

PROPOSALS,

Insurance Company of North America. For Insurance against Fire, on Dwelling-Houses, Ware-Houses, and other Buildings...

I. Common Insurances, on hazards of the first class, will be undertaken at a premium of about half per cent. per annum.

House and Ware-Houses, the walls and partitions of which are wholly of stone or brick, well constructed, so as to be guarded as well as may be against fires from within, and free from extra hazardous buildings and occupations in their neighborhood...

Also Goods and Merchandise, not of an extra hazardous kind, in casks, bales, or packages, deposited in such buildings, to an amount not exceeding 4000 dollars; but if more than this sum is required to be insured in one tenement, an additional premium will be required, in proportion to circumstances.

II. Insurances will also be made on buildings and goods extra hazardous, at premiums proportioned to the risk. But it is not easy to arrange these under particular heads or classes, so as to describe each with the necessary accuracy.

Buildings partly constructed of brick or stone, are preferable to those wholly of wood. And in both cases, the site of building, how they are occupied, how they are situated, the neighboring buildings, and how occupied, are considerations to be taken into view.

III. The following conditions are to be understood by the parties. I. The insurance is not binding till the stipulated premium be paid; but it shall be deemed effectual from the time of fifth payment and acceptance thereof, whether the policy be immediately signed or not.

2d. Insurances may be renewed at the expiration of the term of the policy, without further expense than the payment of the premium of the renewed term, the circumstances continuing the same as they were under the former policy at the time the former insurance was made; but the payment of the premium is essential to such renewal; and if the party insured suffers any time to elapse after the expiration of the former insurance, before he pays a premium for the renewal, he is not insured during such time; nor can the insurance be renewed on the former policy but by computing the commencement of the renewal from the expiration of the former insurance. The subject of insurance may be veridically open to treaty for a new insurance.

3d. If any other insurance be made on the same property; it will be made known at the time of application, otherwise the policy made on such application will be void.

4th. Goods held in trust, or on confinement, may be insured as such in a separate policy; but they are not to be considered as insured otherwise.

5th. This company will not be liable or accountable for any loss or damage occasioned by any foreign invasion, or by any military or usurped force, or by reason of any civil commotion; or occasioned by gunpowder, aquafortis or other thing of the like kind kept in the building, or amongst the property insured.

6th. Bills of Exchange, Bonds and other Securities, Title Deeds, Money, Bank and other promissory Notes, are not included in any insurance; nor are paintings, medals, jewels, gems, antique curiosities, or mirrors exceeding the value of twenty-five dollars each, to be considered as insured unless particularly mentioned and by special agreement.

7th. No insurance will be made for a shorter term than one year, nor for a longer term than five years. Persons choosing to insure for seven years shall be allowed one year's premium by way of discount. One third of a year's premium shall be abated in like manner on an insurance for three years.

8th. Losses sustained by fire on property insured, shall be paid in thirty days after due proof and liquidation thereof, without deduction.

A declaration of the property to be insured will be expected with each application, to be made by a master carpenter and signed by him, as well as by the owner of the building or applicant for insurance, and attested before a Notary or principal Magistrate, who will certify his knowledge of the parties and their credibility.

With respect to Houses and other Buildings. 1st. The site and position; describing the street or road on or near which the building stands; its contiguity to water, and other circumstances relative to the extinguishment of fire in case of accident; and particularly whether any and what fire companies are established, and engines provided, in the place or neighbourhood.

2d. The materials of which it is built, whether of brick, stone or wood, and what part of each, as well as to the outside walls as inside or partition walls, and their respective height and thickness; the style of the roof and of what materials; how secured by battlements or party walls; what kind of access to the top of the house and to the chimneys; whether any and what electric rods; the number and kind of fire places; and the kind of deposit for ashes.

3d. The dimensions of the building and how divided, and the style in which it is finished so as to enable indifferent persons to judge in what manner it is to be repaired or rebuilt in case of injury; the age and condition of the building, and how occupied, whether merely as a dwelling house, or for any other, and for what purpose; also an estimate of the value of the house or building independent of the ground.

4th. The situation with respect to other buildings or back buildings, whether adjoining or not, comprehending at least one hundred feet each way; what kind of buildings are within that distance, how built, of what materials, and how occupied or improved, whether as dwellings for private families or otherwise; whether any and what trade or manufactory is carried on, and particularly whether there be any extra hazardous articles used, or usually deposited in the house, or within the distance aforesaid, and of what kind.

Respecting goods in Houses, Warehouses, &c. 1. A general description of the building in which they are kept will be expected, similar in all respects, as to the danger from fire, with that required for Insurance on the buildings themselves. 2. A description of the kinds and nature of the goods, whether in casks or other packages, or opened; and whether displayed in whole pieces or in the usual form for retailing. And

if the goods vary materially in kind, a general estimate of the value of each kind proposed to be insured; but in the last particular minuteness of description is not expected.

3. Articles of the following kinds are deemed extra-hazardous, though in various degrees, in whatever building they may be placed, viz. pitch, tar, turpentine, rosin, wax, tallow, oil, inflammable spirits, sulphur, hemp, flax, cotton, dry goods of an inflammable kind, opened.—Glass, china ware or porcelain, especially unopened; Looking glasses, jewelry; and all other articles more than commonly inflammable, or more than commonly liable to injury by sudden removal or by moisture, or particularly obnoxious to theft on an alarm of fire.

Letters post paid, directed to the Secretary of the Board of Directors, will be duly attended to. An order for Insurance accompanied by the means of paying the premium, will be immediately executed on the premium being paid. If the application contain an enquiry only, it will be answered.

By order of the Board, Ebenezer Hazard, Sec'y. Office of the Insurance Company of North America; Philad. Feb. 1, 1798.

CAUTION TO THE PUBLIC.

JOHN A. SHAEFFER, of Philadelphia, who has for a few years past been in the southern States, has had the opportunity to draw several Bills of Exchange on Timothy Pickering, Esq. To prevent further imposition, I have to request the printers of Newspapers in the United States to publish this for the benefit of their fellow-citizens. THIS DAY PUBLISHED, By WILLIAM YOUNG,

Corner of Chestnut and Second-streets, JOAN OF ARC, AN EPIC POEM.

By Robert Southey; with notes. "WE do not hesitate to declare our opinion that the poetical powers displayed in it are of a very superior kind—Conceptions more lofty and daring, sentiments more commanding, and language more energetic. will not easily be found: nor does scarcely any part of it sink into languor, as the glow of feelings and genius animates the whole. The language is, for the most part, modelled on that of Milton; and not unfrequently, it has a strong relish of Shakespeare."

A HISTORY, OR ANECDOTES OF THE REVOLUTION IN RUSSIA, IN THE YEAR 1762.

Translated from the French of M. de Rulhiere; With an elegant Head of the late Empress. [The second edition, price 75 cents.]

"The grounds of M. de Rulhiere's information seem indisputable, and his readers appear to have every reason to be satisfied with his discernment, in unfolding the motives and circumstances that concurred in bringing about this striking event. We shall only add, that we have seldom met with more interesting original anecdotes, than those that are contained in the little work which we have now reviewed."
