partition walls, and their respective height and thickness; the style of the roof and of what materials; how secured by battlements or party walls; what kind of access to the top of the house and to the chimnies; whether any and what electric rods; the number and kind of sire places; and the kind of deposit for aftes.

3d. The dimensions of the building and how divided, and the style in which it is sinished so as to enable indiscrent persons to judge in what manner it is to be repaired or rebuilt in case of injury; the age and condition of the building, and how occupied, whether merely as a dwelling house, or for any other, and for what purpose; also an estimate of the value of the house or building independent of the ground.

4th. The situation with respect to other buildings or back buildings, whether adjoining or not, comprehending at least one hundred sect each way: what kind of buildings are within that distance, how built, of what materials, and how occupied or improved, whether as dwellings for private families or otherwise: whether any and what trade or manufactory is carried on, and particularly whether there be any

ther any and what trade or manufactory is carried on, and particularly whether there be any fited in the house, or within the distance afore-faid, and of what kind.

Respecting goods in Houses, Warehouses, &c. which they are kept will be expected, fimilar in all refpects, as to the danger from fire, with that required for Infurance on the buildings them-felves.

2. A description of the kinds and nature of the goods, whether in cafes or other packages, or opened; and whether displayed in whole pieces or in the usual form for retailing. And

PROPOSALS,

BY THE

Infurance Company of North America.
For Insurance against Fire, on Dwelling-Moules, Ware-Houses, and other Buildings (and on Goods contrained in fuch Buildings) diffant from Philadelphia, in the United States.

I. Common Infurances, on hazards of the first class, will be undertaken at a promium of about halt per cent. per annum. For extra hazardous risques a larger premium will be required, which will vary according to circumstances, feidons exceeding one per cent. per annum; but in some infinences, where the property insured is not only in itself extra hazardous, but rendered fill more fo by the vicinity of extra hazardous buildings and occupations, the premium demanded will be raifed according to circumstances.

Houses and Ware-Houses, the walls and purtitions of which are wholly of fone, or brick, well confiructed, so as to be guarded as well as may be again fires from within, and tree from extra hazardous buildings and occupations in their neighborhood, will be deemed hazardous of the first class, and may be insured to their full value.

Also Goods and Merchandize, not of an extra hazardous kind, in casks, bales, or packages, deposited in such buildings, to an amount not exceeding accoording approximate will be required, in proportion to currumstances.

It is the goods vary materially in kind, a general elimate of the value of cach kind proposed to be insured to a first class, and the proposed viz.

John the distinguisting that in the fillings did define for the state of the following kinds are deemed extra hazardous, thought in various degrees.

John the distinguisting that from the state of the following kinds are deemed extra hazardous, viz.

John the fillings of the first class, will be duly attended to. An order for Insurance accompanied by the means of paying the premium, will be immediately executed on the premium being paid. If the application contain an enquiry only, it will be answered.

Not be proving kind t

To be leased, for a term not less than three, nor more than seven years, a VALUABLE PROPERTY at the Seneca-Falls, in the county of Onondago, a nd atte of New-York, on the Banks of the Soneca-river, two miles well of the Cayugaferry, and eleven miles east of Geneva.

This establishment configs of an excellent grist mill, saw mill, dwelling house, barn, and a port age or carrying place, with between thirty and forty acres of land, under good improvement, and as much more in the vicinity, as may be required for future improvement.

forty acres of land, under good improvement, and as much more in the vicinity, as may be required for future improvement.

The grist mill is a handsome, new and well fin listed building, of 50 by 30 feet, 3 stories high and furnished with a run of excellent Burr stones and another of Esopus' stones, of the best quality—and the most approved boalts, &c. calculated to make all the different qualities of flour for exportation or for home consumption: It is accessible by water from every part of the Cayuga lake and Seneca-river, as well as from the Seneca-lake—and from its situation, commands a very extensive and encreasing custom: The stream on which it stands, being the outlet of the Seneca-lake, the mill can never be in want of water; and as it has been kept working during the severest scason of the last winter, it is not liable to be impeded by frost:

The faw mill is also new, situated on the same stream, now furnished with an ample stock of logs, of which a supply may at all times be procured by land or water, of the best quality:

The dwelling house is well calculated for the use of the miller, is new, and sufficiently large: The barn is about 40 feet square, and entirely new.

The portage is 2-4ths of a mile in length, along the Seneca-falls—over which were passed in the last year, nearly two hundred boats with their contents; this object is already productive of a handsome income, which must be increasing and permanent:

Among the many advantages of this situation,

Among the many advantages of this fituation, anuft be numbered the fertility of the furrounding country—being the best improved part of the county of Onondaga—the concentration of intercourse by land and water, the Genessee stateroad passing through it, as well as all water carriage to Geneva, and the counties of Ontario and Steuben; which renders it a most eligible stand for a Store or Tavere—The river and lakes abound in fish and sowl, and the country with deer and other game.

Besides the mills already credied at this place, it is calculated for any additional water works that may be found necessary—Fulling mill, bark mill tannery, forges, &c. may be credied at a small expense—Iron ore may be brought in boats from the Cayuga lake; and it is thought to abound in the neighborhood.

The flock on hand will be fold to the lessee, and

The flock on hand will be fold to the leffee, and the cattle, utenfils, fmith's forge, &c. may be fold

If a purchase should offer for the whole or an undivided part of the premifes it will be fold.

For terms of fale or leafe, apply to mr. Willelmus Myndersz, at the Seneca falls, or to the ubscriber, at Schened STEPHEN N. BAYARD.

Federal Mills.

A DJOINING Georgetown, and the City of Washington, will be offered at Public Sale, on the 10th day of September next, at the Union Tavern, if not previously fold at Private sale.

Those mills in point of Stuation for business and natural advantages are generally admitted to be equal to any in America. The Merchant Mill is a large brick house, eighty seet by sifty, almost new, in which are erceled four pair of Burr millstones with elevators, hopperboys and bolting cloths, completely sinished and constructed in such a manner that the whole of the mills may manufacture flour at the same time. The country mill which is erceded near the other, is entirely new, a strong stone building, containing one pair of stones, and built in such a manner that the second pair may be put up with little expense. This mill pair may be put up with little expense. This mill is conveniently finished, and calculated to carry on extensively, country work, of which it gets a constant supply. There is belonging to the faid mills a 7 \frac{1}{2} acres of land, the whole of which will be fold with the mills.

fold with the mills.

One third of the purchase money will be required in fixty days from the day of sale, and for the balance a liberal credit will be given. Further particulars will be made known on the day of sale.
